

## TPV Inplay top course granules

Rosehill TPV Inplay

TPV Inplay is the next generation granule for indoor and outdoor bonded sports and play areas. It offers much better colour consistency and is now available in a range of 20 colours. Provides both architects and installers endless possibilities for creative design when planning wet pour surfaces.

We offer a 1-3 or 1-4mm granule for use in children's play areas, running tracks, multi games areas, pool decks, rubber pathways and tree surrounds - in fact the possibilities are endless.

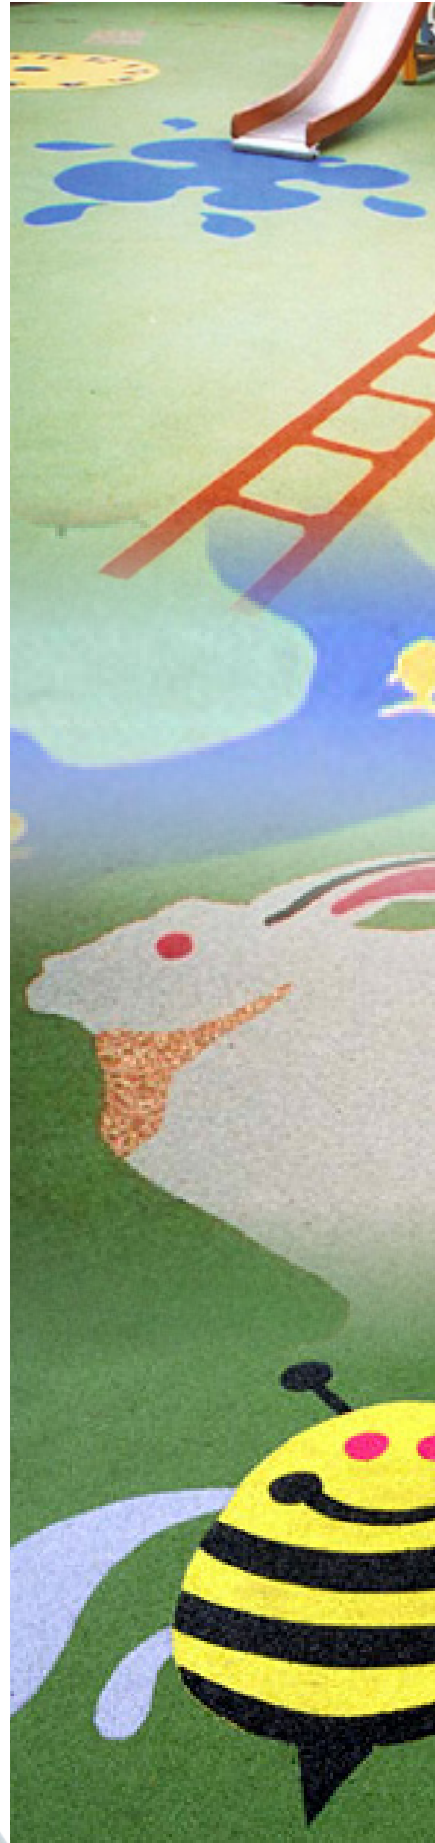

*Order it with our binder for a technically superior surface*

-  Excellent UV resistance
-  Free from heavy metals and harmful 'components'
-  Meets relevant test criteria for children's playgrounds
-  Over 20 colours now available including black
-  Ask about our newly launched TPV Twinkle range - putting the magic back into play!

*High quality granules at prices you can afford!*
