RECOMMENDED
CIP BUDGET

FISCAL YEAR 2019-2020

THIS PAGE INTENTIONALLY LEFT BLANK

Introduction and Overview

Salt Lake City's Capital Improvement Program (CIP) is a multi-year planning program of capital expenditures needed to replace or expand the City's public infrastructure. Two elements guide the City in determining the annual schedule of infrastructure improvements and budgets. These include:

- The current fiscal year's capital budget and;
- The 10 Year Impact Fee Facilities Plan.
 - o This document details the City's infrastructure needs that could be addressed with general, enterprise and impact fee funds, and establishes a program to address those needs within the City's ability to pay.

Salt Lake City's FY 2019-20 budget appropriates \$995,544,454 for CIP, utilizing General Funds, Class "C" Funds, Impact Fee Funds, Redevelopment Agency Funds, Enterprise Funds, and other public and private funds. The City CIP Budget Process includes a review by the Community Development Capital Improvement Program (CDCIP) Board, consisting of community residents. The CDCIP Board makes funding recommendations to the Mayor.

Mayor Jackie Biskupski and her staff then review all CIP projects, including the funding recommendations from the CDCIP. The Mayor then makes a funding recommendation to the City Council the detail of which is included in this, the Mayor's Recommended CIP Budget.

The Salt Lake City Council will consider the Mayor's recommendations along with those of the CDCIP in upcoming meetings. A final CIP Budget will be proposed prior to the official budget adoption.

In considering major capital projects, the City looks at the potential operating impact of each project. New capital improvements often entail ongoing expenses for routine operation, repair and maintenance upon completion or acquisition and new facilities often require the addition of new positions to maintain the new infrastructure. Conversely, a positive contribution a capital project can make to the fiscal well-being of the city, such as a reduction in on-going repairs and maintenance, is also factored into the decision-making process. Each general fund project includes a section for estimated future maintenance and/or operations expenses where departments have included projections of future operating cost increases.

The City also reviews all CIP projects to determine if significant progress has been made. All unfinished projects older than three years that do not show significant progress are then considered for recapture to allow those funds to be used on shovel ready projects.

Salt Lake City Resolution No. 29 of 2017 / Salt Lake City Council Capital and Debt Management Policies

Resolution No. 29 of 2017 has provided a framework on which the Administration has built its CIP recommendations for FY 2019-20. This guidance helps clarify the expectations the City's decision makers should have for the City's Capital Improvement Program, and the steps the Administration should take in determining how to best address the City's deferred and long-term maintenance needs.

Among the policies guiding the CDCIP Board and the Administration are included:

- A definition of a capital improvement as having a useful life of five or more years, and that a capital improvement is not a recurring capital outlay such as a motor vehicle or a fire engine. It also clarifies

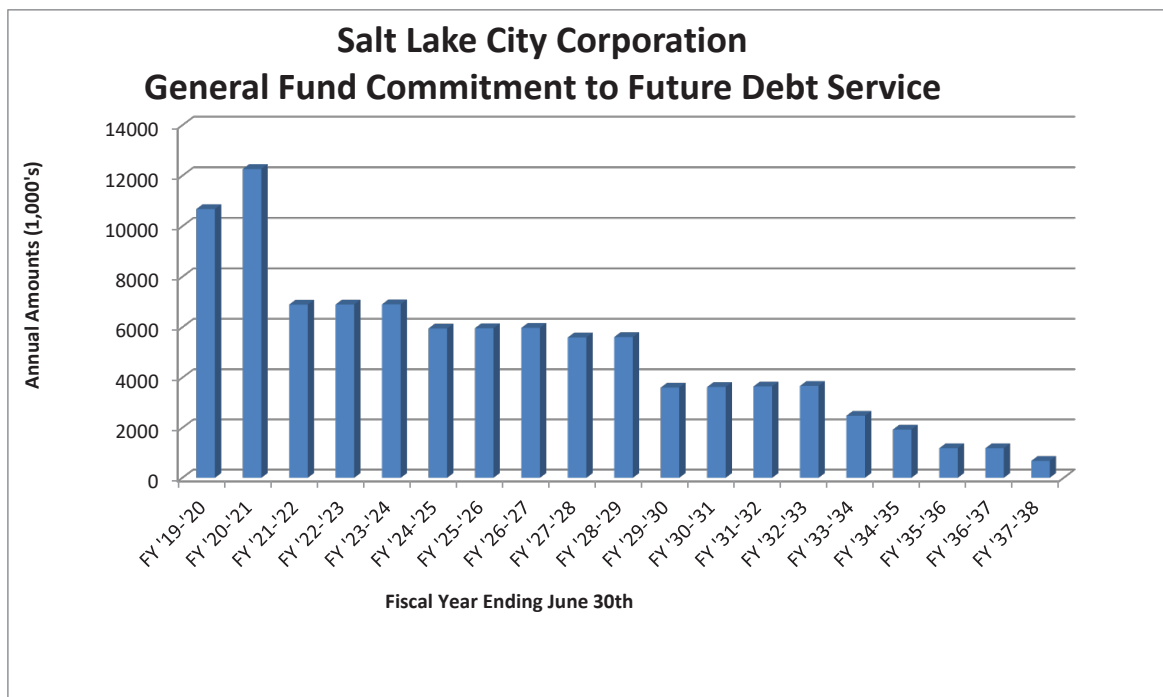

that a capital outlay does not include maintenance expenses such as fixing a leaking roof or painting park benches. A capital improvement must also generally have a cost of \$50,000 or more, with few exceptions.

- A goal that the City will maintain its physical assets at a level adequate to protect the City’s capital investments and minimize maintenance and replacement costs.
- Priority is given to projects that preserve and protect the health and safety of the community; are mandated by the state and/or federal government; and provide for the renovation of existing facilities resulting in a preservation of the community’s prior investment.
- A policy to recapture Capital Improvement Program funds where a project is completed and a balance remains during the first budget amendment of each year.

Debt Service (excluding G.O. Bonding)

The City’s General Fund accounts for all debt service on outstanding Sales and Excise Tax Revenue bonds (except for the Eccles Theatre project), Local Building Authority Lease Revenue bonds (except for Glendale and Marmalade libraries) and Motor Fuel Excise Tax Revenue bonds through a payment from the City CIP contribution. Funds to pay debt service are included in the proposed annual budget of \$11,544,889.

Outstanding Sales and Excise Tax Revenue bonds financed a variety of the City’s capital improvement projects. Local Building Authority Lease Revenue bonds financed the construction of two fire stations in Salt Lake City. Motor Fuel Excise Tax Revenue bonds funded the reconstruction of Class C roads throughout the City. The administration continuously evaluates the City’s funding of its Capital Improvement Program. Proceeds from debt financing are considered as one of the sources for funding the City’s capital improvement projects. The City analyzes the effect that the issuance of additional debt may have on the City’s debt capacity and current debt ratio.

Capital Projects

The following pages include detailed proposals for each project the Mayor is recommending for funding in fiscal year 2019-20. These pages also show a breakout of the funding recommendations and future costs associated with each project.

The proposed projects represent new projects identified by the CDCIP and the Mayor and her staff. The proposal also includes funding for a capital asset management plan to protect current City infrastructure as well as funding for street reconstruction and overlay. The total for capital projects in the FY 2019-20 budget is \$6,531,074.

Maintenance Projects

The Mayor's proposal also consists of projects that meet the City's definition of CIP of over \$50,000 (for capitalization), but are ongoing in nature. These funds help with the maintenance of capital investments to ensure these investments don't deteriorate and require new capital expenditures to replace the valuable assets the City already has.

The Administration reviewed all projects that were presented to determine if the project was a new capital expenditure or an on-going maintenance project. The following pages provide detail of those projects that were deemed maintenance projects. Total funding for maintenance projects is requested at \$1,945,383.

Enterprise Fund Projects

Enterprise Funds

The City's enterprise functions – Airport, Public Utilities, RDA and Golf – are by nature, very capital intensive. The budgets for these activities reflect the need to maintain the integrity and capacity of the current capital infrastructure and their functions.

Airport Enterprise Fund

The Airport CIP consists of \$787,271,000 of Airport improvements in FY 2019-20. Of this amount, approximately \$18,296,000 is appropriated for improvements at the South Valley Regional Airport and the Tooele Valley Airport, while \$22,055,000 is set aside for improvements to the Salt Lake City airport. The Terminal Redevelopment Program and North Concourse Program have budgets of \$295,220,000 and \$451,700,000, respectively, to provide ongoing architecture, engineering, construction administration, construction trade procurement, construction, testing, commissioning, and management.

Public Utilities Funds

Public Utilities CIP consist of projects within the Water Utility, Sewer Utility, Storm Water Utility and Street lighting Utility enterprise funds. These projects include improvements at treatment plants, reservoirs and along the riparian corridor. Projects are also scheduled for improvements within the collection and distribution lines and lighting infrastructure. Public Utilities capital projects are proposed totaling \$172,094,600.

Redevelopment Agency of Salt Lake City Funds

The Redevelopment Agency of Salt Lake City with a \$2,661,850 allocation from various funding sources continues to provide additional infrastructure improvements to Salt Lake City.

Golf Enterprise Fund

Golf Operations proposed a budget total appropriation of \$680,000. This amount includes annual emergency capital, equipment, facilities and infrastructure improvements of courses and buildings. It proposes a purchase of \$240,000 for equipment and irrigation improvements at Mountain Dell in the amount of \$350,000.

DEBT SERVICE CIP

FISCAL YEAR 2019-2020

THIS PAGE INTENTIONALLY LEFT BLANK

Sales Tax Revenue Bonds, Series 2007A

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$401,905	Sales Tax Rev Bonds	July 2007	10/1/2026	General Fund

Sales Tax Revenue Bonds, Series 2007A, were issued in July 2007 to fund the TRAX Extension to the Inter-modal Hub and Grant Tower improvements to realign rail lines near downtown. The bonds were issued with a par amount of \$8,590,000. As of June 30, 2019, \$3,480,000 in principal remains outstanding.

The TRAX Extension and Grant Tower projects were completed as of April 22, 2010 and June 11, 2010, respectively. The project funds have been fully reimbursed and the project accounts are closed.

RDA and General Fund currently pay portions of the debt service. RDA's contributions will end in FY2022. Then the bonds become fully payable by General Fund.

Principal is due annually on October 1. Interest is due semi-annually on April 1 and October 1. The bonds mature 10/1/2026.

Sales and Excise Tax Revenue Bonds, Series 2012A

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$491,121	Sales Tax Rev Bonds	June 2012	10/1/2032	General Fund

Sales and Excise Tax Revenue Bonds, Series 2012A, were issued in June 2012 for the purpose of constructing and improving various City roads, including the replacement of the North Temple Viaduct and improving North Temple Boulevard. The bonds were issued with a par amount of \$15,855,000. As of June 30, 2019, \$12,095,000 in principal remains outstanding.

An art and landscaping project using remaining bond funds is expected to be completed in April 2019. Upon completion of this project, any remaining funds will be transferred to the debt service and the project accounts will be closed.

Principal is due annually on October 1. Interest is due semi-annually on April 1 and October 1. The Series 2012A bonds mature on October 1, 2032.

Sales and Excise Tax Revenue Bonds, Series 2013B

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$454,008	Sales Tax Rev Bonds	November 2013	10-01-2033	General Fund

Sales and Excise Tax Revenue Bonds, Series 2013B, were issued in November 2013 for the purpose of financing a portion of the costs of the Sugarhouse Streetcar, and to pay for a portion of various improvements to create a "greenway" within the corridor. The total par amount of bonds issued was \$7,315,000. As of June 30, 2019, \$6,065,000 in principal remains outstanding.

The Streetcar and Greenway projects were completed as of January 26, 2016. The project costs have been fully reimbursed and the project accounts are closed.

Principal is due annually on October 1. Interest is due semi-annually on April 1 and October 1. The bonds mature on October 1, 2033.

Taxable Sales Tax Revenue Refunding Bonds, Series 2014A

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$ 5,301,194	Sales Tax Rev Bonds	July 2014	10-01-2020	General Fund

Taxable Sales Tax Revenue Refunding Bonds, Series 2014A were issued in July 2014 to refund the Series 2005A bonds. The Series 2005A bonds were originally issued to refund all of the City's MBA (Municipal Building Authority) debt.

The Series 2014A bonds were issued with a par amount of \$26,840,000. The refunding resulted in a net present value savings of \$1,517,025.39 for the City. As of June 30, 2019, \$10,485,000 in principal remains outstanding.

Principal is due annually on October 1. Interest is due semi-annually on April 1 and October 1. The bonds mature on October 1, 2020.

Sales and Excise Tax Revenue Bonds, Series 2014B

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$754,858	Sales Tax Rev Bonds	September 2014	10-01-2034	General Fund

Sales and Excise Tax Revenue Bonds, Series 2014B, were issued in September 2014 for the purpose of acquiring, constructing, remodeling, and improving of various City buildings, parks, property and roads.

Most of the projects have been completed. A portion of the balance is being used to complete the maintenance facility at the Regional Athletic Complex. Upon completion of this project, any remaining funds will be transferred to the debt service and the project accounts will be closed.

The Series 2014B bonds were issued with a par amount of \$10,935,000. As of June 30, 2019, \$9,325,000.00 in principal remains outstanding.

Principal is due annually on October 1. Interest is due semi-annually on April 1 and October 1. The bonds mature on October 1, 2034.

Sales and Excise Tax Revenue Refunding Bonds, Series 2016A

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$1,994,243	Sales Tax Rev Bonds	June 2016	10-01-2028	General Fund

Sales and Excise Tax Revenue Refunding Bonds, Series 2016A, were issued in June 2016 to refund a portion of the Series 2009A Bonds. The Series 2009A Bonds were originally issued to finance all or a portion of the

acquisition, construction, improvement and remodel of the new Public Services maintenance facility, a building for use as City offices and other capital improvements within the City.

Fleet contributes 13.9%, Refuse contributes 13%, and the general fund contributes 73.1% of the debt service on the Maintenance Facility Program portion of the bonds.

The Series 2016A bonds were issued with a par amount of \$21,715,000. The refunding resulted in a net present value savings of \$2,363,890.47 for the City. As of June 30 2019, \$21,715.00 in principal remains outstanding.

Principal is due annually on October 1. Interest is due semi-annually on April 1 and October 1. The bonds mature 10/1/2028.

Motor Fuel Excise Tax Revenue Bonds, Series 2014

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$785,005	Sales Tax Rev Bonds	August 2014	04-01-2024	General Fund

The Motor Fuel Excise Tax Revenue Bonds, Series 2014, were issued in August 2014 for the purpose of constructing and repairing 13th South Street from State Street to 4th West, and from State Street to 5th West, and 17th South Street from State Street to 700 East.

The 13th South and 17th South projects were completed as of August 31, 2017. The project costs have been fully reimbursed and the project accounts are closed.

The Series 2014 bonds were issued with a par amount of \$8,800,000. As of June 30, 2019, \$4,600,000 in principal remains outstanding.

Principal is due annually on April 1. Interest is due semi-annually on April 1 and October 1. The bonds mature on April 1, 2024.

ESCO Lease Debt Service

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$82,850	Capital Lease	December 2019	March 2026	General Fund

This lease provides energy efficient equipment to Public Services Facilities Division.

ESCO Steiner Lease Debt Service

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$148,505	Capital Lease	January 2013	July 2029	County
\$148,505	Capital Lease	January 2013	July 2029	General Fund

This lease was entered into by Public Services to acquire energy efficient equipment for Steiner. Since the costs of this facility is shared 50% with the County, the County pays 50% of this lease payment.

ESCO Parks Lease Debt Service

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$517,200	Capital Lease	August 2012	March 2026	General Fund

This lease was entered into by Public Services to acquire energy efficient equipment for city parks.

Crime Lab Improvements Capital Lease Debt

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$118,300	Capital Lease	March 2015	September 2021	General Fund

This capital lease provided the funding for the improvements to the leased space for the Crime Evidence Lab.

Lease Revenue Bonds, Series 2016A

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$495,700	LBA Lease Revenue Bonds	August 2014	04-01-2024	General Fund Lease Revenue

The Local Building Authority of Salt Lake City (LBA of SLC) issued the Lease Revenue Bonds, Series 2016A in March 2016 for the purpose of financing a portion of the construction costs of the Fire Station #14 Project.

Fire Station #14 was completed as of February 21, 2018. The project account is being reconciled and will be closed.

The Series 2016A bonds were issued with a par amount of \$6,755,000. As of June 30, 2019, \$6,265,000 in principal remains outstanding.

Principal is due annually on April 15. Interest is due semi-annually on April 15 and October 15. The bonds mature on April 15, 2037.

Lease Revenue Bonds, Series 2017A

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
\$0	LBA Lease Revenue Bonds	April 2017	04-15-2038	General Fund Lease Revenue

The Local Building Authority of Salt Lake City (LBA of SLC) issued the Lease Revenue Bonds, Series 2017A in April 2017 for the purpose of financing a portion of the construction costs of the Fire Station #3 Project.

Fire Station #3 was completed as of September 19, 2018. The final payments on the project should be made by the end fiscal year 2019 after which the project account will be reconciled and closed.

The Series 2017A bonds were issued with a par amount of \$8,115,000. As of June 30, 2019, \$8,155,000 in principal remains outstanding.

ONGOING COMMITMENTS FROM GENERAL FUND

Crime Lab Rental Payments

2020 Budget		Origination Date		Funding Source
\$498,133				General Fund

Yearly Rental payments for Crime Evidence Lab

Facilities Maintenance

2020 Budget		Origination Date		Funding Source
\$350,000				General Fund

The Facilities ongoing CIP funding will be used to replace a variety of capital assets. The purpose is to stop problems early on and prevent larger catastrophic failures of equipment and systems in the City's building stock.

Parks Maintenance

2020 Budget		Origination Date		Funding Source
\$250,000				General Fund

The Parks ongoing CIP funding will be used to replace a variety of capital assets. The purpose is to stop problems early on and prevent larger failures in the City's park stock.

Percent for Art

2020 Budget		Origination Date		Funding Source
\$73,765				General Fund

To provide enhancements such as decorative pavement, railings, sculptures and other works of art. (1% of CIP)

Cost overrun

2020 Budget		Origination Date		Funding Source
\$122,381				General Fund

ONGOING COMMITMENTS FROM OTHER SOURCES

Smith Ballfield Naming Rights

2020 Budget		Origination Date		Funding Source
\$159,585				Other -Donations

Two parts to this request - to establish budget within the 83 fund to accept the revenue received for the naming rights pertaining to Smith Baseball Field and to establish an expense within the 83 fund to continue addressing the deferred maintenance backlog in this facility. This building was completed in 1990 and is now 27 yrs. old.

CIP Memorial House

2020 Budget	Origination Date	Funding Source
\$68,554		Other - Rental

A revenue cost center has been established to receive revenue payments from the Utah Heritage Foundation. Monthly payments are received and are to be re-invested in the facility to maintain the property. Plans for the use of the funding is to be determined.

Real Estate Services – Surplus Land

2020 Budget	Origination Date	Funding Source
\$200,000		Other – Surplus Land

Federally Taxable Sales and Excise Tax Revenue Bonds, Series 2013A

2020 Budget	Type of Debt	Origination Date	Final Payment	Funding Source
Don't need for CIP	Sales Tax Rev Bonds	October 2018	04-01-2038	RDA

Federally Taxable Sales and Excise Tax Revenue Bonds, Series 2013A, were issued in October 2013 for the purpose of financing a portion of the costs of acquiring, constructing and equipping a performing arts center and related improvements.

The RDA pays the full amount of the debt service for the Series 2013A bonds. However, if the RDA is unable to pay any of the debt service, the City's General Fund would be responsible for it.

The total par amount of bonds issued was \$51,270,000. As of June 30, 2019, \$51,270,000 in principal remains outstanding.

Principal is due annually on April 1 beginning in 2032. Interest is due semi-annually on April 1 and October 1. The bonds mature on April 1, 2038.

GENERAL FUND
CAPITAL PROJECTS

FISCAL YEAR 2019-2020

THIS PAGE INTENTIONALLY LEFT BLANK

Project Title:	Install New Escalators At The Old Library (209 E 500 S)
Project Address:	209 East 500 South

Project Description:
This request is to provide design and construction to replace all four existing escalators. The existing building framework will be used, however all components of the escalators will be replaced and brought to current codes.

Proposal ID:	129500
Department:	Public Services - Facilities
Project Type:	Equipment
Category:	Capital

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund		\$1,545,000	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:
There will be a \$5000/yr maintenance contract that could escalate 3% to 5% per year depending upon inflation.

Project Title:	Fisher Carriage House River Recreation & Community Engagement Hub
Project Address:	1206 W 200 South

Project Description:
Construct a nature center at the historic Fisher Carriage House that provides standing exhibits on the natural history of the Jordan River, and showcases a beautiful restored historical structure. The proposed nature center provides space for school group activities and education programs, places for visitors to engage with nature center staff, and get information about the Jordan River Parkway Trail and water trail. The proposed nature center also provides some limited office space for nature center staff. Additionally, the project will compliment an adjacent boat ramp (construction planned for 2019-2020) and facilitate recreation on the Jordan River Parkway by providing outdoor storage space for a kayak-share/kayak rental program, modeled on Minneapolis's popular paddle share, and an optimal location for a future Greenbike Station at the western end of the Folsom Corridor Trail.

Proposal ID:	131036
Department:	Public Services - Public Lands
Project Type:	Building Improvement
Category:	Capital

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund			
Class C Funds			
Impact Fee Funds		\$1,098,764	

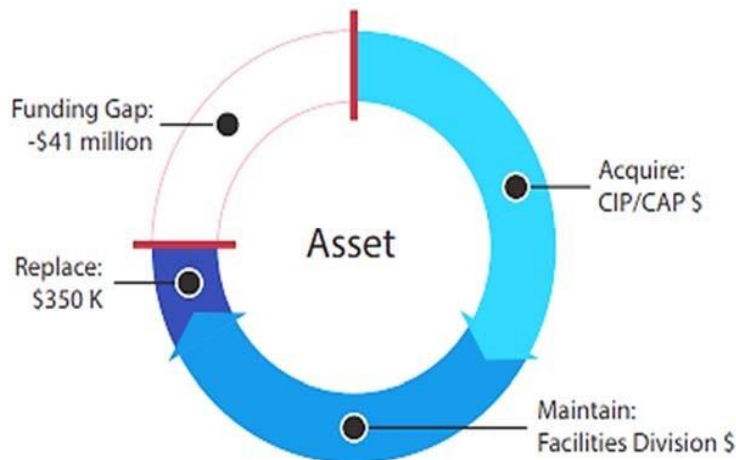

Estimated Future Maintenance and/or Operational Expense:
Nature Center Staffing (FT site manager + PT assistant): \$90,000; Nature Center Supplies & Materials: \$10,000; Nature Center kayak rental fleet: \$10,000 (one-time expense); Facility Maintenance Costs are expected to be an additional \$18,238/year for maintenance of the building. Grounds maintenance is already conducted by the Trails & Natural Lands Division and grounds maintenance costs are not expected to increase.

Project Title:	Facilities Capital Asset Replacement Plan (\$6M investment) (Deferred Capital Replacement)
Project Address:	General Fund Properties

Project Description:
<p>Facilities Capital Asset Management Plan</p> <p>Currently the City has \$41,254,281 worth of building assets that have exceeded their useful life. The result is equipment failure without a planned budget to pay for replacement. The intention of the Facilities Capital Asset Replacement Plan is to retire deferred capital asset replacements in ten-years. Funding the plan at \$6.5 million per year for ten years will retire this backlog. This plan will begin a City policy of predicting failures, replacing assets in a planned, budgeted approach and reduce the need for emergency Budget Amendments for replacement of failed equipment. Replacements are scheduled and prioritized as follows: 1) Life Safety and Human Health Risk, 2) Structural Damage or Property Loss, 3) Legal Obligations, 4) Energy Conservation and Sustainability, 5) Thermal Comfort, 6) Capital Asset Renewal, 7) Functional Improvements, 8) Aesthetics / Beauty. Replacing assets by priority begins with life safety assets. For more specific information please refer to Facilities Capital Asset Replacement Plan in Cognos dashboards.</p>

Project Title:	Liberty Park Seven Canyons Fountain Redevelopment
Project Address:	Liberty Park, 600 East 900 South.

Project Description:
 Rehabilitation of the Seven Canyons Fountain is a high priority for the community. This project includes design and construction for restoration of the fountain to meet Salt Lake County Health Department requirements to open the feature. Required improvements include reduction of the depth of water in the Utah Lake to 2" or less, updates to the re-circulation vault, addition of automatic filters, replacement of broken concrete and creation of a continuous 3-foot wide unobstructed decking adjacent to surface water, a secondary UV disinfectant system and installation of Federally mandated anti-entrapment grates. Additional improvements include removal of select plantings that reduce the system's ability to maintain healthy water levels and conflict with the function of the water fountain, and replanting of areas to reduce leaf litter in the water and strain to the filtration system. Replanting will also consider sight-lines to increase visibility though the space.

Proposal ID:	130899
Department:	Public Services - Public Lands
Project Type:	Improvement
Category:	Capital

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$628,400	\$730,000	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:
 Properly functioning water re-circulation and filtration system will likely be lower than historic maintenance costs incurred from required frequent repairs to manually clean out filters and repair infrastructure.

Project Title:	Hidden Hollow Natural Area Waterwise Enhancements
Project Address:	1229 Wilmington Ave / District 7

Project Description:
 *Replace failing irrigation system in Hidden Hollow to support central lawn areas, native planting beds (including native gardens in NE corner), tree plantings, and habitat demonstration areas, and replace native turf and shrubs killed from lack of water. *Remove invasive trees creating hiding places for transient camps. *Complete the trail lighting project started in 2016, by installing remaining light bollards on south trail alignment. *Replace power hookup to amphitheater for Hidden Hollow concerts and events. *Refurbish damaged stone monuments and interpretive plaques. *Replace destroyed drinking fountain and damaged benches. *Refurbish boardwalk on north side trail. Replace native grasses and landscape plants in central meadow areas and habitat demonstration areas following irrigation system replacement.

Estimated Future Maintenance and/or Operational Expense:
 The project is not anticipated to increase maintenance / operational expenses beyond existing.

Project Title:	Pioneer Park Playground Replacement
Project Address:	Pioneer Park, 350 South 300 West

Project Description:
 Pioneer Park lacks sufficient day-to-day activity to make it a welcoming place for all. The intent for phase 2 is to create a shared downtown space where people will gather and linger, connect with neighbors from different backgrounds and strengthen the downtown Salt Lake City community. The scope of work includes replacement of the existing playground and deteriorating surfacing with updated colorful play structures that inspire active play. In addition a short (1'-2') fence will be placed around the playground with signs that state adults must be accompanied by children 13 years and under. The design will be considered with CPTED (Crime Prevention Through Environmental Design) principles that discourage camping and fire making at the playground.

Estimated Future Maintenance and/or Operational Expense:
 None

Project Title:	10th East Senior Center Retaining Wall Replacement
Project Address:	1000 East 250 South, Salt Lake City, UT

Project Description:

This project includes design and construction of a new retaining wall at the 10th East Senior Center. Salt Lake City staff requested a review of the retaining wall at the 10th East Senior Center by a licensed structural engineer in the first quarter of 2016. The consultant's analysis concluded that there is evidence of an "overturning" type failure. Several major and minor cracks are located along the wall and the foundation. The toe side of the wall is spalling and appears to have broken away. There are signs of significant erosion under the wall's foundation. No weep holes appear to be present in the wall, likely causing buildup of hydrostatic pressure behind the wall. The engineer believes that water is actively moving from behind the wall and underneath the wall's foundation and eroding the soil away from the exposed toe, contributing to the overturning failure mode of the wall. Salt Lake City Park staff followed the engineer recommendations to install a temporary boundary fence at the site and notified the adjacent property owner to terminate irrigation of the area to minimize risk related to the safety hazard. Funding is requested to remove the risk by installing a permanent solution with a new structurally sound retaining wall. This project will install a permanent and aesthetically appropriate wall constructed with reinforced concrete and designed to current seismic codes.

Proposal ID:	130901
Department:	Public Services - Public Lands
Project Type:	Infrastructure
Category:	Capital

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$210,000	\$210,000	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:
N/A

Project Title:	Jordan Park Event Grounds
Project Address:	Jordan Park Event Grounds

Project Description:
 Design and Construction: New electric service with power pedestals for event area. Event area pathways to allow access and circulation. Enhanced river access to Jordan River's edge. Currently Salt Lake City is unable to host the number of special event requests at its parks and natural lands. The implementation of this project will create another large self-contained event site on the West Side, providing more opportunities for events and their organizers.

Proposal ID:	130886
Department:	Public Services - Public Lands
Project Type:	Improvement
Category:	Capital

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$231,000	\$231,000	
Class C Funds			
Impact Fee Funds	\$200,000	\$200,000	

Estimated Future Maintenance and/or Operational Expense:
 Any ongoing maintenance costs related to the events area would be reimbursed with special event cost recovery. Cost recovery is collected by the Public Lands division and used at the site where the cost was incurred. General expenses related to utility costs and maintenance will total \$1,000 annually.

Project Title:	Complete Liberty Park Bio-swale Drainage & Surfacing at Fueling Site
Project Address:	Project is located at 1060 South 600 East and is in Council District 5.

Project Description:
The Maintenance yard would need concrete demo, grading, road base installed and 24,833 square feet of asphalt installed in order to drain properly as well as 392 square feet of new concrete apron.

Proposal ID:	130896
Department:	Public Services - Public Lands
Project Type:	Improvement
Category:	Capital - Improvements

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$192,000	\$192,000	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:
Impact to the General fund would be reduced by not having to regrade and install new sand and gravel each year. Sweeping of the entryway and visitor parking lot would be minimized. Staff time could be redirected to public facing aspects of Liberty Park.

Project Title:	1100 East Curb and Gutter
Project Address:	East side of 1100 East from Ramona Ave to 1953 South

Project Description:
This project includes removal and replacement of the post office drive approach and 1000 linear feet of curb and gutter, asphalt tie-ins, and possible removal and replacement of a park strip tree.

General Fund			
Class C Funds	\$2,000,000	\$2,000,000	
Impact Fee Funds	\$2,576,400	\$2,576,400	

Estimated Future Maintenance and/or Operational Expense:
This project will not add any maintenance or operational expenses.

Project Title:	Traffic Signal Upgrades
Project Address:	West Temple/1300 South; 1100 East/1700 South; Glendale/California; South Temple/500 East; North Temple/West Temple; Highland/2700 South; various

Project Description:
This project will remove the existing traffic signal equipment that has reached the end of its useful life, including steel poles, span wire, signal heads, and traffic signal loops and will upgrade the intersections with mast arm poles, new signal heads, pedestrian signal heads with countdown timers, improved loop detection, and left turn phasing, as needed. Installation of upgraded signals often leads to improvements in detection for autos and bicycles, as well as pedestrian upgrades. This item is needed to maintain state of good repair. Based on our maintenance assessments, six traffic signal upgrades are recommended each year. Over the past years only partial funding has been received.

Estimated Future Maintenance and/or Operational Expense:
 This project will not add any maintenance or operational expenses.

Project Title:	Infrastructure
Project Address:	Citywide along Frequent Transit Network (FTN) Routes

Project Description:

The Transit Master Plan made recommendations for bus stops and hubs along the major bus corridors in the City (corridors on the Frequent Transit Network, or FTN). In addition, City staff developed Council-approved design guidelines for bus stops. Basic standards include sidewalk connections and full ADA accessibility, with additional amenities such as benches and shelters based on existing or expected ridership levels. Such investments have been associated with significant jumps in ridership and create a comfortable experience for passengers. Mobility hubs - from small to large scale - are called for at key destinations and major transfer points. In addition, capital funds are needed to make it safe and convenient to walk and bike to transit stops and to upgrade intersections and traffic signals. Planning and design efforts for capital projects would be paid for out of this fund. It will take a decade or longer, assuming annual funding allocations, to bring all of the FTN corridors up to standard. Transportation will continue to find ways to leverage this money with local and Federal grants.

Proposal ID:	
Department:	CAN - Transportation
Project Type:	Improvement
Category:	Re-Scope
Enterprise Funds:	
Priority:	

Funding Recommendations			
	CDCIP	Mayor	Council
General Fund		\$1,100,000	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:

It depends on the specific project. UTA will maintain the new bus stops and hubs. Walk and bike enhancements would be similar to other signage, signal, and concrete assets.

Project Title:	Downtown Park Funding – Pioneer Park
Project Address:	Pioneer Park

<p>Project Description:</p> <p>Salt Lake City Parks is proposing to re-scope the downtown park funding to add amenities at Pioneer Park. The Division has spent the past three years working with Real Estate Services to identify land. The cost to purchase land at this time has escalated to a level that this funding is not adequate to purchase and develop land into a downtown park.</p> <p>Pioneer Park is Salt Lake City’s largest downtown park and is in need of amenities that will attract more visitors to the park on a regular basis to activate the park and help it feel safe and inviting for everyone. This proposal is phase 3 of Pioneer Park development and includes design and construction. Specific components and amenities will be determined after the Division conducts public outreach to review the 2015 community charrette recommendations to make sure the most recent public input is taken into consideration. Amenities may include:</p> <p>Comfort Station: ~\$1,500,000 Restrooms, Information Kiosk & Park Host Station, Historical Interpretation Signage, Concessions and other related amenities.</p> <p>Event Circulation, Power, Ground-level Platform & Portable Stage: ~\$1,000,000 Amenities proposed may be food truck and Farmers Market support and access, as well as new infrastructure to create opportunities for event programming including local music, yoga and fitness events, arts & cultural activities.</p> <p>Neighborhood Activity Space & Multi-generational Fitness Zone: ~\$945,000 Components could include amenities such as fitness stations, splash pad, pickleball, bike polo, traveling rings, slacklining, mileage signs to encourage use of walking path, artwork and other supporting amenities.</p> <p>An additional FY19/20 CIP request was submitted for use of the General Fund to replace the existing playground as this cannot be addressed through impact fees.</p> <p>This project can make a significant positive impact to the downtown neighborhoods' quality of life, and for the city as a whole. The project would ease residential growth fatigue by providing a place for children to play, a place for adults to connect with their neighbors, get physically active and relieve stress just by being in the natural environment.</p>

Project Title:	Liberty Park Improvements – Seven Canyons Fountain
Project Address:	Liberty Park

Project Description:

Liberty Park Improvements funds located in cost center 8317145 reallocated for Seven Canyons Fountain. Rehabilitation of the Seven Canyons Fountain is a high priority for the community. This project includes design and construction for restoration of the fountain to meet Salt Lake County Health Department requirements to open the feature.

Required improvements include reduction of the depth of water in the Great Salt Lake portion of the fountain to 2” or less, updates to the re-circulation vault, addition of automatic filters, replacement of broken concrete and creation of a continuous 3-foot wide unobstructed decking adjacent to surface water, a secondary UV disinfectant system and installation of Federally mandated anti-entrapment grates. Additional improvements include removal of select plantings that reduce the system’s ability to maintain healthy water levels and conflict with the function of the water fountain, and replanting of areas to reduce leaf litter in the water and strain to the filtration system. Replanting will also consider sight-lines to increase visibility though the space.

MAINTENANCE
PROJECTS

FISCAL YEAR 2019-2020

THIS PAGE INTENTIONALLY LEFT BLANK

Project Title:	Bridge Maintenance Program 2019/2020
Project Address:	City-wide

Project Description:
<p>There are 23 bridges in Salt Lake City, most crossing either the Jordan River or the Surplus Canal. UDOT inspects these bridges every two years and provides the city with a basic condition report. The city is responsible for performing appropriate maintenance activities based on statements in the UDOT report. City Engineering has prepared an ongoing bridge maintenance strategy with the objective of extending the functional life of these structures, and extending the time between major repairs. The requested funds will be used to address needed repairs and routine maintenance.</p>

Proposal ID:	130071
Department:	CAN - Engineering
Project Type:	Infrastructure
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$300,000	\$250,000	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:
This project will not add any maintenance or operational expenses.

Project Title:	Public Way Concrete Program 2019/2020
Project Address:	City-wide

Project Description:
This project will address displacements in public way concrete through saw-cutting, slab jacking, and removal and replacement of deteriorated or defective concrete sidewalks, accessibility ramps, curb and gutter, retaining walls, etc.

Proposal ID:	130051
Department:	CAN - Engineering
Project Type:	Infrastructure
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$490,000	\$402,443	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:
This project will not add any maintenance or operational expenses.

Project Title:	Rail Adjacent Pavement Improvements 2019/2020
Project Address:	City-wide

Project Description:
This new program will address uneven pavement adjacent to railway crossings. There are currently three known locations to be addressed. This initial request will allow Engineering to improve one to two of the locations and perform a survey of additional locations to address in future years.

Proposal ID:	130087
Department:	CAN - Engineering
Project Type:	Infrastructure
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$70,000	\$53,000	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:
This project will not add any maintenance or operational expenses.

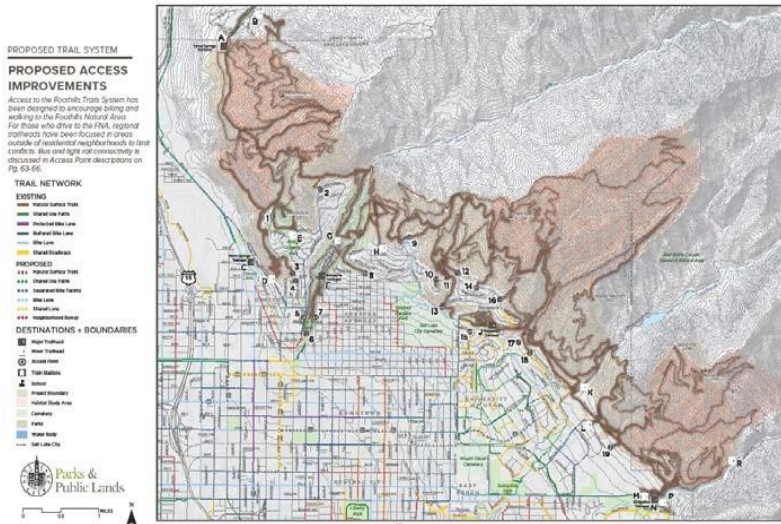

Project Title:	SLC Foothills Trail System Plan Trailhead Improvements, Phase I (Design Phase)
Project Address:	CW / District 3 & 6

Project Description:

Develop detailed designs and construction documents / cost estimates for trailhead improvements recommended by the SLC Foothills Trail System Plan, for (approx.) seven specific trailhead sites. Implementation of key trailhead improvements is a fundamental component for sustainability, accessibility, and functionality of the 100+ mile recreational trail system recommended by the SLC Foothills Trail System Plan. The most important locations for design development include: Emigration Canyon, Popperton Park, I-Street (Hilltop Way), Bonneville Boulevard "Salt Dome", Victory Road, Ensign Peak, and Warm Springs Park.

Proposal ID:	131038
Department:	Public Services - Public Lands
Project Type:	Improvement
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$193,336	\$193,336	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:

When all project phases are complete, additional trailhead maintenance staffing costs are estimated at \$60,000. Additionally, vault toilet pumping costs are estimated at \$7,500 annually.

Project Title:	Transportation Safety Improvements
Project Address:	This funding will be used for projects throughout the city.

Project Description:
 Safety for all people travelling is the Transportation Division's first priority. This funding would provide the Transportation Division the ability to implement high priority multi-modal safety improvements. This funding will better empower Transportation to work quickly to address identified safety needs as part of our efforts to achieve zero fatalities and reduce injuries within our city. This fund will significantly reduce the time between the identification of a safety issue and installation of the identified mitigation, thereby reducing the risk of crashes and injury in the interim period. Projects are identified by using data to analyze crash history, roadway configuration and characteristics, and with citizen input. Identified projects to improve traffic safety will involve conditions that pose a higher relative risk of injury to those traveling within SLC and are therefore deemed a high priority for implementation

A Goal We Can All Live With

Proposal ID:	130821
Department:	CAN - Transportation
Project Type:	Improvement Equipment Infrastructure
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$250,000	\$202,000	
Class C Funds			
Impact Fee Funds	\$250,000	\$250,000	

Estimated Future Maintenance and/or Operational Expense:
 Depending upon the type of project constructed, additional operation and maintenance expenditures may result. For example, a new traffic signal will required power costs and maintenance. However, reconfiguring the layout of signs at an intersection may not require additional maintenance expense. Since the exact projects to be constructed/implemented are currently unknown, it's not possible to provide anticipated maintenance expenses and/or future costs at this time.

Project Title:	Complete Streets Enhancements
Project Address:	City-wide

Project Description:
 This project will complement roadway projects that have been funded or for which funds are being requested by providing additional funding for the planning and design of street changes (e.g., bicycle, pedestrian, and transit elements within the public right of way) consistent with the City's Complete Streets Ordinance and/or recommendations of City master plans. Examples of these elements include striping changes, crossing signals and treatments, ADA-compliant bus stops, and median pedestrian refuges. These funds may be used to match other funding sources, such as Salt Lake County's Transportation Choice Fund or WFRC's Transportation and Land Use Connection or Transportation Alternatives Program.

Proposal ID:	129393
Department:	CAN - Transportation
Project Type:	Infrastructure
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$125,000	\$100,000	
Class C Funds			
Impact Fee Funds	\$125,000	\$125,000	

Estimated Future Maintenance and/or Operational Expense:
 Other departments and divisions may have increased operating expenses as a result of projects that would be planned / designed using these funds. These other agencies will be included in the planning and design process.

Project Title:	9Line Community Orchard
Project Address:	1100 West 900 South

Project Description:

The SLC Westside Master Plans calls for the education and implementation of urban agriculture and urban orchards within Salt Lake City's west side communities. The 9Line Community Orchard project will create a unique urban orchard that will be planted on small .70 acre vacant public property located along the 9Line corridor at 1100 West. The project will engage both the Glendale and Poplar Grove Communities in the planning and design during the initial phase of the project. Anticipated construction of the project will include, grading, site and soil preparation, installation of drip irrigation for improved watering efficiency, planting of fruit trees, general site landscaping and park amenities. The Westside Master Plan identifies partnerships around urban farms and orchards as opportunities to increase direct community involvement in the programming, design and maintenance of parks, trails and natural lands to encourage stewardship among residents and potentially defray the labor costs of park maintenance. This project would establish a strong partnership between SLC Trails and Natural Lands, SLC Urban Forestry, Tree Utah and Glendale and Poplar Grove Community Councils to create a unique community amenity to help activate the 9line Corridor.

Proposal ID:	130932
Department:	Public Services - Public Lands
Project Type:	Improvement
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$195,104	\$195,104	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:

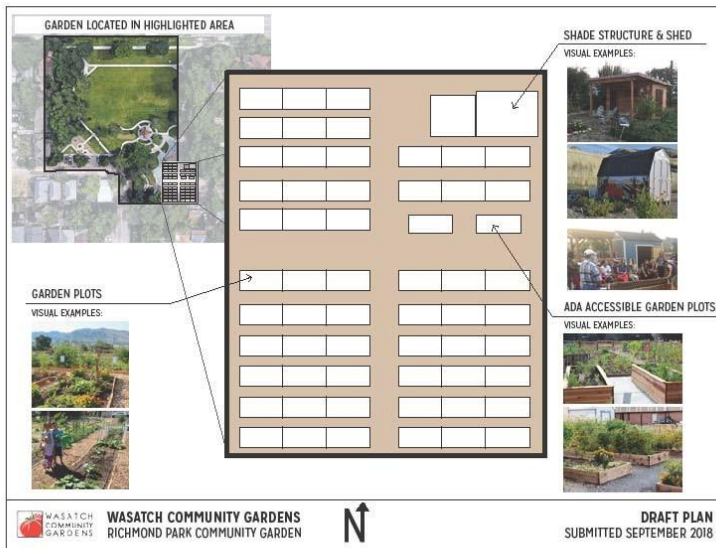

Specialty maintenance associated with pruning and tree maintenance of the urban orchard will be completed in partnership with both Tree Utah Staff and SLC Urban Forestry Program.

Project Title:	Richmond Park Community Garden
Project Address:	Richmond Park, 440 East 600 South. Council District 4

Project Description:

Wasatch Community Gardens (WCG) has been working with a wide range of community members to grow food on small, urban parcels since the mid-1980s. Richmond Park Community Garden will be developed on an existing sand volleyball court in Central City's Richmond Park located at 440 E. 600 S in Salt Lake City. This community garden will be developed through the Green City Growers Program, a partnership between WCG and Salt Lake City's Parks and Public Lands Division to establish community gardens on City-owned and managed land to increase access to fresh, local produce and reduce barriers to urban food production. The Parks and Public Lands Division will provide funding that can be used to cover site demolition, grading, water main hook up, including the installation of water meters, and encircle the garden with fencing. WCG will provide staff and support. This funding will be used to build garden boxes and ADA accessible garden boxes, a pergola, shed and garden signage. WCG will work with stakeholders to create a coalition of gardeners, garden leaders, volunteers and donors to raise any remaining funds needed to complete the garden construction. It will both rally and provide oversight of volunteer in-kind labor, and oversee services that are contracted out.

Proposal ID:	131071
Department:	Public Services - Public Lands
Project Type:	Improvement
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$50,000	\$50,000	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:

Salt Lake City provides Wasatch Community Gardens \$6,000 to \$9,000 for maintenance of each community garden the organization manages. An additional garden would increase operating expenses by this amount.

Project Title:	McClelland Trail and Neighborhood Street Livability Improvements
Project Address:	Harrison, Browning, Roosevelt, Emerson, Kensington, and Bryan Avenues, between 1100 East and 1300 East.

Project Description:
 This project, which is highly-supported by the community, desires to increase the livability of streets near homes and businesses and improve the comfort of the at-grade McClelland Trail crossings at six east-west streets (from Harrison to Bryan Avenues, inclusive) between 1100 East and 1300 East. Currently, typical traffic speeds are 10 mph above the posted 25 mph speed limits. In addition, the McClelland Trail improvements (2016) created a comfortable trail experience between avenues, but its budget was not adequate to completely address the speed and visibility issues at the crossings of those six avenues. Project funding will be used to collect additional data; analyze existing conditions and green infrastructure feasibility; perform additional community engagement (including a pop-up test period); and design, prepare construction documents for, and implement the right-of-way elements. Project design will be determined by an analysis of trade-offs, constraints, opportunities, and data collection; and how to achieve the maximum return on investment.

Proposal ID:	130082
Department:	CAN - Transportation
Project Type:	Infrastructure
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$349,500	\$349,500	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:
 Annual maintenance costs per avenue may be approximately \$3,000 to \$10,000 (based on the linear foot cost of the landscaping on the McClelland Trail), depending on the outcomes of the design process. If Public Utilities will be maintaining the project, funding may come from their budget.

Project Title:	Sugar House West Neighborhood Traffic Calming and 600 East Neighborhood Byway Improvements
Project Address:	Between 500 E and 700 E and between 2100 S and 2700 S - and - along 600 E between 2700 S and South Temple

Project Description:

The funding requested will be used to develop and implement two projects: 1) a neighborhood-wide traffic calming plan to address vehicle speeding and excessive cut-through issues in the West Sugar House neighborhood, and 2) improvements to the successful 600 East Neighborhood Byway. The goal of the neighborhood-wide traffic calming plan is to increase the livability in the West Sugar House neighborhood by slowing traffic and installing neighborhood gateway and identity features. Slowing traffic will be achieved using traffic calming measures, designed to fit seamlessly into the existing local roadway network. Reducing the speed of motorists will allow residents to more comfortably walk and bicycle around their neighborhood, to local shops and restaurants, and to the nearby S Line. The second project is to improve the 600 East Neighborhood Byway through minor changes that would better accommodate bicyclists and pedestrians. The 600 East Neighborhood Byway is a successful bicycle and pedestrian-prioritized travel way from 2700 South to South Temple. As the City's first neighborhood byway, it has been a success and seen strong usage from bicyclists and pedestrians. The City has continued to monitor the effects of the 600 East Neighborhood Byway project and has identified areas where minor changes could significantly improve the usability.

Proposal ID:	131059
Department:	CAN - Transportation
Project Type:	Infrastructure
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$150,000	\$150,000	
Class C Funds			
Impact Fee Funds			

Estimated Future Maintenance and/or Operational Expense:

Regular, on-going maintenance of the striping, markings, and signing would continue, consistent with similar city-wide maintenance. The increase in costs compared to the city-wide signing efforts is expected to be negligible.

Project Title:	Warm Springs Park off-leash area
Project Address:	Warm Springs Park, 840 North Beck Street. Capitol Hill Planning Area

Project Description:
 The Capitol Hill Community would like to see more activity and use of the park and proposed improvements represent community priorities for the Park. Construction of a multi-use athletic field, fenced off-leash area, park signage and associated amenities. The existing multi-use field is too small for competition play and only hosts occasional informal practice games or pick-up games. There is a City-wide demand for more athletic facilities and improving existing sites is a first step towards meeting demand. Public Lands can not fulfill all the field requests by the community. Regular scheduled athletic events bring consistent positive activity to parks.

Proposal ID:	130890
Department:	Public Services - Public Lands
Project Type:	Improvement
Category:	Maintenance

Funding Recommendations			
	CDCIP Board	Mayor	Council
General Fund	\$74,732		
Class C Funds			
Impact Fee Funds		\$17,749	

Estimated Future Maintenance and/or Operational Expense:
 Dog Park estimated cost \$6,500.00 per year
 Multi-Use field estimated cost for more use = more maintenance: \$6,100.00 per year

ENTERPRISE FUND
CAPITAL PROJECTS

FISCAL YEAR 2019-2020

THIS PAGE INTENTIONALLY LEFT BLANK

Salt Lake City Department of Airports

The Department of Airports is an enterprise fund of Salt Lake City Corporation and does not receive any general fund revenues to support the operation of the City's system of airports. The Department of Airports has 563.8 full-time employee positions and is responsible for managing, developing, and promoting airports that provide quality transportation facilities and services, and a convenient travel experience.

The fiscal year 2020 budget continues to provide positive financial benefits, keeping the cost to airlines reasonably low and funding important capital projects. These projects include the Terminal Redevelopment Program (TRP) and the North Concourse Program (NCP), which will improve ongoing operations, create jobs, and provide economic stimulus to the City's and State's economy.

SALT LAKE CITY DEPARTMENT OF AIRPORTS
CAPITAL IMPROVEMENT FY 2020 BUDGET

Project Title:	Gate 10 & 11 Relocation
-----------------------	------------------------------------

Project Description: Relocate gate 10 & 11 guard booth and canopy
Project Justification: Gate 10 & 11 relocation is vital. The hardstand operations and consolidated cargo screening facility have to take place in the secure area of the airport. Relocating these gates will ensure those facilities are within the secure area.

Project Title:	Glycol Reclamation Plant Generator
-----------------------	---

Project Description: Purchase a new generator for the Glycol Reclamation Plant
Project Justification: The reclamation of glycol is an integral part of airport deicing operations. The plant at this time is reliant only on utility power provided by Rocky Mountain Power. There are no other alternative power sources to utilize if an outage occurs during processing. This will ensure processing will not be interrupted and cause the column to harden and create a need to disassemble the column to clean out.

Project Title:	Taxiway E Reconstruction
-----------------------	---------------------------------

Project Description:

This project is a continuing phase to maintain the Airport's infrastructure and bring the taxiway geometry to current FAA standards. The project will consist of replacing the pavement on Taxiway E between Taxiways G and F1. Work will include demolition of existing concrete pavement and concrete base, unclassified excavation, placement of engineered fill, placement of new concrete base course and new Portland Cement Concrete paving, pavement marking, and reinstalling in-pavement centerline and taxiway edge lights complete with new underground cabling and connectors.

Project Justification:

Taxiway E connects Runway 16R-34L and Runway 16L-34R with the terminal area. It has a high volume of aircraft use because it serves as a major taxi route for arriving and departing aircraft. The taxiway concrete panels are showing signs of pavement distress including surface spalling, full depth slab cracking, and corner breaking. The Pavement Condition Index (PCI) for this section of pavement has a rating ranging from 43 - 67 indicating that the pavement is in poor to fair condition. This area has received multiple patches where the concrete has settled indicating possible base failure. This project will make a significant contribution to safety and capacity by ensuring that the taxiway pavement integrity is preserved.

Design Start Date	Construction Start Date	Project Completion Date
July 2019	December 2019	October 2020

CAPITAL IMPROVEMENT FY 2020 BUDGET**

Project Title:	Airfield Lighting Wiring Rehabilitation - Phase 4: Taxiways A & B
-----------------------	--

Project Description:

This project will replace underground electrical wiring cable, cable connectors and isolation transformers for Taxiways A and B airfield lighting circuits. This project is included in the approved FY 2019 Budget, in the amount of \$2,181,000. The original budget was conceptual in nature based on what was known in the airfield at the time. As design has progressed, SLCDCA Engineering is submitting this revised budget based on the Engineering Consultant's 50% Design review that was recently conducted with Airport staff. The Construction Cost Estimate for Phase 4 has increased from \$1,794,000 to \$2,863,000 including a 4% for escalation to FY 2020. This amounts to an overall estimated cost of completion of \$3,137,000 to be included in the FY 2020 Budget.

Project Justification:

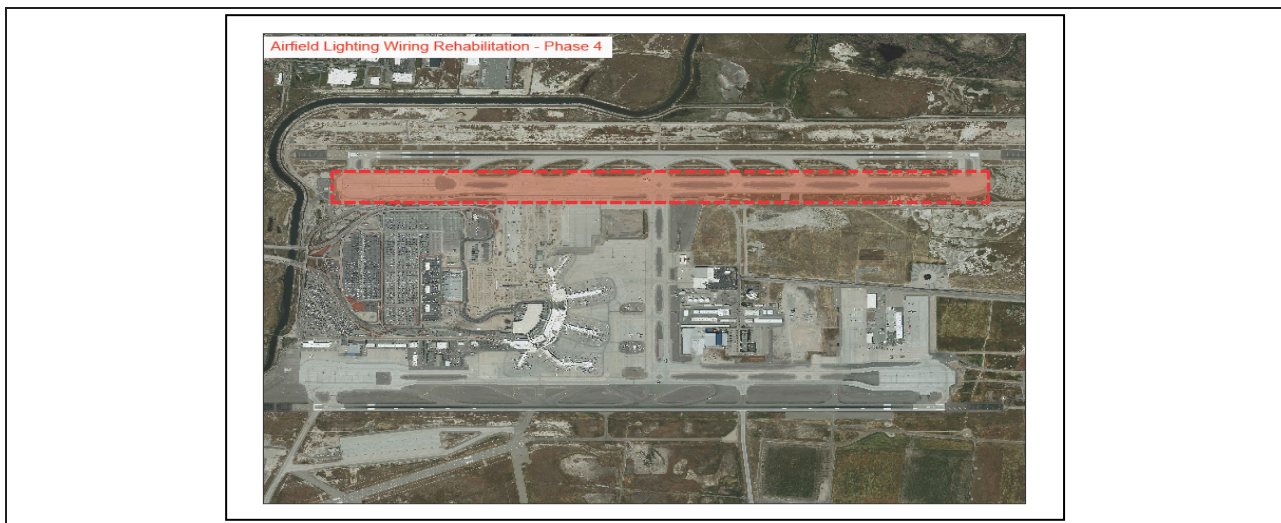

Runway 16R-34L and Taxiways A and B were opened for aircraft operations in 1995. The airfield underground electrical power cabling for this runway and these taxiways is now 23 years old. In recent years, the performance of the wiring, connectors and associated electrical devices have fallen below FAA standards based on periodic resistance to ground testing of this system by SLCDCA Airfield Electrical Maintenance. Phase 4 of the Airfield Lighting Wiring Rehabilitation Program will replace these components to preserve the dependability of the airfield lighting system.

Project Title:	PCC Pavement Joint Seal Program
-----------------------	--

Project Description:
This project is part of an ongoing program to repair and reseal the joints in the Portland Cement Concrete (PCC) pavement at various locations. Work will include removal of the existing joint seal material, cleaning of the joints, repairs to spalled or damaged concrete panels along the joints as needed and resealing the concrete joints.

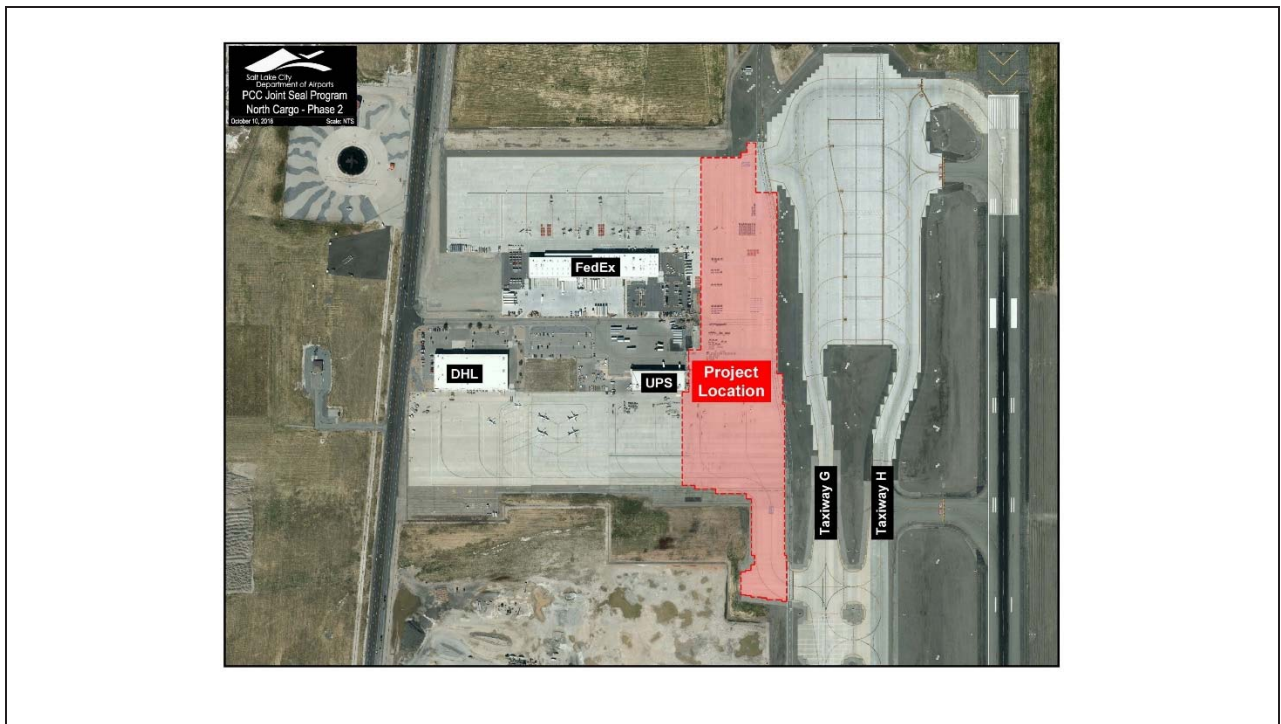

Project Justification:
This project will replace joint seals that are damaged or that have reached the end of their useful life. Resealing the joints will minimize water infiltration beneath the pavement that can cause damage and reduce the useful life of the pavement. For fiscal year 2020, critical sections of the north cargo apron have been identified for resealing of the joints.

Project Title:	Replace Thermal Fluid Heater
-----------------------	-------------------------------------

Project Description: Replace Thermal Fluid Heater (TFH) and gas system at the glycol reclamation plant
Project Justification: The TFH was installed in 1999 as part of the original construction and was due to be replaced in 2012. A new burner and control system was installed 2012 after an effort to extend the useful life of the unit and make it much more efficient. In March of 2018, we repaired a coil crack in the heater. If we were to have another coil failure in a location that is not accessible for repair, it would shutdown production at the plant. Updated heater and burner technology will make this unit more efficient and reduce emissions.

Project Title:	South Valley Regional Airport Taxi Lane Rehabilitation
-----------------------	---

Project Description:
This project will resurface the taxi lanes that provide access to the existing T-hangars and shade hangars at the South Valley Regional Airport. The aprons in this project were constructed before 1995. The surface will be cold milled to a depth of 3 inches, the existing base course material will be recompact, and the area repaved with new bituminous surface course material.

Project Justification:
The T-hangar and shade hangar aprons at South Valley Regional Airport are showing areas of cracking, rutting and loose aggregate, creating a foreign object debris concern. The surfaces have also become oxidized and brittle over time. The existing asphalt surfaces have been in place for more than 23 years, during which time they have received only periodic maintenance to fill cracks and repair minor deficiencies. The Pavement Condition Indices for these pavements is in the 14 - 34 range indicating serious to very poor pavements. Resurfacing and/or reconstruction of the taxi lanes will restore the pavement integrity and prolong the service life of the pavement.

Project Title:	Tooele Valley Airport Water and Sewer improvements
-----------------------	---

Project Description:
This project will provide for development of water and sanitary sewer infrastructure for connections to local improvement districts at Tooele Valley Airport (TVY).

Project Justification:
Tooele Valley Airport (TVY) is owned and operated by Salt Lake City Department of Airports (SLCDA). TVY serves as a reliever airport to Salt Lake City International Airport. The existing water and sewer system at TVY consists of a water well and distribution piping to five fire hydrants. The sanitary sewer system consists of a holding tank and a small septic system. Development of an FBO, hangars, or other facilities at TVY cannot occur until appropriate water and sanitary sewer infrastructure is in place to support future development. This work involves the installation of 12-inch water mains, fire hydrants, 12-inch sewer mains and associated laterals, and sewer manholes.

Project Title:	Parking Lot E (South)
-----------------------	------------------------------

Project Description:
This project will provide a new parking lot directly south of the future Lot E and east of the QTA. This lot will be configured to provide approximately 512 stalls for employee and tenant parking needs and will provide a replacement for the parking currently in Lot 3, which will be greatly reduced to accommodate the Airport Redevelopment Program (ARP) construction.

Project Justification:
The current close-in Employee Parking Lot 3 that is utilized by both SLCDA and tenant employees will be impacted by ongoing Airport Redevelopment Program (ARP) construction activities including the construction of a new triturator beginning March 2019. Further activities may create additional impacts to this lot including demolition haul routes, ramp equipment storage, and other construction activities. In addition, ongoing use of this current parking lot beyond 2020 would require employee groups to cross 3700 West and the UTA TRAX line in order to access the new terminal facility. Construction of a new replacement parking lot would allow efficient use of competing space while also providing a larger, safer, and closer-in access to the terminal facility for personnel utilizing this parking area.

Project Title:	New South Employee Parking Lot
-----------------------	---------------------------------------

Project Description:
 This project will perform preliminary planning and design for a large new South Employee Parking Lot on the Airport campus in an area directly south of the South Electrical Vault and perimeter road. This new lot will be accessed from 3700 W and 2400 N and will serve as a lot for Airport employees. The work will consist of clearing and grubbing, ground stabilization, imported engineered fill, asphalt and concrete paving, access road improvements, utility installation, lighting, signing, and painting.

Project Justification:
 With the construction of the new terminal and subsequent renovation of the existing parking lots at the Airport, it has been determined that additional parking is required. To accommodate this, preliminary planning and design for a large 1,648,000 SF Employee Parking Lot to accommodate an anticipated 4,481 stalls will take place. This will help alleviate the parking congestion on the south side of the Airport campus.

CAPITAL IMPROVEMENT FY 2020 BUDGET

Project Title:	Airport Operations Center Parking Lot Expansion
-----------------------	--

Project Description:

This project will expand the existing AOC Parking Lot to the southeast of the current lot for an additional 640 stalls. This lot will be accessed from 3700 West and will help alleviate parking constraints at the Airport. The work will consist of clearing and grubbing, asphalt pavement milling, ground stabilization, imported engineered fill, asphalt and concrete paving, utility installation and adjustment, signing, painting, and access gate installation.

Project Justification:

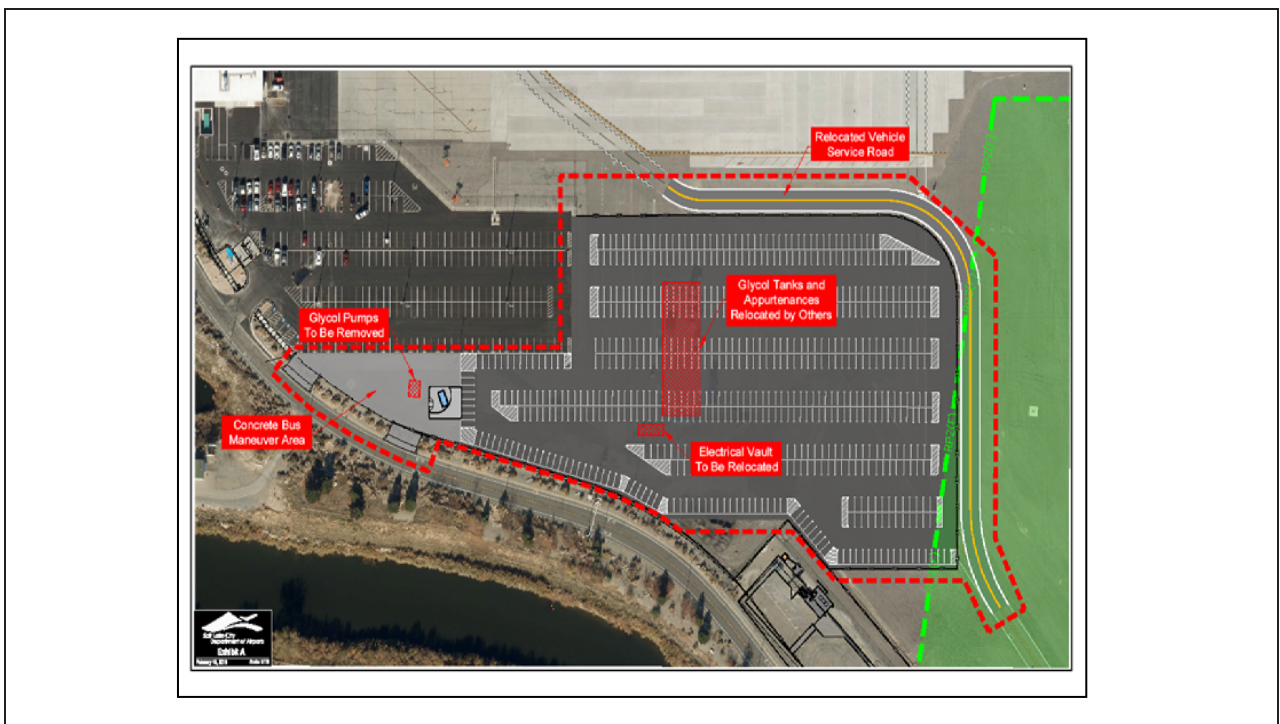

Due to the Airport Redevelopment Program's construction and subsequent renovation of existing parking lots at the Airport, it has been determined that additional parking is required. An additional 640 stall parking lot will be constructed as an extension to the existing AOC parking lot on the south end of the Airport's campus.

Project Title:	South Employee Parking Lot Rehabilitation
-----------------------	--

Project Description:

This project is a yearly program to maintain the airport's infrastructure. The project will consist of surface preparation, asphalt removal, asphalt overlay, concrete placement, and minor drainage corrections to prolong the service life of the airport's pavement. The primary area to be overlaid will be the northern half of the south employee parking lot.

Project Justification:

The asphalt roadways and parking stalls in the south employee parking lot are showing signs of distress and require corrective action to avoid further aging and deterioration. The Pavement Condition Indices (PCI) for these areas range from the low to mid forties indicating that the pavements are in poor to fair condition. Although the pavement receives periodic maintenance to fill cracks and repair minor pavement deficiencies, a full asphalt overlay of these areas is necessary at this time to extend the useful life of the pavement.

**SALT LAKE CITY DEPARTMENT OF AIRPORTS
CAPITAL IMPROVEMENT FY 2020 BUDGET**

Project Title:	Terminal Redevelopment Program
-----------------------	---------------------------------------

Project Description: The Salt Lake City Department of Airports' Airport Redevelopment Program (ARP) is a comprehensive and integrated series of projects that will result in the replacement of the existing terminals and concourses at Salt Lake City International Airport (SLC). The overall program consists of two major subprograms – the Terminal Redevelopment Program – Phase 1 (TRP) and the North Concourse Program (NCP). The TRP will construct a new terminal, South Concourse, Gateway Building, baggage handling system, central utility plant, parking garage, and elevated roadway system. The FY2020 scope of work provides for ongoing design, construction administration, construction, testing, commissioning, and management of the TRP.

Project Justification: The TRP will replace existing terminal facilities that were constructed 30 to 50 years ago and have reached the end of their useful life. The TRP will also increase capacity by eliminating operational shortfalls in existing facilities and creating gates that accommodate current and future fleet mixes. The ongoing design, construction administration, construction, testing, commissioning, and management of the TRP will support the phased construction that is in progress.

Project Title:	North Concourse Program
-----------------------	--------------------------------

Project Description: The Salt Lake City Department of Airports' Airport Redevelopment Program (ARP) is a comprehensive and integrated series of projects that will result in the replacement of the existing terminals and concourses at Salt Lake City International Airport (SLC). The overall program consists of two major subprograms – the Terminal Redevelopment Program – Phase 1 (TRP) and the North Concourse Program (NCP). The NCP is a separate, but programmatically integrated, set of projects consisting of the North Concourse located approximately 1,100 feet north of and parallel to the South Concourse that will be constructed in two phases. The North Concourse will provide 31 new gates and will be connected to the South Concourse and Terminal by passenger tunnels. This project will provide funding to complete detailed design and construction management activities necessary to start construction of a new North Concourse that will provide approximately 31 new gates to replace existing gates on Concourses B, C, and D. The first phase of the North Concourse is scheduled to be complete in December 2020.

Project Justification: The ARP will replace existing terminal facilities that were constructed 30 to 50 years ago and have reached the end of their useful life. The ARP will also increase capacity by eliminating operational shortfalls in existing facilities and creating gates that accommodate current and future fleet mixes. SLCDCA has evaluated a wide range of options and determined that the construction of the ARP is the most effective solution to seismic, operational, and capacity constraints of current facilities. The North Concourse is the second phase of the Airport Redevelopment Program and will provide new gates to replace existing gates on Concourses B, C, and D that were planned to remain in Phase 1 of the Terminal Redevelopment Program. The NCP will provide additional gate capacity at SLC to meet increasing demand.

Salt Lake City Department of Public Utilities

The Salt Lake City Department of Public Utilities (SLCDPU) has four distinct utilities, water, sewer, storm water, and street lighting. Each of these four utilities is a separate enterprise fund. No tax money is used to fund these programs. Funding for capital expenditures comes from user fees, fund reserves, revenue bonds, and occasionally a grant. Customers pay for the services they receive through utility rates that have been established for each fund. Money does not transfer between utilities so as not to violate a basic enterprise fund principle that a customer pays for the benefit they receive and the benefit they receive equals what they pay. Our utilities are infrastructure intensive and administration of these assets requires long term project and financial planning.

The SLCDPU capital budget is shown by fund with subcategory cost centers under each. In fiscal year 2020 we have over 250 capital projects between the four funds. The budget projects rated as a high priority in the Department's Capital Asset Program (CAP). The replacement of the wastewater reclamation facility is the largest project undertaken by SLCDPU. Other elements of our systems are also experiencing aging problems and will require increasing attention in the future. For example, our three water treatment plants were built in the 1950's and early 60's. We are currently in an assessment phase to determine the best approach to rebuilding each plant while keeping the old plant in service. A unique aspect of capital projects in SLCDPU is that Federal, State, and local regulations affect many of our priorities. Adding to the complexity are water rights and exchange agreement obligations.

Project Title:	Water Main Replacements
Project Address:	Various Locations

Project Description:
SLCDPU has 1,300 miles of aging water pipe. Over the past 10 years, the Department has been replacing approximately 35,000 linear feet per year. The budget includes \$14,080,000 for three master plan projects, the largest being an initial phase of an east-west conveyance line budgeted at \$10,000,000. City, County, and State projects are budgeted at \$12,102,600, the most significant being \$9,650,000 related to streets bond projects. Other budgeted items in this category include \$3,000,000 for a line syphon upgrade related to upper conduit and \$6,347,500 for routine replacement of pipelines in poor condition. The department is developing a more robust way to identify and control corrosion related issues in the system.

Category:	Water Utility CIP Projects - Enterprise Fund
Enterprise Funds:	\$35,530,100
Priority:	1- Project specific

Estimated Future Maintenance and/or Operational Expense:
Negligible

Project Title:	Treatment Plant Improvements
Project Address:	Various Locations

Project Description:
<p>Three city owned water treatment plants were all built in the late 1950's and early 1960's. Each is nearing the end of its expected life and will need to be replaced. The Department is currently in an assessment phase to determine the best approach to rebuilding each plant while keeping the old plant in service. Also associated with this project is replacing failing parts as these components wear out. Within the next 5 - 10 years we will likely need to start replacing these plants. The Big Cottonwood plant is our most productive plant and will likely be the first to be replaced. The budget includes treatment plant upgrades as follows: Big Cottonwood \$4,300,000, Parley's \$2,050,000, and City Creek \$1,500,000.</p>

Proposal ID:	
Department:	Public Utilities - Water

Estimated Future Maintenance and/or Operational Expense:
Negligible

Project Title:	Meter Change-Out Program
Project Address:	Various Locations

Project Description:
<p>The budget includes the continuation of the meter change out program initiated in 2015. Metering water consumption by customers is the source of our revenue. Approximately 20,000 of the systems 90,000 water meters have been replaced with advanced metering infrastructure (AMI) read meters. The plan is to complete the AMI meter change out program in the next 6 years. AMI technology provides instantaneous usage information instead of relying on monthly data. The addition of a customer portal will provide our customers with information to better understand their water usage and alerts to the status of their water service. Better information will assist us in water conservation efforts.</p>

Proposal ID:	
Department:	Public Utilities - Water
Project Type:	
Category:	Water Utility CIP Projects - Enterprise Fund
Enterprise Funds:	\$3,100,000
Priority:	4 - Ongoing program

Estimated Future Maintenance and/or Operational Expense:
Negligible

Project Title:	Water Service Connections
Project Address:	Various Locations

Project Description:
 This is an ongoing program. There are currently 90,000 service connections with half being located outside of the Salt Lake City corporate boundaries. The components of this program are service line replacements, new connections and small and large meter replacements.

Proposal ID:

Enterprise Funds:	\$1,565,000
Priority:	7 – Project specific

Estimated Future Maintenance and/or Operational Expense:
Negligible

Project Title:	Culverts, Flumes & Bridges
Project Address:	Various Locations

Project Description:
 These secondary water conveyance systems are critical to maintaining our water exchange agreements. The most significant project in this category is the JSL Canal Conduit Upgrade in Sugarhouse \$1,000,000. Various smaller projects are anticipated to cost \$455,000.

Proposal ID:	
Department:	Public Utilities - Water
Project Type:	
Category:	Water Utility CIP Projects - Enterprise Fund
Enterprise Funds:	\$1,455,000
Priority:	8 – Project specific

Estimated Future Maintenance and/or Operational Expense:
Negligible

Project Title:	Tanks
Project Address:	Various Locations

Project Description:
SLCDPE has over 100,000,000 gallons of finished water storage in 22 tanks and reservoirs. These components require on-going inspection and maintenance. The location and elevation of these facilities is critical to the operation of the water distribution system. The budget includes the following: Ferguson Tank upgrade \$150,000, Perry Hollow Tank upgrade \$65,000, Tank painting and corrosion control \$200,000, fall protection system for tanks and reservoirs \$100,000, and various other projects. A soon to be released Supply and Demand Study will likely recommend additional storage capacity.

Proposal ID:

Category:	Water Utility CIP Projects - Enterprise Fund
Enterprise Funds:	\$120,000
Priority:	10 – Project specific

Estimated Future Maintenance and/or Operational Expense:
Negligible

Project Title:	Treatment Plants
Project Address:	Various Locations

Project Description:
 The largest budgeted item in this category is for the construction of a new water reclamation facility. The \$54,700,000 estimate represents the initial steps in a multi-year project. Existing plant improvement projects include capital asset Influent Screenings Building for \$3.2 million, Capital Asset Rehabilitation and Upgrades for \$1,300,000, Trickling Filter Rehabilitation for \$650,000. \$405,000 for pump, pump motor, and pump house lighting upgrades. \$825,000 for various other projects.

Proposal ID:	
Department:	Public Utilities - Sewer
Project Type:	
Category:	Sewer Utility CIP Projects - Enterprise Fund
Enterprise Funds:	\$61,080,000
Priority:	1 – Project specific

Estimated Future Maintenance and/or Operational Expense:
 No effect for this budget year. \$2M to \$4M increase for power and chemical costs when new treatment plant is functional.

Project Title:	Collection Lines
Project Address:	Various Locations

Project Description:
 Master plan projects in this category total \$10,850,000. This includes \$3,000,000 for 1800 North Beck Street to the treatment plant, \$2,000,000 for 500 South Diversion, \$1,000,000 for Beck Street Trunk Line replacement, \$3,000,000 for 700 South. capacity upgrade, and \$1,850,000 for various other master plan projects. The budget for regular replacement of collection lines in poor condition is \$8,475,00. Projects in coordination with the City, County and State are estimated at \$6,455,000 which includes \$4,850,000 for street bond related projects. Various other collection line projects are expected to cost \$3,850,500.

Proposal ID:	
Department:	Public Utilities - Sewer
Project Type:	
Category:	Sewer Utility CIP Projects - Enterprise Fund
Enterprise Funds:	\$29,630,500
Priority:	2 – Project Specific

Estimated Future Maintenance and/or Operational Expense:
Negligible

Project Title:	Lift Stations
Project Address:	Various Locations

Project Description:
The sewer collection system includes 35 lift stations at various locations. The Master Plan projects in this category are \$7,000,000 for the 700 S. Lift Station and \$75,000 for design phase for lift station upgrades for the 5300 West Lift Station. Other design projects are \$70,000 for Industrial Lift Station, \$40,000 for Rose Park Lift Station, \$50,000 for 500 West. Lift Station and \$50,000 for 900 North Lift Station. Other various projects in this category total \$225,000.

Category:	Sewer Utility CIP Projects - Enterprise Fund
Enterprise Funds:	\$7,510,000
Priority:	3 – Project specific

Estimated Future Maintenance and/or Operational Expense:
Negligible

Project Title:	Landscaping – Sewer Utility
Project Address:	Various Locations

Project Description:
The landscaping budget is anticipated for segment 3 of the Northwest Oil Drain canal remediation with partial reimbursement from oil companies. This is a joint Sewer and Stormwater cleanup project.

Proposal ID:	
Department:	Public Utilities - Sewer
Project Type:	
Category:	Sewer Utility CIP Projects - Enterprise Fund
Enterprise Funds:	\$150,000
Priority:	4 – Project specific

Estimated Future Maintenance and/or Operational Expense:
Negligible

Project Title:	Storm Drain Lines
Project Address:	Various Locations

Project Description:
 The largest item in this category is \$8,600,000 for projects in coordination with City, County, and State including \$3,550,000 in work supporting streets related bond projects. A collection main project for \$1,100,000 is planned for 1700 South from 2100 East to Emigration Creek. Storm Drain Box Deck replacements are anticipated to cost \$400,000. A culvert at 7200 W and North Temple is budgeted at \$250,000 and various other storm drain projects total. \$480,000.

Proposal ID:	
Department:	Public Utilities – Storm Water

Category:	Street Lighting Utility CIP Projects - Enterprise Funds
Enterprise Funds:	\$1,725,000
Priority:	1 – Ongoing program

Estimated Future Maintenance and/or Operational Expense:
Reduce power costs

Salt Lake City Redevelopment Agency

Aligning with the goals of the Department of Economic Development, The Redevelopment Agency of Salt Lake City (RDA) works to revitalize neighborhoods and commercial districts that experience disinvestment. The RDA utilizes a powerful set of financial, planning, and revitalization tools to support redevelopment projects that encourage economic investment, assist in the housing for low-and moderate-income households, and help implement Salt Lake City's Master Plan. The RDA's source of funds for the projects include property tax increment and program income revenue, depending on the specific budget account.

The RDA often participates with Salt Lake City in the redevelopment or construction of city owned infrastructure projects. As part of the RDA Budget Policy, Capital Projects are defined as any project that anticipates multi-year funding. The allocation of funds for these projects is part of the budget approval process and is typically contingent on the RDA Board authorizing appropriation once the specific projects costs and details are known. Depending on the project, the timeline for this process may not follow the City's CIP schedule or requirements for approval.

The RDA fiscal year 2020 budget proposes two infrastructure Capital Projects. The remaining Capital Projects are either ongoing obligations such as reserve accounts or set asides for projects and programs that at this time have yet to be fully determined. The 300 West Improvements project is funded by tax increment through an extension of the West Capitol Hill project area for the sole purpose of completing the improvements. The FY20 allocation is expected to provide the final amount to cover the total costs and it is not anticipated to need any City/CIP funds. The 100 South Infrastructure project is a preliminary allocation of funds intended to determine potential improvements. Depending on the scope of the design, the project may be included in future CIP requests.

Project Title:	Infrastructure
Project Address:	Central Business District Fund Projects

Project Description:
Funding will be utilized to address infrastructure improvements on 100 South between West Temple and Main Street. Agency staff would engage with City departments, property owners and stakeholders to identify potential improvements or repairs to landscaping, streetscape, and pedestrian crossings. Depending on the scope, funds could be used for initial design of a larger project or installation of short term improvements.

Proposal ID:	1
Department:	RDA
Project Type:	
Category:	
Enterprise Funds:	\$229,621
Priority:	

Project Title:	Regent Street Parking Structure Capital Reserves
Project Address:	Block 70

Project Description:
Establishment of a reserve account to meet potential obligations in the future that are required under the contract with PRI that provides parking for the Eccles Theater. Under the agreement, the Agency is required to contribute towards the maintenance and long term capital repairs of the parking structure.

Proposal ID:	2
Department:	RDA
Project Type:	
Category:	
Enterprise Funds:	\$100,000
Priority:	

Estimated Future Maintenance and/or Operational Expense:
None. Set aside of funds for future repairs.

Project Title:	300 West Improvements
Project Address:	West Capitol Hill Fund Projects

Project Description:

Funding will be utilized for infrastructure improvements including street trees and landscaping, improved pedestrian crossings, and traffic-calming features for 300 West from North Temple to 1000 North. The project supports the objectives outlined in the Capitol Hill Master Plan, including the following: • Modify the streetscape character through landscape appearance to soften the appearance and lessen the impact of the roadway as a barrier to the neighborhood. • Modify parking lanes along 300 West with curb extensions at intersections to allow for easier pedestrian crossings and to protect parked cars. In addition, such infrastructure improvements are identified in the West Capitol Hill Redevelopment Plan (1996), where it states development objectives for “urban amenities”, including the following: • Improve the streetscape environment with features such as landscaped parking strips with street trees, adequate curb and gutter sidewalks, street center island medians, boulevard street and pedestrian scale street lighting, and designed gateway images. • Provide for improved pedestrian circulation. In addition, the RDA is required to allocate tax increment funds to the project as a term of the Project Area's extension (Interlocal Agreement for West Capitol Hill Redevelopment Project Area, 2013).

Proposal ID:	1
Department:	RDA
Project Type:	
Category:	
Enterprise Funds:	\$440,602
Priority:	

Estimated Future Maintenance and/or Operational Expense:
Minimal.

Project Title:	Station Center Shared Parking Structure
Project Address:	Depot District Fund Projects

Project Description:
Funding will be utilized for design and construction of an above grade parking structure for the Station Center project. The RDA's 0.31-acre parcel at 233 South 600 West would be combined with adjacent property to provide shared parking for surrounding residential and commercial uses to be built in conjunction with the 300 South public improvements.

Proposal ID:	1
Department:	RDA
Project Type:	
Category:	
Enterprise Funds:	\$581,503
Priority:	

Estimated Future Maintenance and/or Operational Expense:
Impact is anticipated to minimal but will be determined as part of the project scope and ongoing Agency participation.

Project Title:	10% School Fund
Project Address:	North Temple Fund Projects

Project Description:
Based on an interlocal agreement with the SLC School District, the RDA is obligated to set aside 10% of the tax increment generated from the project area for a new school.

Proposal ID:	1
Department:	RDA
Project Type:	
Category:	
Enterprise Funds:	\$41,844
Priority:	

Estimated Future Maintenance and/or Operational Expense:
None.

Project Title:	Catalytic Project
Project Address:	North Temple Fund Projects

Project Description:
Appropriation of funds to use for a catalytic project within the project area. Potential uses could include property acquisition, loan/incentive programs, or infrastructure improvements. Agency staff will work with City departments, property owners, consultants and community stakeholders to identify and prioritize projects for Agency participation.

Proposal ID:	2
Department:	RDA
Project Type:	
Category:	
Enterprise Funds:	\$263,065
Priority:	

Estimated Future Maintenance and/or Operational Expense:
Impact will be determined on a project-by-project basis.

Project Title:	Project Area Art
Project Address:	Program Income Fund

Project Description:
 Funding will be utilized in coordination with the Arts Council and the Agency to identify opportunities and provide funding for the installation of public art within one or more project areas. A portion of the funds would be set aside for the maintenance of the projects.

Proposal ID:	1
Department:	RDA
Project Type:	
Category:	
Enterprise Funds:	\$250,000
Priority:	

Estimated Future Maintenance and/or Operational Expense:
None.

Project Title:	NT Catalytic Project
Project Address:	Program Income Fund

Project Description:
 Appropriation of funds to use for a catalytic project within the project area. Potential uses could include property acquisition, loan/incentive programs, or infrastructure improvements. Agency staff will work with City departments, property owners, consultants and community stakeholders to identify and prioritize projects for Agency participation.

Proposal ID:	2
Department:	RDA
Project Type:	
Category:	
Enterprise Funds:	\$505,215
Priority:	

Estimated Future Maintenance and/or Operational Expense:
 Impact will be determined on a project-by-project basis.

Project Title:	Gallivan Repairs
Project Address:	Program Income Fund

Project Description:
Funding will be utilized to address maintenance and repairs to the plaza. The most significant repairs include the grand staircase on the western edge of the plaza and the expansion joint along the eastern edge. Staff is working on the design and estimated costs to determine the Agency's share of costs as per our agreements and ownership of the plaza.

Proposal ID:	3
Department:	RDA
Project Type:	
Category:	
Enterprise Funds:	\$250,000
Priority:	

Estimated Future Maintenance and/or Operational Expense:
None. Allocation of funds for repair costs.

The Salt Lake City Golf Division

The Golf Division operates seven full-service golf courses at six Salt Lake City locations providing quality recreational experiences at a competitive price for Salt Lake City residents and visitors from surrounding cities and various out of state locations. Golf Course Capital Projects are funded, primarily, from excess revenue generated by user fees. Over the past several years, expenses have outpaced revenues and have limited Golf's ability to self-fund most if not all non-emergency Capital Projects. In 2012, a CIP Fund was established that allocates \$1 per every 9 holes played and 9% from all annual pass sales toward building funds that can be used exclusively for Capital Projects. Until 2019, these funds have not been released for use as the fund balance has been needed to provide a fund balance offset against a fund deficit.

There are several age-related Capital Project needs that have arisen at various courses that demand immediate attention. For example, in April 2019, a new sewer main line connection was installed at the Glendale Golf Course at a cost of \$156,320 and was paid using designated Golf CIP funds.

The controllers for the irrigation system at the Mountain Dell courses have been failing for the past few years and stop-gap measures have helped the system to limp along, however the failures have accelerated and stop-gap measures are no longer advisable. The estimated cost for full controller replacement is \$350,000 and is included in the FY20 budget.

As part of a multi-year plan to upgrade vital maintenance equipment at all courses, we will be using \$240,000 in FY20 to purchase used equipment (usually lease-return equipment from high-end private courses).

The Golf Division will continue to make minor clubhouse improvements as opportunities allow including \$14,000 for exterior painting at the Forest Dale clubhouse. The Golf Division made several improvements to the Bonneville clubhouse in 2018 (expanded pro shop retail area with new paint and carpets) as well as bathroom remodels in the Forest Dale clubhouse. In 2019, bathroom remodels have been completed at Nibley Park, Rose Park and Glendale.

Under new leadership, the Golf Division is re-assessing capital project needs and priorities to develop a 10-year plan that addresses the historical lack of capital investment at Salt Lake City courses.
