

VALLEY ANIMAL HAVEN'S OWNER SURRENDER POLICY:

We first and foremost take in animals from our local animal control facilities. These animals have run out of time to be adopted and may be euthanized without our intervention.

Depending on the available space in our shelter, which fluctuates on a daily basis, we may have open spots for people to surrender their pets to us. Each owner surrendered animal must undergo a behavior and health assessment performed by our Executive Director. The assessments are by appointment only, and help us determine the animal's adoptability.
