END POLIO NOW STATUS UPDATE

THE MISSION

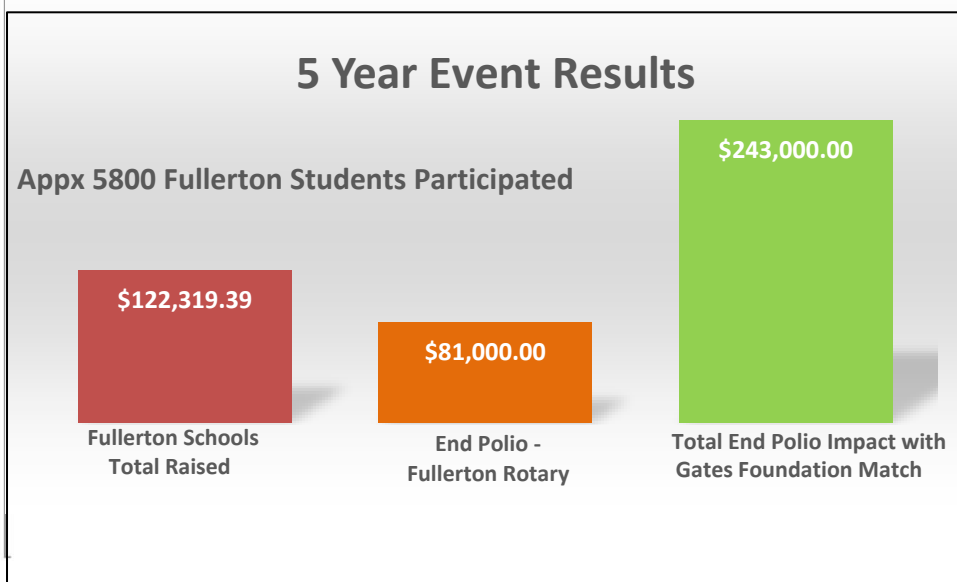

Polio cases have declined rapidly since 1985, but the fight is not over. Polio is a crippling and potentially fatal infectious disease. For as little as \$0.60, a child can be protected against the virus for life. If we do not finish the fight right now, more than 10 million children under the age of 4 could be paralyzed by polio in the next 40 years. We are down to just a few countries left to wipe this disease from the planet, but this final lap will require all of our involvement.

YOUR CONTRIBUTION

With your support along with the support of the Bill and Melinda Gates Foundation, who will double your contribution (Example: A \$1 donation will result in \$3), we can finally eradicate this disease once and for all.

A GLANCE AT THE LAST 5 YEARS
