

CREATING A BUSINESS PLAN – 12 STEPS IN THE S.M.A.R.T. BUSINESS PLAN PROCESS

Below are the steps in our process for writing an effective business plan.

Because we develop custom business plans tailored to your situation, steps may vary for your plan.

Our S.M.A.R.T. Planning Process Includes Ongoing Collaboration

Throughout the entire plan development process we will communicate via email and detailed telephone or Skype conversations.

In addition to reviewing your plan content and process our collaborations will be beneficial brainstorming and decision making exercise that help clarify your vision and prepare you to give succinct meaningful answers to questions from potential investors, partners, or lenders.

Depending on the scope of your plan development you should allow 10 to 25 hours for collaboration/consulting time
