A word from the authors

Thank you for purchasing *The Wedding Organizer*. You have chosen one of the most comprehensive planning guides available. From our experience most planning guides offer limited checklists explaining what needs to be done without actually helping you accomplish the tasks. *The Wedding Organizer*, however, provides step by step advice on what to consider in planning a wedding plus a tremendous amount of detailed information designed to help you accomplish each step of the process.

This guide contains several vital sections necessary to plan a successful wedding. It is designed for the professional wedding coordinator as well as the novice who wants to do the work themselves. It is not intended to replace the skills of a wedding coordinator or to limit the creative thinking of one who is planning a wedding themselves. It is merely a useful planning tool. Our intent is not to boggle you down with hundreds of referrals, references, and the like. We provide you with what we term as "support tools". Each section is filled with ready to use forms containing areas for you to record all the detailed, sometimes difficult decisions that are involved in a successful wedding. These forms are full of detail, but you need only fill in what is necessary depending on how large your wedding will be.

The areas we cover are as follows:

Preparation Outline, Financial Responsibilities, Wedding Party Obligations,
Marriage and Legal Information, Wedding Colors, Guests and Invitations,
Women's Attire, Men's Attire, Flowers, Ceremony, Job Duties, Master
Personnel List, Photography, Reception, and a section for Checklists.

Our suggestion would be to follow the guide straight through since that is the way we planned our daughters wedding; the driving force behind why we wrote this planning guide. But, each individual is different, so please jump around from one area to another if you so please.

One main benefit to this guide is the fact that all your research, phone contacts, estimates, prices, vendor bids, guest lists and much more are located in one convenient location. No more nightmares about the missing receipts, vendor quotes, etc.

The last part of this guide provides you with several generic personal checklists to assist in managing the final days before the wedding. An essential asset since weddings can become rather hectic as the big day approaches.

All of us at Peck's Software Solutions hope you enjoy planning your wedding with the help of this guide as well as we have enjoyed developing it for you. Congratulations and good luck!
