Program Description

This program introduces the unique characteristics of the child, develops respect for children, and guidance skills that help them grow and develop. The student will not only gain knowledge that enables him/her to decide whether working in the field of education is suitable, but also develop and show responsibility in work performance; learn how to study the growth and development of children; recognize the physical, social, emotional, and intellectual abilities and needs of children; understand how children learn and the importance of play in their development; and learn how parents and teachers influence the growth and development of the child. The student will gain this knowledge through classroom work and field placement experiences in a preschool and elementary setting. The program will also introduce the unique characteristics of the teaching field through lesson planning, classroom management, technology and field placement experiences. The student will continue to learn about the field of education through observation and field experience.

Special Features

Leadership opportunities available through participation in Educators Rising in which students will be able to compete against other schools in the nation.

Work-based learning opportunities available

A state-required assessment (Professional Readiness Exam or PRE) is given to all students that have a grade of C or better. The assessment also can qualify students for college credits at Central Michigan University)

STATEMENT OF COMPLIANCE

The Downriver Career Technical Consortium complies with all federal laws and regulations of the U.S. Department of Education. It is the policy of the Downriver Career Technical Consortium that no person on the basis of race, color, religion, national origin or ancestry, age, gender, marital status, disability or limited English proficiency shall be discriminated against or excluded from participation in any program or activity to which it is responsible or for which it receives financial assistance from the U.S. Department of Education. Furthermore, the consortium will encourage participation by all of the above.
