WHY iRepairTek?

One of the most critical decisions to the education community in this new mobile technology world, is how are we going to support and maintain our equipment?

With the type service offerings, we that choice easy for you.

Program Designed Specifically for Educational Institutions

This program was created specifically for the education community, with input from educators.

Dedicated Customer Service

You will assigned a dedicated Customer Service rep that will ensure your total satisfaction.

Buyback Program

iRepairTek provides a buy-back program that provides much needed capital. Even if the device doesn't work.

Free Pick/Dropoff on ALL Repairs

To ensure repair timeliness and convenience to our educational technology professionals, we offer free device delivery service. Ask us for further details.

24 - 48 Hour Turnaround Time on Most Repairs*

We will have your device back your hands in days; not weeks. All repairs done in-house.

Flexible Protection Plans

We can customize your Protection Plan to suit your needs, budget or scope.

Only Background Checked, Fully Trained Techs

All of our iRepairTek techs go through a full background check and training program to ensure your device care.

We Only Use OEM Grade Replacement Parts

iRepairTek only uses the highest quality replacement parts. Many repair shops will use sub-par parts.

NOT US!!

* On all common repairs

iRepairTek Device Repair Pricing

iRepairTek is very competitive in their repair pricing to educational institutions. Most of our pricing is 20% - 25% off regular retail pricing. We understand that educators have limited funds in purchasing and maintaining technology.

Your mobile device is completed correctly the first time and the quickest in the industry!

Benefits of Repairing versus Replacement

You know the time-consuming process of decommissioning broken or end-of-life equipment. Get that broken mobile device repaired, that will eliminate the decommissioning process.

Stick with iRepairTek to repair and eliminate back-end admin work.

No Need to Decommission or Recommissioning Broken Devices

The process of decommissioning and recommissioning process is long and tedious. By repairing versus replacing, it totally takes this process out of the equation. We just send us the mobile device and we repair the same device.

No Data Loss

All student data is saved, with the exception of extreme circumstances. There will be no reason to reload custom programs or apps. The mobile device will be returned exactly like it was sent; except repaired.

Lower Capital Expenditures versus Replacement

Replacing a mobile device can cost up to \$400 - \$2000 depending on the device. We can repair the device for a fraction of the cost of replacement.

Contact Us Today

You know the time-consuming process of decommissioning broken or end-of-life equipment. Get that broken mobile device repaired, that will eliminate the decommissioning process.
