

WV ASHRAE Jan 10, 2014 Luncheon

When

Friday January 10, 2014 from
11:30 AM to 1:00 PM EST

[Add to Calendar](#)

Where

Fireside Grill

4170 W Virginia 34
Teays Valley, WV 25526

[Driving Directions](#)

Not all air is clean. Contamination sources inside and outside a building can reduce the quality of indoor air. This can adversely impact the comfort and even the health of occupants. Architects, consultants, building managers, and health/environmental professionals need to make informed choices between prevention and remediation technologies to insure good IAQ.

Our Jan WV ASHRAE program will explore ideas and products designed to control contaminants. Going way beyond particulate filters - even HEPA filters - the presenter will cover what works for controlling mold, virus, bacteria, VOC, and odors - from external or internal sources. Hear about real life examples involving biological control, gas/diesel fumes, smoking, and more.

You can bring your own problem applications for an after lunch discussion with the presenter, Dan Briggs, President, Genesis Air, Lubbock, Texas. Mr Briggs has an extensive contracting and engineering experience with air cleaning systems.

Thanks for your attention and response, and I look forward to seeing them at our event.

**Sincerely,
Shane Hall
WV Program Chair**
