Comments Found temperatures of coolers on grill and meat room 41F or below. All meat was cherry red in both locations, no meats were found to be rotten in these locations. Did see observe the grill cooler needs cleaned from the night before and when in the walk in cooler threw out 21 pans of food that were out of date from the dates of 4-7 to 4-10. None of this food would have been on steak salads. Appetizer cooler was in temperature. pickles sliced turkey and zucchini straws all out of date on 4-7-19. Because of all the food out of date and kitchen cleanliness, a follow up risk based inspection will be done before the next	

30-60 days.
