**5 - Please comment on the strengths/weaknesses of the instructor and/or offer any suggestions for improving the course.**

- Strengths: Ability to clearly teach the material and work with students who had legitimate conflicts with class. Weaknesses: Lack of email communication when contacted directly.
- Dr. Lively is incredibly knowledgeable and is great at giving the students time to practice what they learn in class before tests and exams.
- I wish Professor Lively would have gone more into depth and not just assumed that everyone in the class understood what he was talking about. Some students in the class hadn't passed out of Music Theory 1 yet, and he assumed that we should have already known what he was talking about, when in actuality, he just sounded like he was speaking gibberish.
- Professor Lively is a very fair professor with clear rules and high expectations. His teaching techniques are very effective.
- The instructor was kind and taught the course well; however, sometimes I felt that the material on the quizzes could be covered and explained a little more in class.

**5 - Please comment on the strengths/weaknesses of the instructor and/or offer any suggestions for improving the course.**

- I really appreciated Dr. Lively's open and fun teaching style. I felt there was enough structure and work in the class to facilitate my learning, but not so much that it detracted from it. I thoroughly enjoyed the course.
- - Formal analysis was difficult for me at the beginning because it is hard to grasp the idea of the "ambiguous" answer, but later in the semester I got more comfortable with the fact that there are a hierarchy of right answers - There was so much emphasis on Beethoven and classical composers. I understand that music during the classical era is the most strict to form and provide good examples, but I was hoping to get to more late Romantic and modern works to see how form analysts approach these more complex "free-flowing" pieces.
- He is very good at offering comic relief and explaining things that could be complicated in a very digestible way.
- Professor Lively was an absolutely fantastic teacher. He is so intelligent about Music Theory. He taught the class in such a way that took complex pieces and ideas, and made them easier to understand. He was a great teacher!

**5 - Please comment on the strengths/weaknesses of the instructor and/or offer any suggestions for improving the course.**

- Awesome and encouraging professor. Really wanted to see me succeed which I appreciated. Made the class fun and always had something interesting to say/show me relating to music.
- Dr. Lively was able to tailor this course to best fit my situation as a second year graduate piano major. An excellent professor!
