

How Angle Released Affects Pendulum Frequency

Angle [degrees]	Frequency (swings per 10 seconds)		
	Trial 1	Trial 2	Average
10	8	9	8.5
45	8	8	8
90	9	9	9

Graph this data for your graph redo. The graphing instructions sheet is on-line. (Go to the “Link to Google Drive” button on the Acting Like A Scientist page of my website.) Remember, the instructions are for the **Length** variable, so adjust those steps for **Angle**. You can also get graphing help from me during Storm Time.
