

St Davids Park Condo Association

Parking Reminders

Please be considerate to your neighbors when parking

Please park your vehicle between the lines of the designated parking spaces throughout our community. In most cases, it is best to center your vehicle between the lines. Always confirm that your vehicle is between the lines after parking

If you have a larger vehicle that cannot fit between the lines, please use a pull-in spot

When using pull-in spots, center your vehicle in its parking space and do not crowd the car in the next space. When opening doors, be aware of the vehicle on each side of you in order to not hit the doors or vehicle

If you are going away or know your car will not be driven for a while, please do not take one of the prime parking spaces right in front of a building

All vehicles must be registered, inspected and insured to be on the property, otherwise ticketing and towing will occur

Please do not park in a reserved handicap space without a placard/plate

Please lock your vehicle and do not leave valuables in plain sight

If you have a garage space, please park in the garage when able especially when it snows to facilitate snow removal, or if going away for an extended period

Thank You
