My name is Jewel Wright and I am writing this letter in reference to Gary Lynn McDuff. I met Gary in 1971 in Pasadena Texas at Faith Assembly of God Church where his Dad was our Pastor. Gary played the drums in our Church and was very faithful.

Gary went into building homes and hired me as his Secretary. Gary was very good to me. He was so honest that bills had to be paid on time even if I had to work overtime.

The economy went down on building homes & Gary went into a business called McDuff Scott and associates and I worked for him again.

My husband always said he liked for me to work for Gary because he never got mad or raised his voice. I was

Very close to his wife and  
children.

The Gary McBuff that I know  
would never do the things he  
has been accused of.
