RE: LaSalle County Electronics Recycling

Dear Township/City Official,

We are aware that illegal dumping of televisions/monitors continues to be a problem throughout the County. In many cases this burden to collect the discarded televisions/monitors falls on the County, Townships, and Municipalities. With that, we have worked with our recycling vendor to allow townships/municipalities to drop off their televisions and electronics (collected from the roadsides) at our next event for Free.

To take part in this free disposal, please contact our department and provide us an estimate of how many televisions/monitors you will be bringing. Please email landuse@lasallecounty.org or call 815-434-8666.

Also, our vendor has asked that when you bring the items to the event, the person(s) dropping off the items shall assist with unloading.

LaSalle County will be holding the next Electronics Recycling event on **October 23, 2021** at the LaSalle County Government Center at 707 E Etna Rd., Ottawa. **Please drop off between 7am and 8am (before the official event start).**

Please contact our office with any questions or concerns.

Regards,
