To Whom It May Concern:

Our mission is to continually travel and provide entertainment to raise funding so that we can build and maintain self-sustainable communities for the homeless veterans and their immediate family.

To do this, it requires a great deal of funding in itself. One of the biggest costs when touring, is food.

With tour busses and the many vans that will be traveling the country, food is needed every day.

These tours can last up to three, six or even a year at a time, food costs are astronomical.

Entertainment groups, with at a minimum one person and up to 6 or more and a crew up to 5, really adds up.

Having a sponsorship for nutrition while touring, is a very needed sponsorship. This is reason we are sending this letter to you. Tour sponsorship is extremely important so that the money that is received, for the performances goes directly to The Awareness Tours to build and maintain these communities.

With your restaurants and other holdings, Will you stand with us and ease the Burdon of this cost, or one of the others?

Thank you for your time.
