**“Because of my personal experience with my own Grandmother, I know first-hand how overwhelming it can be when a loved one's health fails. Whether the concern is about keeping your loved one in their home safely, or the cost of assisted living or a nursing home, this decision can be emotionally and financially devastating, not only on the individual, but the entire family. There is Hope. I have made it my mission to help other families who are dealing with the same issues that my family struggled with. It is extremely important that you learn what steps you should be taking now, in order to protect yourself and your family.”**
