Attention: Landon Scism  
USETPA

Reference: WAN Optical Services

Listed below is pricing for Wide Area Network (WAN) services. These services provide a direct copper or optical connection to the customer's existing equipment. Normally the design is based upon a large connection into the customers' data center and smaller connections going out to each remote location. These services are normally provided in conjunction with TIPS strategic partners. Services are not available in all areas and price is subject to change based upon the complexity of the network and construction cost. We will guarantee that any USETPA member will receive a minimum of 5% below the above listed prices.

Monthly Reoccurring Optical Services plus tax

100MB	\$800.00
1GB	\$1500.00
10GB	\$4500.00

Non-reoccurring charges, if any will be provided after an engineering review.

If you need additional information, please let us know.

Thank you,
