

Which Hitch?

Hornet Outdoors manufactures a wide variety of specialty hitches. This guide will provide you with a brief description of each. Click on any Title and we will take you directly to that page.

Hitches and Hitch Products Designed for ATV/UTV Use

[U-4047 ATV/UTV Spare Tire Mount](#)

The U-4047 mounts the wheel on a low-profile angled bracket to minimize protrusion from your vehicle. Best suited for UTV equipped with 2" Receiver Hitch and average bed overhang like a Ranger, Viking, Wolverine or Defender. Curved lower negates ground hang-up.

[U-4047S UTV Spare Tire Mount Swing Away](#)

The U-4047S adds the convenience of the Hornet Scorpion Swing-Away Hitch Joint to our U-4047 Receiver Hitch Spare Tire Mount. Best suited for UTV equipped with 2" Receiver Hitch and large bed overhang like a Ranger, Viking, Wolverine or Defender.

[U-4048 ATV/UTV Spare Tire Mount](#)

The U-4048 mounts the wheel vertically with increased clearance from the mount post to accommodate wheels with deeper inset than the standard U-4047 Receiver Hitch Spare Tire Mount.

[U-4048S UTV Spare Tire Mount](#)

The U-4048S adds the convenience of the Hornet Outdoors Scorpion Swing-Away Hitch Joint to our U-4048 Receiver Hitch Spare Tire Mount for deep inset tires.

[U-4100-2 ATV/UTV Spare Tire Mount](#)

The U-4100-2 mounts the wheel on a low-profile angled bracket to minimize protrusion from your vehicle and features a lower section with less rise and a shorter spare tire mount post than our other Spare Tire Mounts. This mount is suitable for ATVs and UTVs where the receiver hitch is located directly under the bad of the bed.

[U-4063 1 1/4" ATV/UTV Receiver Spare Tire Mount](#)

This Spare Tire Mount is proudly made in the USA with American steel and is compatible with any standard 1-1/4" receiver hitch.

[U-4044 ATV/UTV Receiver Hitch Riser](#)

Receiver Hitch Riser extends your ATV or UTV receiver hitch by 14" to clear the rear of the vehicle and raises it by 8" for compatibility with 2" receiver hitch accessories.

[U-4043 ATV/UTV Adjustable Receiver Hitch](#)

An Adjustable Receiver Hitch with an extended 2" female receiver hitch for standard 2" receiver hitch access. Adjusts vertically from a 12" to 20". Horizontal adjustment in 1.5" increments.

[U-4051 ATV/UTV Hitch Extender Short](#)

The Hitch Extender provides 4-1/2" of extension if you have a receiver hitch mounted accessory that doesn't quite clear the rear of your vehicle.

[U-6043 1 1/4" Adjustable Receiver Hitch](#)

This Adjustable Receiver Hitch is compatible with any standard 1-1/4" vehicle receiver hitch and all standard 2" receiver hitch accessories.

[U-4053 ATV/UTV 1 1/4" to 2" Hitch Adapter](#)

This Hornet Outdoors Receiver Hitch Adapter was designed specifically for ATV/UTV use and is extremely short - it extends the hitch just 4-1/2".

[U-4052 ATV/UTV Dual "Piggyback" Hitch Extender Short](#)

The upper 2" female receiver lets you use one of our Receiver Hitch Spare Tire Mounts while the lower 2" female receiver is available for towing or other use.

Hitches and Hitch Products Designed for Truck, Auto and RV Use

[U-4800 Heavy Duty Spare Tire Mount](#)

The U-4800 mounts the wheel vertically with increased clearance from the mount post to accommodate wheels with deeper inset than the standard U-4100 Receiver Hitch Spare Tire Mount.

[U-4100 Heavy Duty Spare Tire Mount](#)

The U-4100 mounts the wheel on a low-profile angled bracket to minimize protrusion from your vehicle. Wheels with deep inset may require the longer mounting bracket. Best Suited for Trucks and Vehicles with Heavy Wheel/tire combinations that weigh #70 lb range and above.

[U-4200 Heavy Duty Adjustable Receiver Hitch](#)

The U-4200 Adjustable Receiver Hitch is a heavy duty version of our U-4043 ATV/UTV Adjustable Receiver Hitch intended for on-road and off-road use with SUVs and trucks with 5,000 pound towing and 500 pound tongue weight capacity. The Adjustable Receiver Hitch can be installed to raise the receiver hitch 3" to 9" for vehicles with low hitches or to lower the receiver hitch 3" to 9" for lifted vehicles or other vehicles with high hitches. Also extends receiver hitch 3" to 9" towards rear of vehicle.

[U-4100S Scorpion Heavy Duty Spare Tire Mount- Swing Away](#)

The U-4100S adds the convenience of the Hornet Outdoors Scorpion Swing-Away Hitch Spare Tire Mount for deep inset tires. Best Suited for Trucks and Vehicles with Heavy Wheel/tire combinations that weigh #70 lb range and above.
