Wyckoff Gas Storage	ISS	Interruptible Storage Service	Interruptible	X		X	152
Wyckoff Gas Storage	FSS	Firm Storage Service	Firm	X		X	152

- 1- Available to Columbia Gas Transmission Corp.
- 2- Applicable to laterals; Canal Lateral, Middletown Lateral, Cleary Lateral, Lake Road Lateral, Brayton Point Lateral, Bellingham Lateral, Phelps Dodge Lateral, Manchester Street Lateral, Cape Cod Lateral, Northeast Gateway Lateral, J-2 Facility, and Kleen Energy Lateral.
- 3- Provides delivery point flexibility within ACE Hub (Chicago area)
- 4- Shipper may specify multiple primary delivery points, up to an aggregate 150% of contracted transportation quantities
- 5- Available with the ACE Hub (Chicago area)
- 6- Shipper must also have transportation service to use storage service; shipper has option for flexible entitlements, allowing injection during winter period and withdrawal during summer period
- 7- Interruptible storage service; shipper must withdraw all gas within 45 days if so notified.
- 8- Character of service (firm vs. interruptible) matches entitlements of downstream shippers
- 9- Shipper must have both firm storage and transportation entitlements with ANR
- 10- Allows for imbalance between nominations and takes by up to the nominated quantities of storage injection or withdrawal
- 11- Generally applicable to Joliet Hub or Lebanon Hub
- 12- Service is offered at limited number of points, but list of available points is fairly long, and includes some power plants
- 13- ANR may issue Must Flow Order to provide FTS-4L service requiring shipper to nominate up to its MDQ
- 14- May specify MHQ up to 1/4 of MDQ; shipper has 2-hr notice option to start-up or shut-down service; shipper has enhanced variance option that allows difference between gas tendered and taken of up to 25% of MDQ (seems to act like Park and Loan service, but with transportation)
- 15- Firm for all but 10 days per month; contract MDQ may be reduced to meet service request under FTS-1
- 16- Hourly takes limited to 1/16 MDQ on 2-hr notice; rate includes flexible receipt and delivery points
- 17- Applies to legacy customers of Steuben Gas Storage
- 18- For moving gas between Tennessee, Millennium and Dominion
- 19- "Enhanced" interruptible takes priority over interruptible; includes capacity charge
- 20- For moving gas on Bluewater's pipelines between ANR, Great Lakes Gas, Vector, Michigan Consolidated Gas, Consumers Energy and Union Gas
- 21- "Advanced" interruptible service has scheduling priority over interruptible
- 22- This is an accounting service for pooling gas receipts into the system at Bybee, KY
- 23- Transportation service is between Tennessee and Transco
- 24- Wheeling service appears to be between Tennessee and Millennium
- 25- Accounting service for pooled receipts
- 26- Uses storage to provide balancing for transportation services
- 27- Service is no-notice only when primary receipt point (Columbia storage) is being utilized
- 28- Subject to either 30 or 60 days of interruption during winter season
- 29- Bundled storage and transportation, appears tailored to LDCs
- 30- Service may include interruptible rights (e.g. 300-day firm)
- 31- Service includes balancing and wheeling
- 32- Character and priority of service derives from associated service agreement
- 33- Character and priority of service by agreement
- 34- No-notice service only available up to customer's firm storage service entitlements, and only available during the Winter Period
- 35- Subject to up to 30 days of interruption each year
- 36- Service may be interrupted for Cove Point to provide Firm Peaking Service to other customers
- 37- Available to small customers formerly taking service under Rate Schedules GS or SGS (prior to Order 636)
- 38- Hourly flexibility supported by contract through hourly nominations, but only available from 10 p.m. to 8 a.m.
- 39- Tariff is silent with regard to hourly flexibility, but does mention that electric generating facility must provide hourly quantity profile in its daily nomination, thus suggesting significant flexibility
- 40- Hub Area includes interconnections with NGPL, TGT, ANR and Trunkline in Arkansas and Mississippi
- 41- Firm customers may take up to 6% of MDQ per hour
- 42- No-notice portion of service within associated FTS-1 or SFTS agreement
- 43- May be interrupted for a number of days as agreed to by Shipper and Transporter
- 44- Includes Park and Loan and Title Tracking Transfer services
- 45- Gas must be withdrawn on 30 days notice
- 46- Hourly deliveries of up to 6.25% of MDQ allowed, with greater flows possible by arrangement
- 47- Contractual flexibility limited to 120% of uniform rate for up to 3 consecutive hours, up to twice in 24 hours, with no less than 8 hours between occurrences
- 48- Consists of gas loaned at Waddington, transported via IT to any point on system, and then repaid at Waddington

## Exhibit 2. Rate Schedules Offered by FERC-Regulated Pipelines and Storage Companies DRAFT

- 49- No-notice provision for third-party balancing
- 50- Transporter may allow hourly flow of up to 6.25% of MDQ
- 51- "Interconnected parties should agree on the hourly flows of the intra-day nominations" Otherwise, tariff is silent on hourly flexibility.
- 52- Service period is Dec 1 to Feb 28 (or 29)
- 53- Service period excludes Dec 1 to Feb 28 (or 29), may also be interrupted during some or all of the service period based on terms of service agreement
- 54- Character/priority of service depends on nature of underlying tariff schedule through which balancing quantities are provided
- 55- Service period is Nov 1 to Mar 31
- 56- Customers' firm entitlements are automatically adjusted upwards each day based on available firm capacity, incremental capacity is for service from Baileyville to Tennessee or Algonquin
- 57- Service for southbound flows only on Mainline (ANR interconnect in IL to Tennessee interconnect in TN) is conditioned on not operating the Paris Turbine more than 6090 hours in any rolling 12-month period due to emissions restrictions
- 58- For service on Eastern Mainline (30 mi. of 16-in. pipe between TGP and Columbia/East Tennessee)
- 59- Service (from Panhandle interconnect in Illinois to TGP in Tennessee) is conditioned on not operating the Paris Turbine more than 6090 hours in any rolling 12-month period due to emissions restrictions
- 60- Interruptible for up to 10 days per month; service can be reduced or cancelled on 30 days notice in order to provide FT-1 or HT-1 service
- 61- Subject to sufficient scheduled and confirmed forward -haul volumes
- 62- Maximum hourly quantity to be not less than 1/20 nor greater than 1/4 of Transportation Demand (daily amount)
- 63- May be used to automatically balance flows under other service agreements
- 64- Customer must hold firm storage and transportation entitlements on MRT
- 65- Flexibility is subject to balancing provided by upstream shipper and no disruption to other Shippers
- 66- Wheeling is between TGP and TETCo in northern Mississippi
- 67- Supports hourly nominations, if also supported by customer's pipeline transporter
- 68- Functionally equivalent to PAL, but does not utilize storage
- 69- This is a seasonal lending service, with gas first withdrawn (and, optionally, delivered) during the summer (May 15 - Sept 30) on a no-notice basis, then injected under scheduled nominations during the following winter period (Dec 1 - Feb 28)
- 70- Firm service available on days specified in negotiated service agreement
- 71- Service can be no-notice in conjunction with no-notice option available under NGPL firm transportation service
- 72- Tariff allows up to 6.25% of MDQ per hour, or greater amount temporarily if possible
- 73- Transportation is provided from storage to delivery point, Shipper must arrange transportation for storage injections; withdrawals permitted year-round, but allowable quantities greatly reduced outside of the winter period; injections also permitted year-round
- 74- Loan service
- 75- MDQ changes month-to-month per terms of service agreement
- 76- No-notice loan service for balancing at the Hub with associated transportation
- 77- For transportation of liquefiable hydrocarbons; priority is the same as that of the the gas containing the liquefiable hydrocarbons being transported under a separate agreement)
- 78- No-notice parking service for balancing at the Hub with associated transportation
- 79- Hub facilities include connections to Ellisburg, Leidy and Wharton storage fields
- 80- No-notice loan service for balancing at the Hub
- 81- No-notice parking service for balancing at the Hub
- 82- Includes transportation of withdrawals to delivery point(s); transportation for injections is separate, and may be firm or interruptible
- 83- Bundled firm storage and transportation; receipts must be nominated, but not deliveries
- 84- For service on 9-mile Princeton lateral to Ameren Illinois near Princeton, IL
- 85- Several service options, including 12-month Base, 12-month variable, 5-month (winter) service and 12-month field area service
- 86- For Gulf coast gathering lines
- 87- For small customers grandfathered under former rate schedule GS
- 88- Normally called storage; only offered in conjunction with "throughput" (transportation) services
- 89- Must have associated firm throughput agreement
- 90- Compression service into lateral from gathering field
- 91- Interruptible for up to 10 days per month
- 92- Receipts to be uniform, hourly deliveries generally unrestricted, but may be restricted to 1/16 of daily nomination on notification
- 93- Injections and withdrawals are firm during periods established in service agreement, interruptible otherwise
- 94- Takes to be made uniformly over hourly period specified in agreement
- 95- Injection and withdrawal available year-round; no ratchets
- 96- Winter injections and summer withdrawals are interruptible; ratchets apply
- 97- Similar to WS, but more severe ratchets and less flexibility on scheduling injections and withdrawals
- 98- Allows for negative parking (loaning)
- 99- Must have both EFT or SCT and IOS or eligible FS agreements
- 100- Utilizes associated firm storage entitlements to balance firm or interruptible transportation
- 101- Redelivery to truck or pipeline
- 102- Delivery to truck only

## Exhibit 2. Rate Schedules Offered by FERC-Regulated Pipelines and Storage Companies DRAFT

- 103- Only one HRS agreement can be in effect at any delivery point; maximum hourly rate of 1/24, 1/20, 1/16, 1/14 or 1/12 of MDQ as specified in agreement, receipts to be at uniform hourly rates
- 104- Subject to sufficient forward haul volumes
- 105- Hub service; physical points within hub defined on website, and subject to change
- 106- Supports hourly nominations
- 107- Transporter has no obligation to deliver hourly flows of more than 6% MDQ
- 108- Shipper must have associated CSS agreement in place
- 109- Made up of FTS and FSS; between 1/3 and 1/2 of deliveries must be from supply, 1/2 to 2/3 must be from storage
- 110- Ratchets more restrictive than under FSS
- 111- Enhanced falls between firm and interruptible in priority
- 112- Tennessee supports hourly nominations for all indicated rate schedules between 10 p.m. and 8 a.m.
- 113- No-notice delivery service (Storage Swing Option) available with associated storage agreement
- 114- Available to shippers previously under Rate Schedule NET; 11 shippers under this rate schedule with aggregate MDQ of about 150,000 Dth
- 115- No-notice service available with associated firm storage agreement
- 116- Rate is offered pursuant to 20+-year-old FERC orders; hourly flexibility allowed to match that allowed by Iroquois; no flow restrictions on Shippers previously served under NET-Niagara rate schedule; three shippers under this schedule with total MDQ of 21
- 117- No-notice service supported where FT-1 receipt point is no-notice delivery point in associated service agreement under rates CDS, SCT or SS-1
- 118- Applicable to Viosca Knoll Lateral, a gathering line in the Gulf of Mexico
- 119- Character and priority of service and hourly flexibility per negotiated service agreement
- 120- Applicable to or from CNG Points as defined in service agreement
- 121- Applicable to forward- or backhauls to or from points on Equitrans
- 122- Available to current IT-1 customers formerly under rate schedule SS-2
- 123- Applicable to portion of storage (if any) associated with CDS, FT-1, SCT or IT-1 agreement which is not no-notice
- 124- Allows pre-injection of gas (via either actual receipts or displacement) for balancing under TABS-1 agreement or to avoid operational problems.
- 125- Available to current IT-1 customers previously under rate schedule SS-3
- 126- Hourly flows up to 1/16 of MDQ allowed
- 127- Customer shall provide its own Unnominated Gas Quantities for storage component of no-notice service
- 128- Optional addendum to firm service agreements allows nominations every two hours on two-hours notice
- 129- Allows relaxation of hourly delivery limits otherwise in effect under any transportation service agreement
- 130- Customer nominates transportation, swing is handled through no-notice storage during the summer
- 131- Customer may also obtain liquefaction or vaporization service if available after LSV customer nominations have been satisfied
- 132- Receipt and delivery points may be upstream of Carlstadt, NJ LNG facility, but not interconnection with other interstate pipeline on a secondary basis; withdrawal quantities nominated and scheduled at secondary points not available for "swing" service
- 133- Storage is provided by Dominion and NFG, rates are derived from Dominion (GSS) and NFG (SS-1) rate schedules
- 134- Storage is provided by NFG (Wharton), rates are derived from NFG's rate schedule SS-1 (storage) and X-54 (transportation)
- 135- Applicable to Order 636 conversions from firm sales agreements under previous Rate Schedules G & OG; has to be used before other transportation entitlements, cannot be released
- 136- Shipper may take between 90% and 110% of scheduled quantity, must pay IT rates for over- or under-takes; swing option not available
- 137- Storage is provided by TETCo under rate schedule X-28
- 138- Applies to transfers between pipeline interconnections within 50 miles of each other
- 139- Truckload deliveries; gas must be returned via pipeline transportation within 10 days
- 140- May make up to one nomination per hour until 4 p.m. Central Time
- 141- Hourly flows between 50% and 150% of ratable takes permitted
- 142- This is no-notice firm storage service that is associated only with SST rate schedule
- 143- This is no-notice firm storage service that is associated with firm transportation agreement that include Epps storage field as primary receipt and delivery point
- 144- Deliveries by truck with same day replacement via pipeline receipts
- 145- Connected to Dominion, NFG, Tennessee and Transco in Leidy area
- 146- For automatic balancing of nominations under FSS agreement
- 147- Intraday nominations on 1-hr notice allowed any time
- 148- Maximum hourly deliveries to be between 1/4 and 1/16 of MDQ as stipulated in service agreement
- 149- Applicable to pre-conversion customers with authorized overrun service under Rate Schedule AO or T-9
- 150- For no-notice service under Rate Schedule FT-1; must have associated FS-1 agreement
- 151- Transporter not obliged to deliver more than 6.2 percent of MDQ in a given hour
- 152- Rate schedule includes service option for storage-based load following and hourly/daily balancing services that are designed to match the dispatch profiles of gas-fired electric generation facilities; hourly nominations and no-notice service also available
- 153- Applicable to transportation by back-haul or displacement that creates forward-haul capacity.

## Exhibit 2. Rate Schedules Offered by FERC-Regulated Pipelines and Storage Companies DRAFT

- 154- No-notice withdrawal during summer (Jun-Oct), replacement by injection the following winter(Nov-Feb)
- 155- Park and loan service
- 156- Available services include wheeling and park and loan; character and priority of wheeling services as established by service agreement
- 157- Character and priority of service established by negotiated sales agreement
- 158- Service is dependent on off-system storage, has same character and priority as OSS
- 159- Customer must be an FT shipper to use this service; service depends on availability of secondary receipt and delivery points on Vector, and is provided on a "commercially reasonable efforts" basis
- 160- Applicable to southern half of pipeline system
- 161- Can take up to 5% of MDQ for up to 7 consecutive hours; other flow limits as detailed in Section 15.3 of tariff
