

## **Pandemic Faith Kits Instructions**

We know that church is greater than the walls that surround the sanctuary where we gather together on Sunday mornings for worship. Church and Worship can happen anywhere at any time. And we are here to form and transform our faith lives together. In this kit you will find a variety of ways to nurture your spiritual life at home as we do our part in containing the spread of COVID-19.

May these tools provide peace and comfort in times of distress. May they open new ways to worship and grow in faith. With all of these things, we encourage you to reach out and share in this opportunities with others! Although we may not be physically together we can still connect through phone, email, text, videochat, etc.

And like we have stated before, we are always here! Never hesitate to reach out to us by phone or email just to say hi.
