and Chiefs of Police**

WYOMING DEPARTMENT OF  
TRANSPORTATION – Highway Safety Program

ALCOHOL AND CRIME IN WYOMING: 2019

April 2020

The analysis of the data collected by the Wyoming Association of Sheriffs and Chiefs of Police and the printing of this report was made possible through the assistance of grant funds received from the Wyoming Department of Transportation – Highway Safety Program. The Project was managed by Johnson and Associates of Douglas, Wyoming. The report was authored by Ernest L. Johnson, Director of Services.

## INTRODUCTION

The Wyoming Association of Sheriffs and Chiefs of Police has been collecting substance-related data from all persons booked into county detention facilities in Wyoming since 2005. The data-collection process has been refined since that initial effort and has now been institutionalized as a part of the book-in process year-round for all custodial arrests.

There were two significant developments in the data-collection process in 2019. First, the Association developed a process that allows agencies to submit reports electronically and online. This data-collection method replaced the hand-filled paper forms that were submitted weekly by postal mail. This electronic method of data-collection provides for real-time reporting, adds additional data fields to the reporting form and promotes more complete reporting. This process was implemented in July.

The second significant development in the collection of arrest data in Wyoming this past year was that Park County Sheriff's Department decided to not participate in this data-collection initiative and did not submit custodial arrest reports throughout the year. Therefore, this report does not provide a complete accounting of all custodial arrests for Park County. Both developments should be factored when comparing this year's statewide data with previous years or when comparing county statistics.

This report contains an analysis of substance-related arrest information collected in twenty-three counties in Wyoming from January 1 through December 31, 2019. Information was collected from a total of 11,788 persons who were arrested and subsequently detained in a county detention facility. Data collected from 1,230 persons booked into the Volunteers of America Detox Center in Fremont County is also included.

Information has now been collected from a total of 225,792 persons who were arrested and subsequently detained in a detention facility in Wyoming during the last fifteen years.

The Wyoming Association of Sheriffs and Chiefs of Police publish the results and analysis of the data-collection efforts each year in three separate reports: the main report which provides statewide statistics and averages and comparison of county statistics in specific categories; a supplemental report which provides county, community and local law enforcement agency specific statistics; and an Executive Summary which provides selected statistics, information and highlights from the main report.

These reports can be accessed online on the following websites: <http://wascop.com> and <http://jandaconsulting.com>

## EXECUTIVE SUMMARY

This Executive Summary highlights a few of the significant findings contained in this report. It focuses on issues that are of obvious concern or which may be of greater interest to the general public; however, a careful review of other relevant findings and statistics contained in the main body of this report is essential in order to gain a more complete perspective of the impact of alcohol on crime in Wyoming.

The profile of the average person taken to jail in Wyoming continues to be relatively consistent with previous years. About three out of four times it was a male (females have increased incrementally in recent years, 25% this year), the average age is 36. 17% of the time it was an out-of-state visitor and 7% of the time it was an in-state visitor. Juvenile arrests resulting in detention in a detention facility accounted for less than 1% of the total custodial arrests (52 out of 11,788).

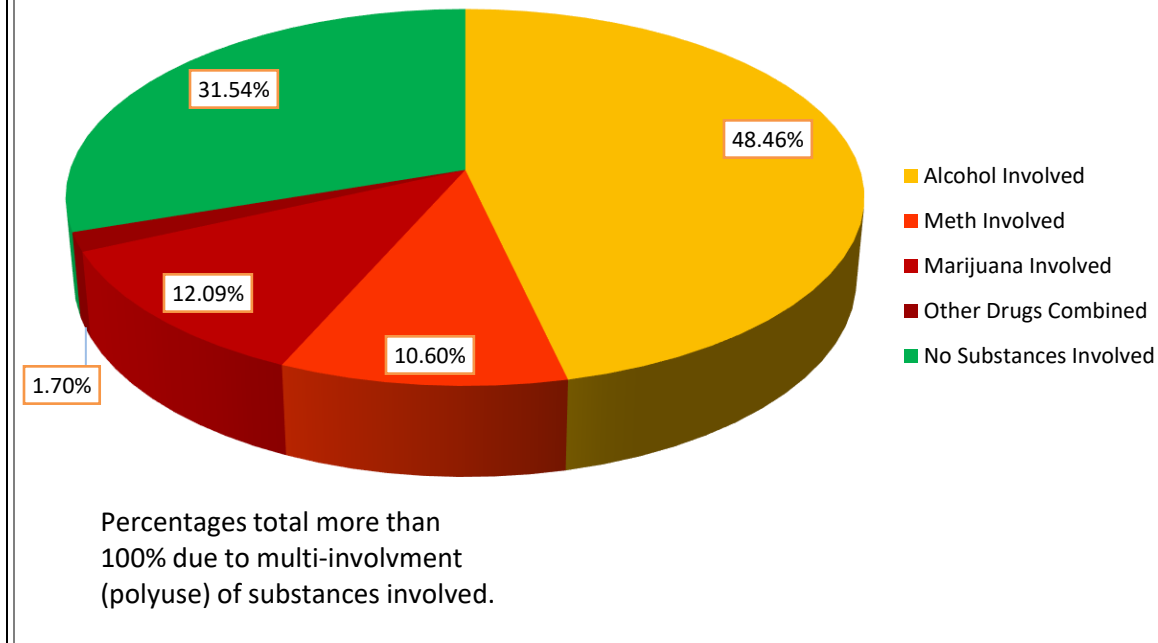

A review of the data collected from persons arrested and subsequently taken to jail indicates that Wyoming continues to be relatively safe from what is generally considered to be “serious” crime. The number of persons who are arrested for felonies is relatively low when compared to the number of persons arrested for minor crimes (misdemeanors). However, felony arrests have increased incrementally in recent years and now account for 14.34% of the total arrests statewide.

*Although Wyoming is relatively “safe” from what is generally considered to be serious crime (felonies), the high percentage of alcohol-involved arrests, the inordinate number of arrests for public intoxication and driving under the influence, and the high levels of blood alcohol content for drivers arrested for being impaired represent real and significant threats to public safety.*

The information collected from a total of 11,788 persons who were arrested and subsequently detained in a county detention facility in Wyoming during 2019 confirms what law enforcement officers who patrol the streets and highways and who respond to calls for service in Wyoming already know from experience – alcohol is the contributing factor most often present in situations that result in someone going to jail.

### Meth. Alcohol and Other Drugs Involved Arrests

#### SUMMARY OF SUBSTANCE-INVOLVED ARREST STATISTICS FOR 2019:

- Alcohol was involved in 48.46% of all custodial arrests.
- Methamphetamine was involved in 10.60% of the 11,788 reported arrests.
- Marijuana was involved in 12.09% of all custodial arrests.
- Drugs were involved in 21.00% of all reported arrests.
- Arrests for public intoxication accounted for 12.87% of all arrests.
- The average blood alcohol content for persons arrested for public intoxication was 0.2075.
- Driving under the influence arrests accounted for 27.78% of all arrests.
- The average reported blood alcohol content for DUI arrests statewide was 0.1564<sup>1</sup>
- 48% of persons arrested for DUI had a reported BAC level above 0.16 and 13% had a BAC of 0.24 or greater.

<sup>1</sup> In Wyoming, a person driving with a blood alcohol content of 0.08 is legally presumed to be impaired.

## Alcohol and Crime in Wyoming - 2019

- The average reported BAC for 232 persons who were arrested for DUI after being involved in a traffic crash was 0.1607.
- The age group with the highest percentage of DUI arrests was age 26-30 (17%), followed by age 21-25 (16%) and 31-35 (14%).
- 

*To grasp the significance of the blood alcohol content statistics, it should be noted that a physically fit male who weighs 180 pounds would have to consume at least seven drinks in one hour to achieve a BAC of 0.15 – a female weighing 120 pounds would have to consume four drinks in one hour.*

Please refer to the Alcohol Impairment Educational Guides for males and females in the Attachments Section of this report for information about the level of impairment for other body weights and drinks consumed.

### TRENDS ANALYSIS

Even though the number of alcohol-involved arrests has decreased significantly in recent years, alcohol is still the drug with the greatest impact on crime in Wyoming. Incidents of assaults, disturbances, child abuse, and domestic violence all are heavily influenced by alcohol.

*The statistics in Wyoming collected during the last ten years clearly indicate that the two crimes that account for the greatest number of custodial arrests in Wyoming are driving under the influence (DUI) and public intoxication.* Together these two crimes alone have accounted for an average of 45% of all custodial arrests in Wyoming for each of the last ten years.

Driving Under the Influence: Driving Under the Influence is, unquestionably, the crime that has the greatest impact and consequence in Wyoming. It accounts for the greatest number of custodial arrests and is the cause of more deaths and serious injuries than any other crime. DUI arrests account for an approximate average of 27% of all custodial arrests in Wyoming each year and a third of all traffic fatalities are the result of impaired driving.

The number and percentage of DUI arrests have decreased statewide during the last nine years. At the same time, the average blood alcohol content (BAC) has remained at near twice the presumptive level of impairment while the involvement of drugs has increased. DUI arrests in several counties have consistently been above the statewide average.

## Alcohol and Crime in Wyoming - 2019

**Public Intoxication:** Public intoxication is viewed by some as just a public nuisance crime; however, incidents of public intoxication present real and significant threats to public safety. The average Blood Alcohol Content (BAC) for Public Intoxication arrests in Wyoming in 2019 was 0.2075 – nearly three times the presumptive level for impairment. In some counties, the average BAC for public intoxication arrests in 2019 was even higher. Alcohol Intoxication at these levels often “fuels” behavior that result in more serious crimes than just disturbances and nuisances.

### **EMERGING TRENDS IN THE TYPE OF SUBSTANCE INVOLVED IN CRIME:**

Alcohol and/or other drugs were involved in 69% of the 11,788 custodial arrests in 2019. Although alcohol continues to be the drug most often present in situations which result in someone going to jail, drug-involved arrests in Wyoming have increased significantly in recent years.

During the last ten years in which data is available for a calendar-year period (2010-2019), *the number and percentage of alcohol-involved arrests have continued to decrease - while the number and percentage of other drug-involved arrests have increased.*

Alcohol-involved arrests in 2019 were 7,933 fewer in number than in 2010 (a 58% decrease).

There were 584 more drug-involved arrests in 2019 than in 2010 (a 24% increase).

***The number of meth-involved arrests has increased each year since 2011 and has more than tripled since then.*** There were 1,250 meth-involved arrests in 2019 (there were 420 in 2011).

The four counties with the highest number of arrests involving meth in 2019 were: 1) Laramie – 281; 2) Natrona – 240; 3) Campbell – 216; and 4) Carbon – 67.

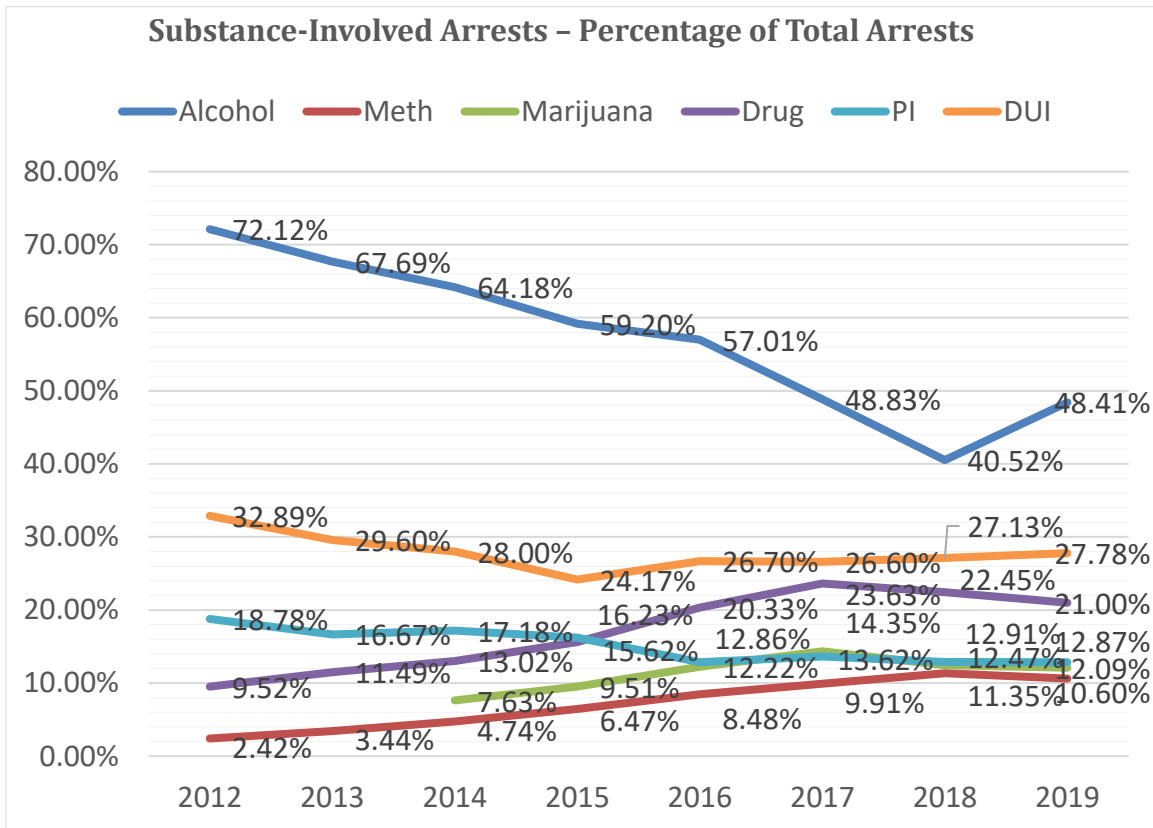

The Association began collecting marijuana-involved arrest data in March of 2014 to assess the impact on public safety in Wyoming from Colorado’s legalization of marijuana. The number of marijuana-involved arrests increased the first three years, then decreased. No clear trend for marijuana-involved arrests is evident from the five years of data collected thus far. In 2018 and 2019, the number and percentage of arrests were less than in 2017: 14% (1,957) in 2017; 12.47% (1,542) in 2018; and 12.09% (1425) in 2019.

The four counties with the highest number of arrests involving marijuana in 2019 were: 1) Campbell – 232; 2) Laramie – 217; 3) Natrona – 161; and 4) Uinta – 126.

## Alcohol and Crime in Wyoming - 2019

### Substance-Involved Arrests: Number of Total Arrests

Alcohol Involved	Meth Involved	Marijuana Involved	Drug Involved	Public Intoxication	DUI
<b>2015</b> 9,470	<b>2015</b> 1,035	<b>2015</b> 1,521	<b>2015</b> 2,498	<b>2015</b> 2,965	<b>2015</b> 3,757
<b>2016</b> 9,054	<b>2016</b> 1,346	<b>2016</b> 1,940	<b>2016</b> 3,229	<b>2016</b> 2,677	<b>2016</b> 3,729
<b>2017</b> 6,660	<b>2017</b> 1,351	<b>2017</b> 1,957	<b>2017</b> 3,223	<b>2017</b> 1,858	<b>2017</b> 3,628

## Alcohol and Crime in Wyoming - 2019

**TRENDS IN ARRESTS FOR IMPAIRED DRIVING:** The statistics for persons arrested for driving while impaired mirrors the recent trends for all substance-involved arrests. The percentage and number of persons arrested for driving impaired has decreased during each of the last nine years - while the percentage for other drug-involvement for impaired driving arrests has increased.

The average blood alcohol content for persons arrested for impaired driving during the last eight years remains at double the presumptive level for impairment – while the average blood alcohol content for persons arrested for public intoxication remains at almost three times the presumptive level.

### Driving Under the Influence Arrests: 2015 - 2019

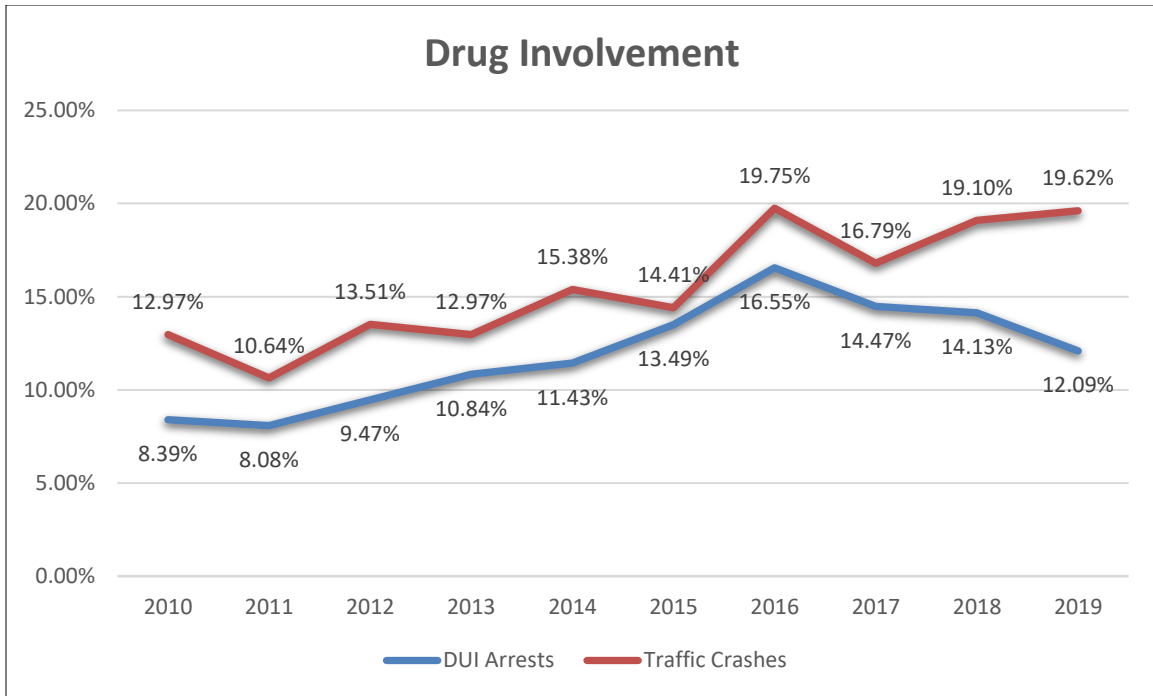

Number of Arrests	% of Total Arrests	Average BAC	Drugs Involved
<b>2015</b> 3,757	<b>2015</b> 26.27%	<b>2015</b> .1574	<b>2015</b> 13.49%
<b>2016</b> 3,729	<b>2016</b> 26.70%	<b>2016</b> .1591	<b>2016</b> 16.55%
<b>2017</b> 3,628	<b>2017</b> 26.60%	<b>2017</b> .1670	<b>2017</b> 14.47%
<b>2018</b> 3,355	<b>2018</b> 27.13%	<b>2018</b> .1578	<b>2018</b> 14.13%
<b>2019</b> 3,275	<b>2019</b> 27.78%	<b>2019</b> .1564	<b>2019</b> 12.09%

### DUI Arrests with Reported BAC in Each Range

(662 reported BAC's)

## Alcohol and Crime in Wyoming - 2019

Although the number and percentage of DUI arrests have decreased statewide in each of the last three years, the percentage of DUI arrests in several counties in the state have been consistently above the statewide average.

**PUBLIC CONCERNS**

*The statistics contained in this report identify significant public safety issues which merit further discussion, analysis and action by local law enforcement, citizens and state/community leaders.*

The high percentage of alcohol involved arrests (41%), the inordinate number of arrests for public intoxication (1,597) and DUI (3,355) and the high levels of BAC recorded for these individuals (average BAC: 0.2321 for public intoxication and 0.158 for DUI) appear to validate the concerns about alcohol abuse expressed by Wyoming residents in the most recent statewide public opinion survey<sup>2</sup>.

Some excerpts from the survey that involved 4,798 Wyoming residents:

- 79.7% view alcohol abuse by Wyoming adults as a serious or somewhat serious problem
- When Wyoming residents were asked whether they would support a state law that would prohibit selling or serving alcohol to someone who is obviously intoxicated:
  - 64.3% strongly supported such a law
  - 17.9% somewhat supported such a law
- 84.5% of Wyoming residents believe that drinking and driving in their community is a serious or somewhat serious problem.

<sup>2</sup> Wyoming Alcohol Use Issues Survey, Wyoming Survey & Analysis Center, November 2012

## SIGNIFICANT STATISTICS AND FINDINGS

This report provides statewide statistics and averages, along with comparisons of county statistics in specific categories. In addition, there are approximately one hundred pages of data in a supplemental report that provides county, community and local law enforcement agency specific statistics.

Detailed charts and graphs included in the Data/Statistics section of this report are helpful in identifying trends involving alcohol-related arrest activity and provide a statistical picture of the circumstances which result in someone being arrested and subsequently taken to jail in Wyoming. The impact of substance abuse on crime statistics varies by county across the state. This report also includes a detailed analysis by county for comparison purposes.

Listed below are a few of the noteworthy statewide averages and county specific alcohol-related statistics and findings from the Data/Statistics section of this report.

\*\*\*\*\*

- **Alcohol was a factor in 48% of the custodial arrests in Wyoming.**
  - Counties with significantly higher statistics:
    - Teton – 76.84%
    - Sweetwater – 76.75%
    - Sheridan – 68.76%
  
- **Methamphetamine was involved in 10.60% of the arrests statewide.**
  - Counties with significantly higher number of meth-involved arrests:
    - Laramie- 281 (13.50%)
    - Natrona – 240 (11.33%)
    - Campbell – 216 (15.93%)
  
- **Drugs (other than alcohol) were involved in 21.00% of the reported arrests statewide.**
  - Counties with significantly higher statistics:
    - Park – 31.71%
    - Hot Springs – 30.81%
    - Campbell – 30.24%
  
- **Marijuana was involved in 12.09% of the arrests statewide.**
  - Counties with significantly higher marijuana-involved arrests:
    - Campbell – 232 (17.11%)
    - Laramie – 217 (10.42%)
    - Natrona – 161(7.60%)
  
- **Arrests for Public Intoxication accounted for 12.87% of all arrests statewide. (The statewide average does not include persons who were admitted into the VOA Detox Center for public intoxication)**
  - Counties with significantly higher statistics:
    - Sweetwater – 26.67%
    - Teton – 22.95%
    - Goshen – 21.77%

## Alcohol and Crime in Wyoming - 2019

---

- **The average blood alcohol content for all persons arrested for public intoxication was 0.2075.**
  - Counties with significantly higher statistics:
    - Sublette – 0.2900
    - Park – 0.2440
    - Teton – 0.2334
  
- **Driving under the influence (DUI) arrests accounted for 27.76% of all arrests statewide.**
  - Counties with significantly higher statistics:
    - Lincoln – 53.98%
    - Sublette – 44.57%
    - Sweetwater – 43.74%
  
- **12.09% of the arrests for DUI involved drugs.**
  - Counties with significantly higher statistics:
    - Hot Springs – 17.95%
    - Converse – 16.94%
    - Natrona – 16.61%
  
- **The average blood alcohol content (BAC) reported for 3,275 persons arrested for driving under the influence statewide was 0.1564.**
  - Counties with significantly higher statistics:
    - Teton – 0.1776
    - Converse - 0.1769
    - Johnson - 0.1735
  
- **19.62% of traffic crashes resulting in custodial arrests involved drugs.**
  - Counties with significantly higher number of drug-involved traffic crashes:
    - Laramie – 14
    - Natrona – 6
    - Sheridan – 5
  
- **The average BAC reported for 232 arrests involving traffic crashes that involved alcohol was 0.1607.**
  
- **48% of the persons arrested for driving under the influence had average blood alcohol content above 0.16.**
  
- **171 persons were arrested for DUI with a BAC of 0.20 or higher.**
  
- **84 persons were arrested for DUI with a BAC of 0.24 or higher.**

## JUVENILE/ UNDERAGE DATA

The data in this report does not represent a complete accounting of juvenile arrests as these arrests often do not result in detention in a county facility.

134 underage youth were taken into custody and placed in a detention center this year for being a minor in possession of alcohol. The average BAC was .1315.

131 underage youth were arrested for driving under the influence – 29 of these arrests involved drugs. The average BAC was .1293. Six of the underage youth arrested for DUI were juveniles.

- 4.0% of all persons arrested for driving under the influence (DUI) were under the age of 21.
- Juveniles accounted for less than 1% of the arrests statewide (76 total).
- 30.77% of the juvenile arrests involved alcohol (16 total).
- Nine of the juvenile arrests involved methamphetamine.
- Eight of the juvenile arrests involved marijuana.
- 32.69% of the juvenile arrests involved drugs (17 total).
- 123 minors arrested for alcohol-related offenses reported obtaining alcohol at:

### PROJECT DESIGN AND IMPLEMENTATION

The Wyoming Association of Sheriffs and Chiefs of Police contracted with Johnson and Associates, a Wyoming based management consulting firm, to manage and staff this project – to create the master database, to collect and input data, to author the final report and to make presentations to select groups. The Association has contracted with Johnson and Associates to manage and staff this project since its inception.

A task force comprised of administrators and detention facility personnel from each of the county law enforcement agencies involved in the initial data collection efforts in 2005 determined the scope and intent of the project and provided specific direction for its implementation. In the following years, all law enforcement and detention facility administrators in the state were involved in deciding the appropriate fields for collection of data, selecting the subject areas that would be targeted for analysis and refining the process and procedures for collecting the information.

The Association transitioned from a hand-filled paper form submitted weekly by postal mail to an electronic form submitted online in real-time in 2019. The reporting form contains instructions for completing and processing the completed reporting forms. In addition, all detention facility personnel who were assigned the responsibility to oversee their agencies' data collection were provided individual orientations.

The master database for this project was created in a manner that will allow “harvesting” of additional information in the future should a need arise. The data in this report is presented by “county” and by “department,” by actual numbers and percentages, and by various categories of interest. The information was assembled in this manner to assist law enforcement administrators, as well as community leaders, to better analyze the information and to facilitate follow-up inquiries of notable concerns.

### DATA COLLECTION

A one-page reporting form consisting of fill-in or checked boxes has been constructed and refined for this project. It is estimated that the form requires the booking and/or arresting officer two-to-three minutes to fill out during the book-in process. Specific information that was collected during the book-in process include: type of offense, whether alcohol was involved, whether drugs were involved, location of last consumption and point of sale, known blood alcohol content levels for arrests involving public intoxication, driving under the influence, minors in possession, and demographic information. (A sample of the reporting form is included in this report)

A total of 11,788 reporting forms were submitted by the twenty-three counties and the Volunteers of America Detox Center in Fremont County during the twelve-month data collection period January 1 through December 31, 2019

**For the first time since the inception of this project, Park County Sheriff's Department decided to not participate this year and did not submit arrest reports throughout the year. THEREFORE, DATA FOR PARK COUNTY IN THIS REPORT IS NOT A COMPLETE ACCOUNTING OF ALL CUSTODIAL ARRESTS.**

### DATA /STATISTICS

All information contained in the reporting forms that were submitted by the participating counties was entered into a master data base by day and by month. This information was subsequently assembled by category, by county, and by department to facilitate appropriate comparisons and further analysis.

A detailed breakdown of information for each county is available in a separate Supplemental Report.<sup>3</sup> A sample of the county statistics is included in this report. Natrona County was selected as the sample to be included as this county generated the greatest number of arrest statistics.

The substance-related arrest data in this report is presented in a series of tables and graphs:

- ❖ Tables – Number of Arrests and Percentages
- ❖ Pie Chart – Methamphetamine, Alcohol and Other Drugs
- ❖ Tables – Felony/Misdemeanor Arrests Involving Alcohol
- ❖ Bar Graphs – Alcohol Arrests Percentages, BAC
- ❖ Pie Graphs – DUI, BAC, Traffic Crash Statistics
- ❖ Tables and Bar Graphs – Juvenile Statistics
- ❖ Pie Graph – Juvenile Demographics, Where Minors Obtain Alcohol
- ❖ Table – Natrona County Statistics (Sample County Statistics)

**PLEASE NOTE:** Cheyenne Police Department policy allows misdemeanor DWUI offenders to be cited and released if the arrestee’s vehicle has been impounded or turned over to a responsible adult and if the driver is released to a sober adult. These additional arrests statistics have not been included in the DUI statistics in this report (as they were not booked into a detention facility) but are added as a footnote in the DUI chart and in the Supplemental Report for Laramie County.

<sup>3</sup> A PDF of this report and the accompanying Supplemental Report can be downloaded from the following websites: <http://wascop.com> and <http://jandaconsulting.com>

## Statewide Arrests January 1, 2019 - December 31, 2019

### Numbers By Department

County	Total Offenses	Misde-meanor	Felony	Domestic Violence	Assault	Resisting Arrest	Public Intox	Alcohol Involved	Drugs Involved

## Alcohol and Crime in Wyoming - 2019

---

### ACKNOWLEDGEMENTS

This project was accomplished due to the committed support of all the law enforcement administrators in Wyoming, and the Sheriffs' generous commitment of agency resources. The day-to-day supervision and weekly submittal of the project reporting forms and the individual efforts of the hundreds of arresting/detention officers who filled out the reporting forms should be acknowledged as well. Their collective efforts were essential to the overall success of this project.

**DRIVING IMPAIRED**  
AC = .05% - .07%

Subtract .01% for each 40 minutes of drinking.  
One drink is 1.25 ounces of 80 proof liquor,  
12 ounces of beer, or 5 ounces of table wine.

**LEGALLY INTOXICATED**  
AC = .08% AND UP

**NOTE: PERSONS UNDER THE AGE OF 21 CAN FACE CRIMINAL PENALTIES IF CAUGHT DRIVING WITH A DETECTABLE ALCOHOL CONCENTRATION OF 0.02% OR MORE.**

\* Guide developed by J.Anderle, Laramie PD and Mike Moore, Wyoming Chemical Testing

**DRIVING IMPAIRED**  
AC = .05% - .07%

Subtract .01% for each 40 minutes of drinking.  
One drink is 1.25 ounces of 80 proof liquor,  
12 ounces of beer, or 5 ounces of table wine.

**LEGALLY INTOXICATED**  
AC = .08% AND UP

**NOTE: PERSONS UNDER THE AGE OF 21 CAN FACE CRIMINAL PENALTIES IF CAUGHT DRIVING WITH A DETECTABLE ALCOHOL CONCENTRATION OF 0.02% OR MORE.**

\* Guide developed by J.Anderle, Laramie PD and Mike Moore, Wyoming Chemical Testing

### RELATED EDUCATION & EXPERIENCE:

- Twenty-four years of experience as an administrator of a state agency with direct responsibility for budget development and administration, planning, organizing, directing, staffing, and program services delivery.
- Master's degree in Public Administration; over thirty-five years of experience training and working with executives to achieve excellence in government, manage and implement change, increase organizational effectiveness and maximize program efficiency.
- Conducted in-depth management studies for criminal justice agencies for the states of Massachusetts and New Hampshire. These studies assessed the delivery of program services by agencies with statewide responsibilities and provided recommendations for increasing organizational efficiency and agency credibility.
- Over thirty-five years of experience in researching, writing, and administering a variety of federal and state grants. Grants involved in excess of several million dollars for a wide variety of purposes: personnel, equipment, training, research and providing services with targeted priorities.
- Extensive experience in researching, evaluating and implementing a wide variety of projects. These projects varied in scope and duration, and many required the involvement and partnership of multiple agencies and personnel throughout the state, as well as the enactment of state legislation.
  - Evaluation performed for the Substance Abuse Division - WDH – “Responsible Server Training Program” – October 2002
  - Managed the Wyoming First Lady's Initiative to Reduce Underage Drinking – November 2004 to September 2006
  - Managed project and authored report: A Comprehensive Review of Alcohol State Statutes: Findings and Recommendations for Reducing Underage and Binge Drinking in Wyoming – 2008
  - Management Review of the Wyoming Seat Belt Coalition: Mission, Goals and Work Scope – September 2011
- Thirty years of experience in conducting a variety of feasibility studies
  - Conducted numerous feasibility studies for the Wyoming Legislature
