

No Cost Home Weatherization Program

Call us today to participate 960-7767

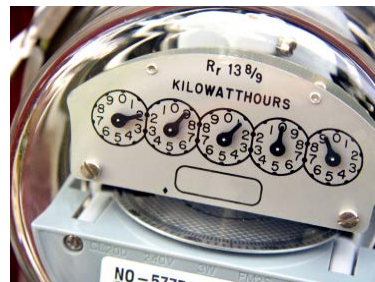

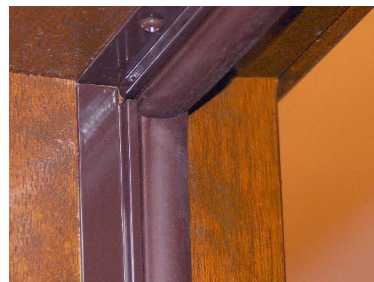

We are EcoPro Energy Solutions and we are your **AEP** approved project sponsor that participates in No Cost Weatherization program to provide energy efficiency products at no cost to you in your home. This program was developed by the Public Utility Commission of Texas to help customers lower their energy bill. EcoPro Energy Solutions receives incentives from AEP to install energy efficiency products in your home to lower your bill. If you feel your electricity payment is too high please, give us a call.

What we will do for you:

1. Install weather stripping & door sweeps for doors leading to the outside.
2. Locate and seal any and all air leaks in your home. Seal any and all plumbing penetrations.
3. Some customers may also receive energy saving fluorescent bulbs for light fixtures.

In order to participate in this program you must:

1. Have central heating & air in a standard home NOT a mobile home or trailer home.
2. Allow us to verify with AEP weather or not your home qualifies for this program.
3. Be on AEP Texas Power Lines
