Old Tamina Water Supply Corporation

Water Service Application

SERVICE AGREEMENT

- I. **Purpose** The Old Tamina W.S.C. (Corporation) is responsible for protecting the drinking water supply from contamination or pollution which could result from improper system construction or configuration on the retail connection owner's side of the meter. The purpose of this service agreement is to notify each customer of the restrictions which are in place to provide this protection. The Corporation enforces these restrictions to insure the public health and welfare. Each retail customer must sign this agreement before the Old Tamina W.S.C. will begin services. In addition, when services to an existing retail connection has been suspended or terminated, the Corporation will not re-establish services unless it has a signed copy of this agreement.
- II. **Restrictions** The following unacceptable practices are prohibited by State regulations:
- a. No direct connection between public drinking supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
 - b. No cross connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
 - c. No connection which allows water to be returned to the public drinking supply is permitted.
 - d. No pipe or pipe fitting which contains more than 0.25% lead may be used for the installation of repair of plumbing at any connection which provides water for human use.
 - e. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.
- III. **Service Agreement** The following are the terms of the service agreement between the Old Tamina Water Supply Corporation and X
- a. The Corporation will maintain a copy of this agreement as long as the customer and/or premises is connected to the Water System.
 - b. The customer shall allow his property to be inspected for the possible cross-connections and other potential contamination hazards. These inspections shall be conducted by the Corporation or its designated agent prior to initiating service; when there is a reason to believe that cross connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. The inspections shall be conducted during the Water Systems normal business hours.
 - c. The Corporation shall notify the Customer in writing of any cross-connections or other potential contamination hazard which has been identified during the initial inspection or periodic re-inspections.
 - d. The Customer shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his premises.
 - e. The Customer, at his expense, properly install, test, and maintain any backflow prevention device required by the Corporation. Copies of all testing and maintenance records shall be provided to the Water System.
- IV. **Enforcement** If the Customer fails to comply with the terms of the Service Agreement, the Corporation shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the customer.
