Mission Gorge & Caribbean Way Area Neighbors

RE: Construction on Caribbean Way

Dear Neighbors,

As you know, we have finally started construction on the Robinson Lane project on Caribbean Way. The project will ultimately be a small community of 10 single family for sale homes. We understand that there are times when neighboring construction can be very annoying and somewhat upsetting to your daily routine.

In an effort to make sure that we minimize any inconvenience to you and your family, we are asking that you feel free to contact us regarding any issues pertaining to dust, noise, parking, working on weekends or holidays, etc. so that we can address the issue ASAP before it becomes a larger problem. Again, feel free to contact us and do not think you are bothering.

Our company has only developed and constructed communities over the last 26 years on infill sites such as this. Therefore, we are very familiar with having close neighbors and are very concerned with being a good neighbor during the construction period.

Thank you for your support and we look forward to providing a very valuable and aesthetically pleasing project to the neighborhood. Office number is listed below.

Sincerely,

*David L. Weiland*
