

Marketplace at Silverado

Stats:

LOCATION:
Calgary, AB

CLIENT:
Ronmor Developers

PROJECT TIMELINE:
2009 2010 2011 2012 2013

OUR ROLE:
Civil Engineering Consultant

PROJECT TYPE: Commercial Site - Design and Construction

PROJECT DESCRIPTION:

With a tenant mix which includes grocery, pharmacy and financial institutions, the Marketplace at Silverado is a 4.6 hectare mixed use commercial development situated in the new Calgary community of Silverado. This LEED-inspired centre developed by Ronmor Developers includes a central plaza and pedestrian-friendly walkways throughout.

SERVICES WE PROVIDED:

Scheffer Andrew Ltd. was responsible for the civil engineering design of the development in co-ordination with the architect, structural and mechanical engineers and numerous other consultants. Some off-site work was required to tie in to the existing sewer and water in the adjacent streets. The client also engaged our firm to undertake a Stormwater Management Report and implementation of our Erosion and Sediment Control plan. During construction of the project, Scheffer Andrew Ltd. provided clarifications as well as inspection services.
