**Phone:** 920-872-2032

*Advanced Notification of Treatment is required*

The Department has received and reviewed your application to chemically treat up to 12 acres of plant species listed on permit in Lake Virginia in Sauk County. Aspects of this permit may not be changed. Please go to this web address:

<https://permits.dnr.wi.gov/water/SitePages/Permit%20Search.aspx> to search for and download the permit documents. Your permit application meets the minimum requirements by law and a permit is being issued with the following conditions.

- It is the responsibility of the applicant to follow the treatment plan outlined in the permit application and permit conditions. The treatment notification protocols, treatment plan, and reporting protocols shall be performed in compliance with Wisconsin Administrative Code Chapter NR 107. Noncompliance with the permit can result in enforcement actions under Wis. Stat. ss. 23.24(6) and 281.98 and restriction of aquatic plant management activities for subsequent years under Wis. Adm. Code Ch. NR 107. The conditions and treatment plan are required to be followed to ensure efficacy of the treatment.
- You shall notify Arthur Watkinson of the Department of Natural Resources by e-mail at [arthur.watkinson@wi.gov](mailto:arthur.watkinson@wi.gov) at least 4 business days before any treatment with the date and time of proposed treatment.
- ~~You will assess all proposed treatment areas prior to chemical treatment using a boat meander survey to determine if the abundance of the target species present warrants treatment. A final map outlining the treatment areas must be provided to the Department a minimum of 4 business days prior to treatment.~~
- You shall not use the herbicide Clipper SC.

AW-4-25-22

- You shall not conduct a chemical treatment within 2 days prior to, during or following inclement weather that would hinder efficacy due to high flushing rate.
- You shall conduct the first application of Aquathol K when the water temperature is below 64 degrees F at one meter of depth in the middle the largest treatment area, when the target species are actively growing.
- The Department may stop or limit the application of chemicals to a body of water if at any time it determines that the treatment will be ineffective, or will result in unreasonable restrictions on current water uses or will produce unnecessary adverse side effects on nontarget organisms.
- You shall have a paper or electronic copy of this cover letter and permit with the individual conducting the treatment.
- You shall submit the Aquatic Plant Management Treatment record on the most updated form supplied by the Department as follows:
  - a. Immediately, if any unusual circumstances occur during treatment.
  - b. Within 30 days, if treatment occurs.
  - c. By October 1 of this year if no treatment occurred.

Notice:

- You shall decontaminate all project equipment used in the waterbody to minimize transport of aquatic invasive species (AIS) immediately after each use on the project site. You shall utilize best management practices: <https://dnr.wi.gov/topic/Invasives/disinfection.html> You shall comply with all provisions in State Stat. s. 30.07 and Wis. Adm Code s. NR 40.07 and Manual code 9183.1 For further information, please refer to the following: <https://dnr.wi.gov/topic/invasives/classification.html>.
- The approval of an aquatic plant management permit does not represent an endorsement of the permitted activity but represents that the applicant has complied with all criteria of this chapter.

If you have any questions or concerns, I can be reached by email at [arthur.watkinson@wisconsin.gov](mailto:arthur.watkinson@wisconsin.gov).

State of Wisconsin Department of Natural Resources for the Secretary

By: Watkinson, Arthur	4/25/2022	4/25/2022
Water Resources Biologist	Date Signed	Date Mailed

**Please Note:**

If you believe that you have a right to challenge this decision, you should know that Wisconsin statutes and administrative rules establish time periods within which requests to review Department decisions must be filed. For judicial review of a decision pursuant to ss. 227.52 and 227.53, Wis. Stats., you have 30 days after the decision is mailed or otherwise served by the Department, to file your petition with the appropriate circuit court and serve the petition on the Department. Such a petition for judicial review shall name the Department of Natural Resources as the respondent. This notice is provided pursuant to s. 227.48(2), Wis. Stats. To request a contested case hearing pursuant to s. 227.42, Wis. Stats., you have 30 days after the decision is mailed, or otherwise served by the Department, to serve a petition for hearing on the Secretary of the Department of Natural Resources. The filing of a request for a contested case hearing is not a prerequisite for judicial review and does not extend the 30-day period for filing a petition for judicial review.
