

Golf Cart Policy

Although the by-laws of the association prohibit the use of motorized electric vehicles on the premises for ingress and egress, Golf Carts are permitted and may be used on paved roads only and must be operated by a responsible person who is at least 16 years of age.

They may be driven to the beach area to provide easy access in specific situations where the individual would not otherwise have access to the beach. Such situations may include cases of ongoing need where the individual is disabled, as well as need of a more limited duration, such as residents or guests needing to transport small children or cumbersome items.

When using a Golf Cart, it is important to respect the environment as well the safety of all Starr Valley residents and guests. This is a privilege not a right and is non-transferable upon the sale of unit.
