

We currently have drop boxes at

Irrigation Specialists in Pasco, WA

RDO in Hermiston, OR

If you put a sample in the drop box call Ag Health Labs, so we can pick your sample up.

We are willing to have other drop box locations if we know there is someone that would utilize that service.

Please let us know what your needs are, and we will do our best to meet those needs. We are offering to send mailers, sample bags to you so you can drop samples in the mail at your convenience.

We look forward to working with you!
