

We chose to enroll our son as he entered his 4th grade year. We felt the academic standards and teacher-student ratio were a good fit. We had peace of mind knowing our son was in supportive learning environment out side the traditional 9:40-4:10 Middle School schedule as he entered the 6th grade. Our decision wasn't easy. However, we discovered that joining the PPA family was the best choice! Our son is now a junior in High School. The strong bonds with faculty and staff continued after graduating 8th grade in 2014. Our son's experiences have influenced him to stay connected by volunteering his time at PPA. PPA continues to help shape his character and future, we couldn't be more proud!
