- Employ a comprehensive investment approach integrating macro, industry & company analysis
- Generate superior returns through fundamental research & active portfolio management

INVESTMENT STRATEGY

- Invest in great companies with strong dividend yields offering compelling risk-adjusted returns
- Generate strong dividend income to improve total return, reduce risk & reinvest capital
- Actively manage the portfolio to improve returns, minimize volatility & reduce risk

OPERATIONS

- Top investment, audit & legal services provide a comprehensive solution
- High level of service and transparency within a regulated compliance structure

INVESTMENT OBJECTIVES

The Global Blue Chip Dividend Strategy focuses on three key tenets to build sustainable long-term wealth

OBJECTIVE	INVESTMENT APPROACH	GOALS
GENERATE THE HIGHEST RISK ADJUSTED RETURNS	<ul style="list-style-type: none">• Invest in high quality companies which offer compelling risk adjusted returns• Achieve total return through both dividend income and capital appreciation• Mitigate principal loss through continuous dividend income	<ul style="list-style-type: none">• Outperform equity markets over full market cycle• Capture majority of returns in strong equity markets• Deliver positive returns in flat equity markets• Outperform equity markets in down equity markets• Compound positive returns over time
GENERATE STRONG DIVIDEND INCOME	<ul style="list-style-type: none">• Utilize an extensive investment universe including REITs, MLPs, international equities• Invest in strong dividend paying companies with stable businesses & dividend policies• Focus on dividend yield component to provide valuation support and reduce risk	<ul style="list-style-type: none">• Deliver 4-5% dividend yield• Deliver higher yield than equity income strategies• Deliver dividend yield comparable to IG Bond index
MINIMIZE VOLATILITY & REDUCE RISK	<ul style="list-style-type: none">• Invest in businesses that deliver solid returns through the business cycle• Build a diversified portfolio of investments across all market sectors• Invest in low beta stocks with low correlations	<ul style="list-style-type: none">• Invest in high quality companies• Diversified portfolio of investments in all sectors• Portfolio beta lower than equity indexes
