

**Product Description:**

**RT5** is a concentrated odor eliminator and cleaner that contains enzyme producing bacteria which counteracts and eliminates the source of odors. It helps effectively by eliminating odors instead of just masking them. **RT5** is fragranced to leave a pleasant scent after use.

**Typical Uses**

Can be used in washrooms, counters, urinals, walls, carpets, showers, locker rooms, and drains to remove odors.

**How to use:**

**General Deodorizing:**

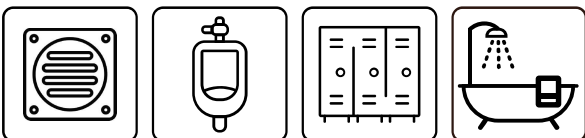

Dilute 40ml per liter of **RT5** with water.

**Washroom:**

Dilute 50ml per liter with water. Apply around urinals, toilets, on floors and in trash receptacles.

**Plumbing Pipes (drains, sinks, disposals, toilets):**

Pour 120ml of **RT5** into drain pipes twice per week when drain flow use is lowest, preferably night.

**Available Packaging:**

4x5 liters  
6x1000 ml

Refer to SDS before  
using the product.

**Hotel Edition**

**Room Task**
