

To our Burnt Store Marina Neighbors,

We want everyone to be ready and prepared for Hurricane Irma so leadership from Section 22 highly recommends you do the following:

By **Friday morning September 8th** we want the Community to be completely secured meaning that each Owner should do the following:

- Any and All objects currently outside in your yard or lanai that can become missiles or flying debris must be stored inside for example (planters, furniture, fan blades, wall hangings, yard art, etc.)
- Close and lock all windows and doors and close drapes, shutters, or your window treatments. Secure storm shutters if you have them.
- Locate a safe place to store gas grills and propane or LP gas tanks. If damaged in a storm, they can leak and become a potential bomb.
- Check your batteries, flashlights, first aid supplies, drinking water, medications (enough for at least 2 weeks), and non-perishable foods to eat.
- We are asking you please, **ALL residents who are Remaining at BSM during the storm email us your : Name, Address, Phone Number and Email address, so we will know who will be on property during this storm.** Residents that might need physical or medical assistance, please note this as well. Sent your email to: Ardojd@gmail.com by Thursday 9:00am September 7th.
- If you have a neighbor or friend in the community who may not see this email blast, please reach out to these people and provide the information to us.
- The attached document provided by Alliant outlines what you will need to be better prepared in the event of a Hurricane as well as Procedures, Essential Phone numbers, and local Shelters. [Please open and review.](#)
- We will have on-going communication with our Community Residents as this event unfolds. We have an Emergency Preparedness Committee in place but **if you have an immediate Emergency please call 911 and state that you are in Lee County.** You are welcome to follow updated information on our website www.bsm22.org or visit follow Alliant's website/Lee County Emergency Service Web Site/National Weather Web Site as below :
