# 1. HP DesignJet large-format printing—continuous innovation

## 2015

And now once again, **HP reinvents large format printing with the DesignJet T830 Multifunction Printer**, a robust, compact, Wi-Fi ready MFP with a built-in scanner at an unbeatable price<sup>1</sup>

### 2010s

HP launches the first **web-connected and multifunction large-format printers**

### 2000s

HP innovation continues with **pigment-based inks** delivering exceptional large-format photo quality for GIS and rendering

### 1990s

**HP DesignJet printers** are launched—fast, affordable, high-quality, monochrome and color printing transform the way architects and engineers work

### 1980s

HP invents **thermal inkjet technology**, transforming the entire office printing experience

### 1970s

HP small- and large-format **pen plotters** set the reference—the industry-standard HP-GL language is born

## 2. Vertical markets and applications

## Architecture, Engineering, and Construction

Print large-format drawings, schematics, renderings, and presentations with great ease, speed, and quality. HP DesignJet printers and MFPs—they help build and grow your business.

### Customer profile:

- Architecture studios
- MEP (Mechanical, Electrical, and Plumbing) engineering teams
- Construction—general contracting departments and trade subcontractors and suppliers
- Topography studios
- Public works departments
- Property management/real estate agencies

### Printing applications:

- Site plans
- Elevations
- Renderings and presentations with 3D graphics
- Project presentation panels
- Tender documents
- Black-and-white line drawings

- Color drawings
- Schematics
- GIS maps

### Industry needs:

- Excellent line quality and accuracy
- Consistent and accurate color
- Digital print, copy, and scan for archiving or sharing
- Fast, unattended printing
- Ease of use
- High productivity
- Economical
- Low cost per copy
- Mobility
- Reliability

## Manufacturing

Print big, so even the smallest details get noticed. Produce large-format plans, drawings, renderings, and more—easily, quickly, and with clear and vibrant quality. That's HP DesignJet printing and scanning.

### Customer profile:

- Mechanical CAD software users
- Industrial product and packaging design, manufacturing, and engineering departments
- General equipment design and manufacturing
- Medical and scientific equipment design and manufacturing
- Automotive and transportation design and manufacturing departments
- Aerospace design, engineering, and manufacturing departments
- Ship building design, engineering, and manufacturing departments

### Printing applications:

- Product and piece detailed plans
- 3D exploded view drawings and assembly plans

- 2D and 3D mechanical drafts and detail views
- Renderings
- Project presentations
- Digital archiving
- Network utility maps

### Industry needs:

- High productivity, low cost per copy
- Real-time project delivery
- Grayscale and color line accuracy and definition
- Consistent color
- IT integration to CAD environments
- Large memory to process complex files
- Unattended intuitive printing
- Web connectivity

## Geographic Information Systems, Exploration, Utilities and Land Management

Print and scan drawings, satellite and aerial photos, maps, and more that communicate clearly with excellent image and line quality. HP DesignJet printers—now you can see the big picture and everything in between.

### Customer profile:

- Geographical data suppliers
- Commercial cartography services
- Environmental/conservation companies
- Oil and gas exploration companies
- Utility companies (electricity, water/wastewater, gas distribution, telecommunication, etc.)

### Printing applications:

- Civil engineering and construction documents

- Satellite and aerial photos
- Orthophotos
- Maps
- Natural resources and topology plans
- Radiation diagrams

### Industry needs:

- Digital archiving, printing, and copying
- Consistent and accurate color
- Ease of use
- Excellent image and line quality
- Fast, unattended printing
- High productivity, low cost
- Reliable colors
- Wide selection of media

## General In-office Large-format Printing

Take on technical, graphics, or office applications with large-format HP DesignJet printers that offer ease of use and flexibility in terms of applications. Print a range of different document types and sizes in the comfort of your office versus numerous, expensive trips to the local copy shop.

### Customer profile:

From personal use to small businesses across many industries including:

- Sports teams and hobby clubs
- Small retailers
- Restaurants, hotels, and community centers
- Commercial real estate and facilities managers
- Healthcare/emergency services
- Parent/teacher organizations
- Churches and non-profit organizations

### Printing applications:

- Posters, signs, banners
- Presentations

- Project schedules, plans, and flowcharts
- Spreadsheets
- Information graphics
- Announcements/bulletins
- Educational support materials
- Menu boards
- Special event advertisements
- Facilities drawings

### Industry needs:

- Ease of use
- Affordability
- Time and money saving
- Quality
- Speed

## Governmental Agencies

Accommodate the most demanding printing needs with HP DesignJet large-format printing. From simple CAD drawings to complex color documents, high-speed HP DesignJet printers and MFPs deliver high-quality output and integrate easily into your environment, taking the pressure off—big time.

### Customer profile:

- Government Agencies and Departments
- Federal Systems Integrators
- Country/Provincial Government Agencies and Departments
- County, City, and Municipal Agencies and Departments
- SME businesses
- Corporate businesses
- Multi-national corporations
- Banking institutions
- Public institutions

### Printing applications:

- Mapping and demographic modeling
- Technical and engineering drawings
- Utility system and asset diagrams
- Land use tracking

- Presentation and information posters
- Project schedules
- Training materials
- 3D prototypes

### Industry needs:

- Digital archiving, printing, and copying
- Security, encryption, and high level of IT management capability
- Materials sourcing from qualified vendors and country of origin
- Transportable and re-deployable devices and solutions
- Ease of use
- Educational support materials
- Facilities management diagrams
- Durable solutions, high productivity, low cost per copy
- Professional presentations
- Real-time project delivery

## Reprographic and Graphics Print Service Providers

Reprographics houses print, scan, and copy accurate and low-cost monochrome and color plans, plan sets, and renderings. Graphics focused print service providers need to quickly respond to requests for posters, color proofs, POP displays, event signage, and more. Large-format HP DesignJet printers, optimized for production environments, enable more applications to serve customers' varied needs.

### Customer profile:

Print-for-pay outsourced PSPs serving a wide range of technical and graphical application customers including:

- AEC companies and students
- Educational institutions
- Manufacturing
- Facilities management
- Utility companies and Public Sectors departments and agencies
- Photographers
- Graphics designers and fine art
- Indoor signage, exhibition and retailer merchandising

### Printing applications:

- Indoor environments like education, hospitality, health care, restaurants, and home
- AEC sets of project plans
- CAD drawings
- GIS mapping
- Project presentation panels
- Wireframe drawings and renderings
- Point-of-purchase displays
- Light boxes
- Color proofing
- Canvas, decorative vinyl graphics, and other indoor

- decoration applications
- Indoor exhibition and event banners and applications
- In-store signage for retail
- Fine art gallery quality

### Industry needs:

- Large memory capacity for printing sets of plans in high volumes, quickly and unattended
- Faster turnaround times
- Full solution integration with folder, stacker, scanner, and software
- Low cost production
- Quick ROI
- IT integration, easy maintenance
- Web connectivity
- Print multiple jobs on a variety of media types and sizes. Select printers with 2 (or 3) rolls and smart switching
- Specialized workflows including raster image processors, Adobe PostScript, print ready PDF, HP GL/2, and other page description languages
- Color management and accuracy
- High quality at production speeds

## Copy Shops and Quick Printers

Print more of the documents your customers desire with HP large-format printing solutions that are easy, flexible, fast, cost effective, and—best of all—impact fully large. Take on a variety of miscellaneous jobs and deliver stunning results that keep customers coming back for more.

### Customer profile:

Smaller, neighborhood, or franchised pack and ship or print-for-pay providers serving a wide range of consumer to local business customers including:

- Architecture, engineering, and construction companies
- Students
- Families
- Non-profit organizations
- Sports clubs and similar groups
- Educational institutions
- Manufacturing
- Facilities management
- Utility companies and Public Sector departments and agencies
- Smaller local retailers
- Walk-in photographers
- Graphics designers and fine art
- Indoor signage, exhibition and retailer merchandising

- Banners
- Sponsorship acknowledgement
- Small signage
- Pricing signs and menus

### Industry needs:

- Wide variety of substrates available
- Quick turnaround on a wide range of different print jobs
- Repeatable high-impact color prints
- Printing and scanning capabilities
- Longevity of output
- Ease of use
- Fast turnaround
- Quality prints

### Printing applications:

- Posters
- Light box prints
- Photos
- Canvas and home décor applications
- Business POP and retail applications

## Digital and Fine Art, and Graphic Design

Show off your digital design with large-format proofs and presentations that mirror the images on your screen. Produce fine art prints and reproductions that demonstrate strict color accuracy and very high quality. Share your creativity with the world with reliable HP DesignJet printers.

### Customer profile:

- Artists
- Fine art reproduction
- Museum shops
- Graphic designers
- Interior designers
- Graphic design studios
- Advertising and marketing agencies and departments

### Printing applications:

- Exhibition prints for museums and art galleries
- Canvas prints
- Portfolio work
- Fine art reproduction
- Design competitions
- Posters and display
- Giclée
- Project bids
- Concept development
- Visual presentation
- Imposition and color proofs
- Posters

### Industry needs:

- Outstanding image quality
- Consistent accuracy
- Faithful fine art reproduction
- Wide color gamut
- Grainless pale and light tones
- Rich black and neutral greys
- Fade-resistant prints
- Ease of use with graphic software applications
- Mac compatibility
- Media versatility
- Low cost per copy
- Easy to use color management tools
- Fast turnaround
- Mature and proven technology
- PANTONE® emulation
- Web connectivity

## Proofing and Photography

Bring your vision to life with large-format photographs and displays. HP DesignJet printers make it easy to share and promote your work—with quality and accuracy that remain true to your vision.

### Customer profile:

- Social, wedding, and portrait photographers
- Commercial photographers
- Fine art photographers
- Commercial photo finishers
- Industrial printers

### Printing applications:

- Photo printing
- Color Proofing
- Portfolio

### Industry needs:

- Proofing without time-consuming offset printing media set up
- Media versatility
- Flexibility for different workflows (portfolio, final print, and proofing)
- Fast turnaround
- Photo quality (vividness, saturation, and sharpness)
- Light fastness
- Color fidelity
- Rich blacks and neutral grays
- Ease of use
- RGB, CMYK emulations
- Color consistency

## Temporary Retail POP

Tailor your message to customers in stores with information, product displays, and sales offers that are delivered on demand. Choose large-format HP DesignJet printers—for signage that speaks to customers in a big way.

### Customer profile:

- Small and medium local businesses and shops
- Large department stores
- Grocery stores and supermarkets
- Specialty retailers
- Furniture/DIY stores
- Clothing stores
- Garden centers
- Restaurants and bars
- Hotels

### Printing applications:

- Decorative graphics
- Pricing signage
- Sales and promotional signs and banners
- Information signs
- Window and door signage
- Promotional/event signage
- Super-sized menus

### Industry needs:

- Short-term indoor signage
- Customized and shorter print runs
- Seasonally adjusted messaging and promotions (monthly, weekly, daily)
- Personalization of message
- Ease of use and low training requirement
- Flexibility of output—different media types and sizes
- Overprint on branded preprinted media or brand compliant color requirements
- High uptime and fast service turnaround
- Cost efficient messaging

## High-quality POP and Exhibition Indoor Signage

Create high-impact strategic signage that truly lasts with HP DesignJet printers. Show off your brand with large-format prints that demonstrate super quality along with fade, water, and scratch resistance,<sup>2</sup> and water and scratch resistance—and make a big impression.

### Customer profile:

- Convention centers and exhibition halls
- Large department stores
- Small and medium local businesses and shops
- Specialty retailers
- Furniture/DIY stores
- Clothing stores
- Restaurants and bars
- Hotels
- Sports facilities
- Beverage promoters

### Printing applications:

- Decorative graphics
- Brand positioning graphics
- Backlit signage
- Enviro-image backdrops
- Product promotional signage
- Wall decals
- Super-sized menus
- Exhibition signage and banners

### Industry needs:

- Long-term indoor signage
- Unrivaled image quality with fade resistance
- High impact durable prints
- Ease of use and low operator training required
- Flexibility of output—different media types and sizes
- Overprint on branded preprinted media or brand compliant color requirements
- High uptime and fast service turnaround
- Quick ROI

## Education

Primary

Secondary

University

Growing minds think big. Encourage learning with large-format signs used for teaching, everyday communications, and more. HP DesignJet printers—helping students make the grade.

### Customer profile:

- Associations
- Schools
- Colleges and universities
- Youth groups
- Special needs

### Printing applications:

- Banners
- Signage
- Decoration
- Vocational (arts) presentations
- Presentations
- Weekly, monthly, and yearly planners
- Posters and displays
- Design competitions
- Portfolio work
- Educational support materials

### Industry needs:

- Intuitive and easy to use
- Web connected
- Compact
- Affordable
- Easy, cost-effective maintenance
- Short print runs
- Seasonal change of message (monthly, weekly, daily)
- Cross-platform compatibility
- Low investment
- Time and cost savings
- Print custom posters and banners for the classroom

### 3. Applications and industry overview

From technical documents to color proofs, indoor and outdoor signage, fine art prints, and more, HP has a large-format printer that fits your application, workflow, and budget requirements. Use the information in this page to identify which series you should consider.

**HP DesignJet T-series printers**

**HP DesignJet Z-series printers**

**Black-and-white line drawings**

**Color drawings**

**Manufacturing**

**Office applications and infographics**

**Rendering**

**Mapping**

**Orthophotos**

**Temporary retail POP**

**High-quality POP**

**Exhibition and event graphics**

**Color proofs**

**Digital fine art**

**Professional photography**

## 6. HP DesignJet product information

### HP DesignJet office printers and MFPs

For individual or multiuser environments, HP DesignJet printers help streamline your workflow with features like automatic media-roll alignment and an integrated output stacking tray<sup>12</sup> that delivers flat, collated prints. Also, scan and share with simplicity, complete work efficiently with true print previews, and quickly produce a range of high-quality applications—from black-and-white CAD drawings to color presentations.

Print when you want, the way you want with HP DesignJet technology. HP offers the industry's widest range of large-format printers for design professionals.

## HP DesignJet T7200 Production Printer

Proven high-production, black-and-white and color printing solution

42-inch printer for low-cost production printing

<b>Printer size:</b>	42 inch (1067 mm)
<b>PostScript versions available:</b>	✓ (through PostScript upgrade)
<b>Print resolution:</b>	Up to 2400 x 1200 optimized dpi
<b>Print speed line drawings:<sup>13</sup></b>	15.5 sec/page on D/A1, 165 D/A1 prints per hour
<b>Print speed color drawings:<sup>14</sup></b>	17.5 sec/page on D/A1 or up to 1265 ft <sup>2</sup> /hr (117.5 m <sup>2</sup> /hr) on coated media
<b>Memory:</b>	64 GB (virtual), <sup>15</sup> 320 GB hard disk
<b>Connectivity:</b>	<b>Interfaces (standard):</b> Gigabit Ethernet (1000Base-T), EIO Jetdirect accessory slot <b>Print languages (standard):</b> HP-GL/2, HP-RTL, CALS G4 <b>Printing paths:</b> HP DesignJet SmartStream, Printer driver, HP Embedded Web Server <b>Drivers (included):</b> HP-GL/2, HP-RTL drivers for Windows; PostScript Windows and Mac OS X drivers with optional PostScript/PDF Upgrade Kit. Compatible with HP DesignJet Universal Print Driver for HP-GL/2 and HP DesignJet Universal Print Driver for PS (with PostScript/PDF Upgrade Kit)
<b>Web connectivity:</b>	—
<b>Wi-Fi certification:<sup>16</sup></b>	—
<b>Media handling:</b>	<b>Input:</b> two roll feeds (upgradeable to three), automatic roll switching, rolls up to 650 ft (200 m) each <b>Output:</b> automatic cutter, media bin
<b>Ink types and drop size:</b>	Dye-based (C, M, Y, G, DG); pigment-based (mK) 6 pl (C, M, DG, G); 9 pl (Y, mK)
<b>Recommended HP large format printing materials:</b>	C6810A HP Bright White Inkjet Paper (FSC® certified) <sup>17</sup> 36 in x 300 ft (914 mm x 91.4 m) C6569C HP Heavyweight Coated Paper (PEFC™ certified) <sup>17</sup> 42 in x 100 ft (1067 mm x 30.5 m) Q7996A HP Premium Instant-dry Satin Photo Paper (FSC® certified) <sup>17</sup> 42 in x 100 ft (1067 mm x 30.5 m) CH025A HP Everyday Matte Polypropylene, 2 Pack  42 in x 100 ft (1067 mm x 30.5 m)

## HP DesignJet T3500 Production MFP

The most productive, cost-effective HP DesignJet MFP<sup>24</sup>

36-inch integrated production MFP for CAD and GIS applications

<b>Printer size:</b>	36 inch (910 mm)		
<b>PostScript versions available:</b>	✔ (through PostScript upgrade)		
<b>Print resolution:</b>	Up to 2400 x 1200 optimized dpi		
<b>Scan/copy resolution:</b>	Up to 600 dpi		
<b>Print speed line drawings:<sup>13</sup></b>	21 sec/page on D/A1, 120 D/A1 prints per hour		
<b>Scan speed:</b>	<b>Color:</b> up to 6.35 cm/sec (2.5 in/sec) <b>Grayscale:</b> up to 19.05 cm/sec (7.5 in/sec)		
<b>Memory:</b>	Intel Core i5M-260 processor, 128 GB (virtual), <sup>25</sup> 500 GB hard disk (AES-256 encrypted, FIPS 140-2 Level 2 certified)		
<b>Connectivity:</b>	<b>Interfaces (standard):</b> High-Speed USB 2.0 certified host connector. Gigabit Ethernet (1000Base-T), supporting the following standards: TCP/IP, BootP/ DHCP (IPv4 only), DHCPv6, TFTP (IPv4 only), SNMP (v1, v2c, v3), Apple Bonjour Compatible, FTP, WS Discovery, Embedded Web Server (HTTP), IPSec, SMTP (e-mail), Raw IP printing (9100, 9101, 9102), LPD, IPP, WSPrint, NTLM, NTLM v2, SSL/TLS, 802.1X authentication (WEP, WPA, WPA2, LEAP, PEAP, EAP-TLS) <b>Print languages (standard):</b> HP-GL/2, HP-RTL, TIFF, JPEG, CALS G4, HP PCL 3 GUI <b>Printing paths:</b> HP DesignJet SmartStream (optional), Printer driver, HP Embedded Web Server, direct printing from USB flash drive, email printing <b>Drivers (included):</b> HP-GL/2, HP-RTL drivers for Windows; HP PCL 3 GUI driver for Mac OS X; PostScript Windows and Mac drivers with optional PostScript/PDF Upgrade Kit. Compatible with HP DesignJet Universal Print Driver for HP-GL/2 and HP DesignJet PostScript/PDF Upgrade Kit		
<b>Web connectivity:</b>	✔		
<b>Wi-Fi certification:<sup>16</sup></b>	—		
<b>Media handling:</b>	<b>Input:</b> two automatic front-loading roll feeds; smart roll switching; rolls up to 650 ft (200 m) each; sheet feed <b>Output:</b> integrated output stacker (from A4/A to A0/E, with up to 100 A1/D-size capacity); media bin, automatic cutter <b>Scanner:</b> straight-through scan paper path for sheet and cardboard originals		
<b>Ink types and drop size:</b>	Dye-based (C, G, M, pK, Y); pigment-based (mK) 6 pl (C, M, Y, G, pK); 9 pl (mK)

## HP DesignJet T1300 PostScript® Printer<sup>7</sup>

Larger prints and higher productivity  
for workgroups

Dual-roll 44-inch, 6-ink printer for professional-quality CAD and GIS applications

<b>Printer size:</b>	44 inch (1118 mm)
<b>PostScript versions available:</b>	✓
<b>Print resolution:</b>	Up to 2400 x 1200 optimized dpi from 1200 x 1200 input dpi and Optimization for Photo Paper selected
<b>Print speed line drawings:</b> <sup>22</sup>	28 sec/page on D/A1, 103 D/A1 prints per hour
<b>Memory:</b>	32 GB (virtual), <sup>23</sup> 160 GB hard disk
<b>Connectivity:</b>	<b>Interfaces (standard):</b> Gigabit Ethernet (1000Base-T), Hi-Speed USB 2.0 certified, EIO Jetdirect accessory slot <b>Print languages (standard):</b> Adobe® PostScript 3™, Adobe PDF 1.7, HP-GL/2, TIFF, JPEG, CALS G4, HP PCL 3 GUI <b>Printing paths:</b> Printer driver, HP Embedded Web Server, direct printing from USB flash drive, email printing <b>Drivers (included):</b> HP-GL/2, HP-RTL drivers for Windows® (optimized for AutoCAD 2000 and higher); HP PCL 3 GUI driver for Mac OS X; PostScript Windows, Linux, and Mac drivers
<b>Web connectivity:</b>	✓
<b>Wi-Fi certification:</b> <sup>16</sup>	—
<b>Media handling:</b>	<b>Input:</b> sheet feed, two automatic roll feeds, and automatic roll-switching <b>Output:</b> media bin, automatic cutter
<b>Ink types and drop size:</b>	Dye-based (C, G, M, pK, Y); pigment-based (mK) 6 pl (C, G, M, pK); 9 pl (mK, Y)

## 8. HP DesignJet management and workflow solutions

### HP Instant Printing PRO

HP Instant Printing PRO<sup>66</sup> allows you to quickly preview, crop, and print in large format using one simple tool. You can easily manage your files from one application, experience true print confidence, and avoid printing on the wrong-sized media with a realistic print preview.

#### Avoid trial and error

HP Instant Printing PRO<sup>66</sup> offers two different print previews. Use ordinary print preview to see how your image will print on the paper that's loaded in your printer. Make sure the layout is correct, and you're not wasting paper. Use detailed print preview to crop or make adjustments to your image before printing.

#### Start printing faster

HP Instant Printing PRO<sup>66</sup> lets you print on HP DesignJet printers directly connected to a computer or accessible on a local area network, even when the driver is not present. HP makes it easy to discover and add HP DesignJet printers that are on your network.

#### Flexible, comprehensive solution

Use this solution to print many different file types (PDFs, HP-GL/2 files, TIFF, JPEG, DWG, and Microsoft PowerPoint files) and a range of different paper and roll sizes. This solution also offers support for over 10 different languages.

For more information, visit [hp.com/instantprintingpro](http://hp.com/instantprintingpro)

### HP Web Jetadmin

HP Web Jetadmin is an award-winning, industry-leading print management solution designed for businesses that manage more than 15 printers. This single web-based print management tool gives IT administrators the power to install, configure, monitor, troubleshoot, and manage printer fleets whenever and wherever.

#### Efficiently manage devices

Auto-discover new device IP addresses, quickly and easily set group policies, and perform power cycles. You can also easily configure or change device network settings for initial deployment, or after installation.

#### Optimize device utilization

Maximize and protect your imaging and printing assets with effective fleet management and reporting.

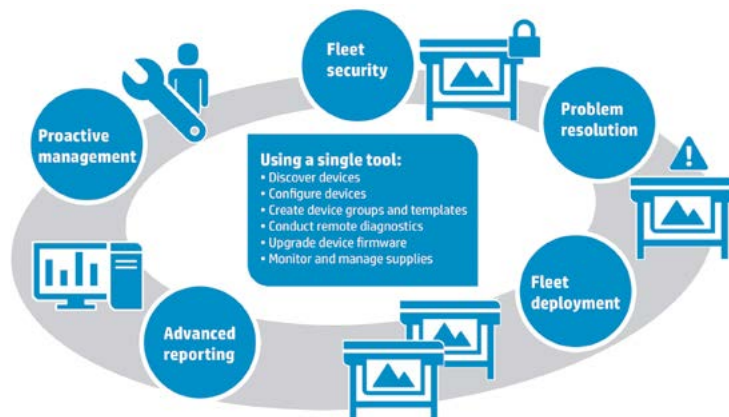

#### Gain visibility with advanced reporting

Get answers to your many device-usage questions and make better management decisions with accurate reporting.

#### Take control with easy-to-use, advanced management tools

Manage your environment efficiently with advanced management features like customizable fleet deployment and robust device and supplies alerts.

For more information or printer compatibility, visit [hp.com/go/wja](http://hp.com/go/wja)

From deployment through to reporting, HP Web Jetadmin simplifies printer and fleet management with a single tool.

## HP SmartStream software

Your large-format production workflow is now two times more efficient<sup>67</sup> with HP SmartStream. Take the challenge out of printing PDFs and finish jobs in 50 percent of the time.<sup>67</sup> Bring key efficiencies to your business by adding a powerful solution without changing your current workflow. And expand with color production. This is the future of production printing.

### Do jobs in 50 percent of the time<sup>67</sup>

Respond faster and serve your customers far better with ultra-fast HP SmartStream Preflight Manager processing. This software takes the challenge out of printing PDFs and helps you finish jobs up in 50 percent of the time<sup>67</sup> to help you turn operator efficiency into operating profit.

### Your production workflow, just better

Transform your business by enhancing your current production workflow. Move smoothly to lasting efficiencies, like single and multiple operator support. Manage all connected HP DesignJet printers in your fleet. And run HP DesignJet production accessories—like the high-capacity/integrated stacker.

### Expand with color production

Efficiently produce GIS maps, point-of-sale (POS) posters, and more. To help avoid reprints and rework, you see an on-screen preview of the color just as it will print—and you can adjust settings. Avoid media waste with nesting. Invoice with greater accuracy using job report summaries.

For more information or printer compatibility, please visit [hp.com/go/smartstreamdesignjet](http://hp.com/go/smartstreamdesignjet)

## HP Embedded Web Server

A web server provides an environment in which web programs can run, in much the same way that an operating system, such as Microsoft® Windows®, provides an environment in which programs can run on your computer. A web browser, such as Microsoft Internet Explorer, Apple Safari, or Mozilla Firefox, can show output from a web server.

An **embedded web server** resides on a hardware product (such as a printer) in the firmware, rather than as software that is loaded on a network server. The advantage is that it provides an interface to the product that anyone who has a network-connected computer, and a standard web browser can open and use. No special software needs to be installed or configured.

With the HP Embedded Web Server<sup>68</sup> (HP EWS), you can view product status information, change settings, and manage the product at your computer. It provides a simple, easy-to-use solution for one-to-one product management in environments that have a limited number of products.

## HP DesignJet Universal Print Driver

Provide IT teams with greater control and effectiveness, reduce printer-related costs, and improve IT and end-user productivity with the HP DesignJet Universal Print Driver (UPD). This intelligent single-driver solution radically simplifies printer deployment and management, saving time and freeing IT to focus on innovation. HP DesignJet UPD includes two drivers—HP-GL/2 and PostScript—and supports a broad range of HP DesignJet printers.

### Simplify printing and management

- Remove much of the time and hassle associated with installing, updating, and testing multiple drivers

### Reduce fleet management costs

- Reduce costs associated with traditional print driver installation, updates, and testing
- Save money by reducing the amount of time IT must spend on printer integration, management, and maintenance
- Cut down on help desk related costs with a simplified single-driver solution

### Focus IT efforts on innovation

- Keep your system up-to-date
- Transition IT resources from integration to innovation

Empower IT teams by dramatically reducing the number of drivers that must be managed. Give IT teams the tools they need to improve efficiency and significantly cut costs. Simplify printing for end users and more effectively manage your overall fleet today.

For more information or printer compatibility, please visit [hp.com/go/designjetupd](http://hp.com/go/designjetupd)

## 9. HP DesignJet printing technologies

### Amazing color quality<sup>68</sup>

#### HP Embedded Spectrophotometer

The HP Embedded Spectrophotometer, with i1 Color Technology from X-Rite, is a precision instrument mounted on the printer carriage that is used for color calibration and profiling. Regardless of paper type, you can use the spectrophotometer to generate ICC profiles that obtain accurate and consistent colors for your prints.

Use the spectrophotometer to generate custom ICC profiles automatically for your preferred paper types. It then calibrates the printers to deliver print-to-print and printer-to-printer consistency under all environmental conditions, and even on unknown (not factory-profiled) paper types. A built-in white calibration tile, which is protected by an automatic shutter, enabling reliable measurements that meet international standards.

HP revolutionized professional color workflows by automating this process with an embedded spectrophotometer (and associated firmware and software). Spectrophotometers have been around for some time, but HP simplified the process significantly by embedding and automating it.

#### HP Professional PANTONE® Emulation (HP PPE)

HP Professional PANTONE Emulation (or HP PPE) is used to match colors as closely as possible to the original PANTONE colors, given the characteristics of your printer and paper type.

When you use a named PANTONE color in an image, your application typically sends a CMYK or RGB approximation for that color to the printer. But the application does not take the printer or the paper type into account; it merely produces a generic approximation of the PANTONE color, which will look different on different printers and on different papers.

HP PPE can do a much better job of matching colors by taking into account the characteristics of the printer and the paper type. The results look as similar to the original PANTONE colors as is possible on a given printer using a given paper type. This technology is designed to produce emulations similar to those set up manually by prepress professionals.

### Adobe PostScript 3™—the next generation of Adobe PostScript printing

Adobe PostScript is the technology that lets you print any document—text, graphics, images, and color—from any computing platform to any supported device, at the very highest quality possible.

#### Optimized quality for PANTONE® color emulation

- The PostScript driver automatically emulates PANTONE colors to look as similar to the originals on a given printer/media combination

#### No more errors printing complex PDFs with different layers

- Correct processing of PDF commands from line drawings and maps, to high-resolution imagery and graphics
- Print correctly all Encapsulated PS images (.eps), especially used on Mac computers

#### No need to open any application or driver to print a PDF file

- Ability to queue and print PDF files without ever opening the file (via the HP Embedded Web Server, HP Mobile printing, or USB drive plugged directly into your HP DesignJet Printer)

### Reliable, accurate results<sup>68</sup>

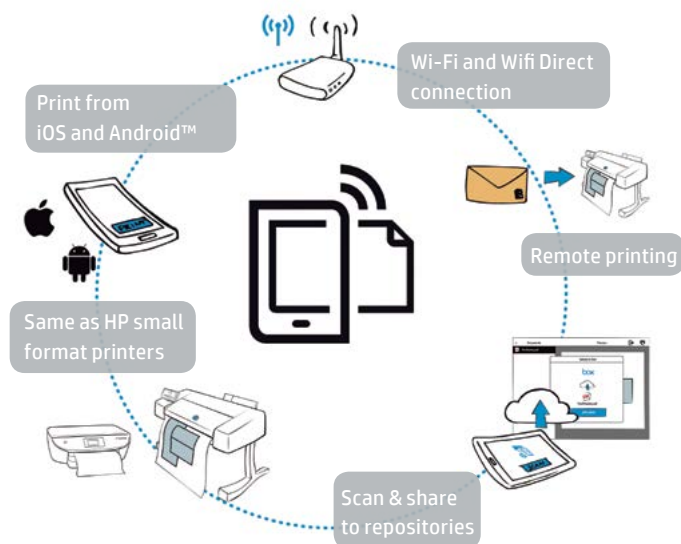

**HP-GL/2** is the standardized version of the HP Graphics Language, which provides a set of consistent functions across a wide range of peripheral devices, both plotters and printers. It is designed to reduce programming effort and help ensure the future compatibility of your programs, while allowing great flexibility in creating images.

Both HP-GL/2 and its predecessor, HP-GL, were conceived for the needs of the CAD world and are constantly updated. HP-GL/2 has been the plot standard for more than 9 years. It processes expanded vector and raster information, using very little memory space. HP-GL/2 is a 1:1 display of a plot; plot information is in HP-GL/2. Every CAD system can create HP-GL/2, as its goal is a technical drawing in the form of a plot. According to the distribution, any CAD system supports HP plotter drivers.

## HP Mobile Printing

HP is making it easier than ever to print on-the-go. Comprehensive HP Mobile Printing capabilities enable easy connections to local large-format printers from your smartphone or tablet via wireless printing or Wi-Fi Direct. Print remotely by emailing files directly to ePrint-enabled printers.<sup>4</sup> You can also boost collaboration by scanning to your mobile and sharing documents through email or the cloud—using the HP All-in-One Printer Remote app.<sup>5</sup>

### Surprisingly simple mobile-to-printer connection

It's incredibly easy to connect your mobile device to your HP DesignJet printer or MFP via several HP Mobile Printing capabilities. If you don't have a LAN, you can connect to your wireless network.<sup>4</sup> And, if you don't have a wireless network, use Wi-Fi Direct to connect directly to the printer.

**Connect your smartphone or tablet to the same network as your printer**

**Connect your smartphone or tablet directly to your printer**

### Gain freedom to print whenever, wherever you need

Experience the benefits of printing on-the-go. In just a few simple clicks, you can print from your smartphone or tablet wherever you are.<sup>5</sup> Remote printing is also easy—simply attach your document to an email and send it directly to the printer.

**Print from mobile devices (iOS & Android™)**

**For remote printing, if you can email it, you can print it**

### Streamline collaboration with mobile scanning and easy content sharing

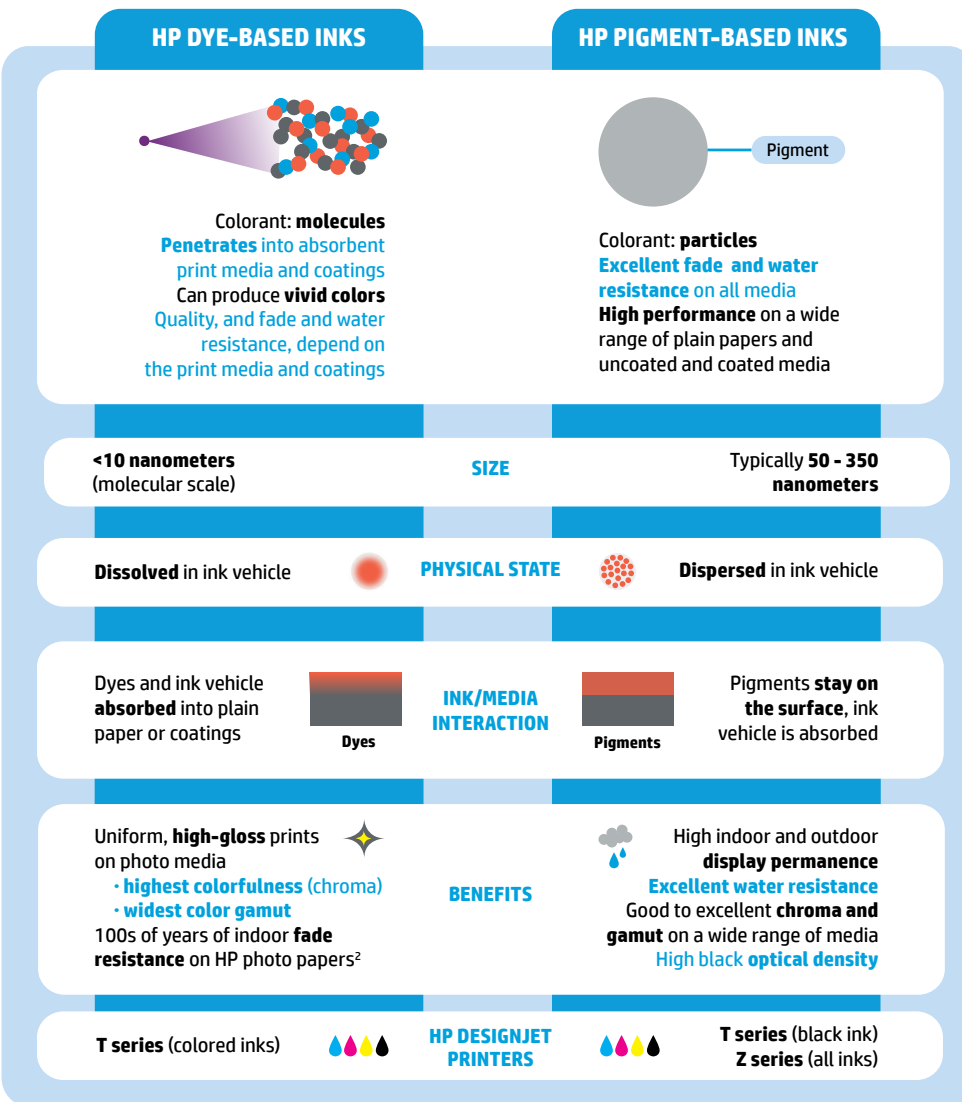

HP Mobile Printing capabilities help teams and workgroups collaborate quickly and efficiently. Easily scan documents directly to your smartphone or tablet using the HP All-in-One Printer Remote app.<sup>5</sup> Crop the image size if needed, or remove the background of your drawings. You can also easily share documents via email or your preferred cloud repository.

**Enhance scan & share with the HP All-in-One Printer Remote app**

## Precision printing

HP DesignJet printing solutions, using Original HP inks and printheads, are designed and engineered together to provide uncompromising image quality, consistency, performance, durability, and value—with every print.

**Original HP inks for HP DesignJet T- and Z-series printers include both water-based dye- and pigment-based inks**

## Outstanding speed<sup>68</sup>

### HP Double Swath Technology

HP Double Swath Technology provides breakthrough speed and performance. The HP DesignJet Z6200 and the HP DesignJet Z6800 Photo Production Printers include two sets of four HP 771 DesignJet Printheads, and the HP

DesignJet Z6600 Production Printer includes two sets of three HP 771 and HP 773 DesignJet Printheads creating a wide print swath—up to 1.67-inches (42.5 mm)—and a high firing frequency to deliver prints with amazing speed. Eight bi-color printheads for the HP DesignJet Z6200 Photo Production Printer and the HP DesignJet Z6800 Photo Production Printer and six bi-color printheads for the HP DesignJet Z6600 Production Printer feature 1,056 nozzles per color, 1,200 nozzles per inch, and small drop volumes for top photo quality.

### HP Optical Media Advance Sensor (OMAS)

The HP Optical Media Advance Sensor (OMAS) allow you to print at top speeds and still get great output results. This breakthrough technology improves paper-advance control and accuracy, so the printer can print at higher speeds across multiple environmental conditions without impairing image quality.

## 10. HP Certified Partner Solutions

### Certified RIPs

Our RIP certification program defines a comprehensive set of compatibility criteria aligned with the highest performance standards and the unique capabilities of HP DesignJet printers. Only third-party companies that have demonstrated conformance with these criteria are awarded HP DesignJet certified status. HP has certified a number of third-party Raster Image Processors (RIPs), enabling additional control over elements such as color management, ICC profile management, tiling and nesting, support of multiple printers, and optimization of PANTONE® and spot color.

To view RIP compatibility, please visit  
[hp.com/go/designjetrips](http://hp.com/go/designjetrips)

# 11. The HP large-format printing system: the complete solution

HP DesignJet printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a complete, efficient system to provide productivity, quality, consistency, durability, and value—even when printing highly complex jobs.

## Original HP inks

Printing problems put delivery at risk and can cost you time, money, and clients. Original HP inks are designed together with HP DesignJet printers to get the job done right the first time, every time.

### Lower costs

Original HP inks are designed together with your HP DesignJet printer to produce consistent results. With reliable performance, you can minimize waste and downtime to lower your total cost of printing.

### Protect your investment

Ink properties are critical to every part of the printing system. Non-HP inks can cause poor-quality prints that can waste time and money, and increase printer downtime and maintenance.

### Print responsibly

From our recycling initiatives, to our specially engineered cartridges made of recycled plastic and water-based inks, Original HP inks and printing supplies are designed with the environment in mind.

## HP large-format printing materials

See consistently outstanding image quality. With a wide range of large-format printing materials to choose from, you can always find the right printing material for the job, or almost any printing application. HP Premium printing materials are designed to provide best-in-class performance on key attributes like display permanence. Or for lower cost options, consider HP Everyday or HP Universal printing materials, providing the ideal combination of quality and cost for everyday printing.

No matter which one you choose, HP printing materials are designed to work with the complete system to deliver the results you need and to provide uncompromising quality, consistency, performance, durability, and value every time.

For more information, please visit  
[hplfmedia.com](http://hplfmedia.com)

## HP DesignJet printers and the environment

### HP DesignJet printers and energy efficiency

Energy-efficient printers can reduce environmental impact and costs. They also produce less heat and reduce cooling loads, which can make your work environment more pleasant. Most HP DesignJet printers are ENERGY STAR certified,<sup>69</sup> which means they meet strict energy efficiency guidelines without sacrificing performance—or your productivity. HP is committed to making sure HP DesignJet printers continue to meet or exceed the standards.

ENERGY STAR is a joint program of the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy.

### HP DesignJet commitment to EPEAT

EPEAT is a comprehensive global environmental rating system from the Green Electronics Council to help purchasers identify greener devices.

EPEAT-registered products meet strict environmental criteria that address the full product lifecycle, from energy conservation and toxic materials to product longevity and end-of-life management. EPEAT-registered products offer a reduced environmental impact across their lifecycles.

Most HP DesignJet printers are EPEAT certified,<sup>70</sup> to different levels. This helps purchasers identify our printers as the environmentally preferable choice.

### Designed with the environment in mind

Take advantage of free, convenient return and recycling of most Original HP DesignJet ink cartridges and printheads.<sup>71</sup> HP's "closed loop" recycling process uses recycled plastic from HP ink cartridges to create new Original HP DesignJet ink cartridges.<sup>72</sup>

## HP DesignJet Support Services: print with predictability so you can work with confidence

### Enjoy

- Professional installation and set up of your large-format HP DesignJet printer
- Up to five years of service and support with HP's Next Business Day Onsite Repair
- No support cost surprises
- Hassle-free printing of your projects at the quality you need, when you need it
- Lower total cost of ownership (TCO) of your HP DesignJet printer

### Maximize printer uptime and gain peace of mind

Secure the budget predictability you need by extending your warranty coverage. All support costs are covered for the full extended period—which can mean significant savings. For example, when purchasing a 3-year service and support package for the HP DesignJet T520 Printer, you can protect your business from unplanned expenses, while saving up to 15 percent of the total support costs.

### Choose the services that match your needs

HP DesignJet Support Services include the following HP Care Pack Services:

- **Installation Service with Network Setup**—Onsite installation and network setup of your HP DesignJet printer by an HP-authorized service technician. Includes basic printer orientation for your organization's key users.
- **Next Business Day Onsite Repair**—Extend the HP warranty for two, three, four, and five years. An HP-authorized service technician will make the best effort to arrive at your site the next business day after the case is dispatched. Includes parts, material, and labor.
- **Post-warranty Services**—Provides continued protection after your standard HP warranty or HP Care Pack Service expires. Offered in one- and two-year increments.
- **Preventive Maintenance Service**—Onsite maintenance by an HP-authorized technician. Service may include: cleaning printer parts, inspection of cables and connections, recommendations for updates, and replacement of parts (parts costs and replacement not included).

### The bottom line: why buy HP Support Services?

- Reassurance about your investment
- Predictable printing
- No unexpected support costs
- Quick time-to-repair
- Best-in-class cost of ownership

[hp.com/go/cpc](http://hp.com/go/cpc)

1. Based on 36-inch Wi-Fi integrated MFPs available in the market as of September, 2015.
2. Display performance rating for interior displays/away from direct sunlight, under glass by HP Image Permanence Lab and/or by Wilhelm Imaging Research, Inc. on a range of HP media. For more information, see [HPLFMedia.com/hp/printpermanence](http://HPLFMedia.com/hp/printpermanence).
3. Broadest color gamut in the HP Z-series portfolio.
4. Local printing requires mobile device and printer to be on the same network (usually Wi-Fi access points bridge wireless to wired connections) or have a direct wireless connection. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See [hp.com/go/designjetmobility](http://hp.com/go/designjetmobility) for more details.
5. The HP All-in-One Printer Remote mobile app is available for Apple® iPad, iPhone, and iPod Touch running iOS v7.0 or later and for Android™ mobile devices running Android™ v4.4 or later. The HP All-in-One Printer Remote mobile app is available for free from the Apple® App Store for Apple® mobile devices and from the Google Play Store for Android™ mobile devices.
6. The HP DesignJet SD Pro MFP is a bundle solution that includes the HP DesignJet T1300 PostScript® Printer and the HP DesignJet SD Pro Scanner. Both are also available as standalone products. Please, contact HP for availability in your country.
7. The HP DesignJet T1300 PostScript Printer is also part of a bundle solution that includes this same printer and the HP DesignJet SD Pro Scanner. Please, contact HP for availability in your country.
8. The HP DesignJet SD Pro Scanner is also part of the HP DesignJet SD Pro MFP bundle solution that includes this same scanner and the HP DesignJet T1300 PostScript Printer. Please, contact HP for availability in your country.
9. The HP DesignJet HD Pro MFP is a bundle solution that includes the HP DesignJet Z5400 PostScript® Printer and the HP DesignJet HD Pro Scanner. Both are also available as standalone products. Please, contact HP for availability in your country.
10. The HP DesignJet Z5400 PostScript Printer is also part of a bundle solution that includes this same printer and the HP DesignJet SD Pro Scanner. Please, contact HP for availability in your country.
11. The HP DesignJet HD Pro Scanner is also part of the HP DesignJet HD Pro MFP bundle solution that includes this same scanner and the HP DesignJet Z5400 PostScript Printer. Please, contact HP for availability in your country.
12. Not all T-series printers have this feature.
13. Mechanical printing time. Printed in Fast mode using HP Bright White Inkjet Paper (bond) and Original HP inks.
14. Mechanical printing time. Printed in Fast mode using Original HP inks.
15. Expandable to 1.5 GB RAM through an HP DesignJet qualified SODIMM included only in the optional HP DesignJet PostScript/PDF Upgrade Kit accessory.
16. Wireless performance is dependent on physical environment and distance from access point, and may be limited during active VPN connections.
17. BMG trademark license code FSC®-C115319, see [fsc.org](http://fsc.org). HP trademark license code FSC®-C017543, see [fsc.org](http://fsc.org). BMG trademark license code PEFC™/29-31-261, see [pefc.org](http://pefc.org). HP trademark license code PEFC™/29-31-198, see [pefc.org](http://pefc.org). Not all FSC®- or PEFC™-certified products are available in all regions. For information about HP large format printing materials, please visit [HPLFMedia.com](http://HPLFMedia.com).
18. Can be recycled through commonly available recycling programs. HP Premium Instant-dry Photo Paper can be recycled according to region-specific practices. In North America, recyclable in consumer collection systems that can accept mixed paper (may not be recyclable in your area).
19. HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See [HPLFMedia.com/hp/ecosolutions](http://HPLFMedia.com/hp/ecosolutions) for details.
20. Trade Agreements Act (TAA) compliant, available US only.
21. Only available in selected US channels.
22. HP DesignJet SmartStream only supports PostScript printers. If your printer requires an accessory to handle PostScript, you must install the accessory to use the printer with HP DesignJet SmartStream. For further up-to-date information, see [hp.com/go/designjetsmartstream](http://hp.com/go/designjetsmartstream).
23. Availability of service packages and specifications may vary by product and country. For more information visit [hp.com/go/designjetsupport](http://hp.com/go/designjetsupport).
24. Compared to other HP DesignJet T-series printers.
25. Based on 2.5 GB RAM.
26. Only available in Latin America, Asia Pacific, and Japan.
27. Not available in US and Canada. Defective Media Retention keeps your sensitive data safe. To comply with security regulations you can keep the defective hard-drive or data-retentive memory component while getting a new replacement disk or memory.
28. Based on 1.5 GB RAM.
29. Includes an HP Jetdirect Embedded Print Server.
30. Included with PostScript® printers only.
31. For Android printing, install the HP Print Service App from Google Play. For more information visit: [hp.com/go/designjetmobility](http://hp.com/go/designjetmobility).
32. Mechanical printing time. Printed in Fast mode with Economode on, using HP Bright White Inkjet Paper (bond) with Original HP inks.
33. Based on 640 MB RAM.
34. Based on 36-inch Wi-Fi integrated MFPs available in the market as of September, 2015.
35. Available as of March 2016.
36. Available as of January, 2016.
37. Compared to other 24-inch HP DesignJet T-series printers.
38. Mechanical printing time. Printed in Fast mode on plain paper with Original HP inks.
39. Only certified for the following workflows: WJA, FTP printing, IPsec.
40. The HP DesignJet SD Pro MFP is a bundle solution that includes the HP DesignJet T1300 Printer and the HP DesignJet SD Pro Scanner. Both products meet the ENERGY STAR energy efficiency criteria through an EPA recognized certification body, and are EPEAT registered at the Bronze level under the Imaging Equipment category individually. To check status by country, please visit [energystar.org](http://energystar.org) and/or [epeat.net](http://epeat.net) and then refer to the scanner and printer models individually.
41. Monochrome scanning: A1/D image with black text graphics at 200 dpi; color scanning: A1/D fully-inked color image at 200 dpi, 24-bit RGB.
42. Scanning process.
43. For scan job storage, Win70S and recovery system.
44. The HP DesignJet Z6800 Photo Production Printer does not print borderless.
45. Compared with large-format inkjet printers under \$25,000 USD for graphic applications. Based on the fastest-rated color speeds as published by manufacturers as of October 2013. Test methods vary.
46. Mechanical printing time. Printed in Fast mode with HP Vivid Photo Inks.
47. ICC absolute colorimetric accuracy on HP Premium Instant Dry Photo Paper with Original HP inks.
48. For Ink cartridges regional references please check the product datasheet.
49. Compared to large-format inkjet printers under \$25,000 for graphic applications. Based on the fastest rated color speeds as published by manufacturers as of January 2010. Test methods vary.
50. Mechanical printing time. Printed in Fast mode with Economode on, using HP Bright White Inkjet Paper (bond) with HP Photo Inks.
51. Based on 768 MB RAM.
52. Only available via HP Instant Printing PRO or the HP Embedded Web Server.
53. ICC absolute colorimetric accuracy on HP Proofing Matte paper with Original HP inks.
54. Based on 256 MB RAM.
55. The 12-ink HP DesignJet Z3200 Photo Printer is the most advanced printer compared with other HP Z-series printers.
56. Mechanical printing time with Original HP inks. Measured on a 44-in model.
57. Maximum rate of output for color image 100% color coverage (Bandes file). Printed in Fast mode with Economode on, on HP Bright White Inkjet Paper (Bond), maximum roll size, with HP Vivid Photo Inks.
58. The HP DesignJet HD Pro MFP is a bundle solution that includes the HP DesignJet Z5400 PostScript Printer and the HP DesignJet HD Pro Scanner. Both products meet the ENERGY STAR energy efficiency criteria through an EPA recognized certification body, and are EPEAT registered at the Bronze level under the Imaging Equipment category individually. To check status by country, please visit [energystar.org](http://energystar.org) and/or [epeat.net](http://epeat.net) and then look for the scanner and printer models individually.
59. Contact Image Sensor (CIS)—integrated design, with all scan components combined into a single module for your everyday documents and maps.
60. 300 MB scanning process. Users can scan file sizes larger than 300 MB.
61. Closed system. Antivirus no needed.
62. USB path can be hidden but the drive cannot be disabled.
63. NT LAN Manager (NTLM) Protocol for authentication, integrity and confidentiality.
64. HP DesignJet HD Pro MFP and SD Pro MFP have control panel lock in the printer and password protection to avoid access to Panel PC configuration options.
65. Not available in the Americas.
66. Compatible with the HP DesignJet Z5200 Photo Printer and the HP DesignJet Z5400 PostScript Printer.
67. Using HP SmartStream software, job preparation and processing can be completed in 50% of the time. Conclusion based on an HP internal test measuring the time required to extract pages from a 50-page document and print them using several printers compared with using equivalent software programs.
68. Features and availability vary by printer.
69. Visit [hp.com/go/ecolabels](http://hp.com/go/ecolabels) to see the list of products that are certified to the different eco marks. For details on ENERGY STAR and EPEAT, see [energystar.gov](http://energystar.gov) and [epeat.net](http://epeat.net) respectively.
70. EPEAT registered where applicable/supported. See [epeat.net](http://epeat.net) for registration status by country.
71. Visit [hp.com/recycle](http://hp.com/recycle) to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area. Where this program is not available, consult the Material Safety Data Sheet (MSDS) available at [hp.com/go/ecodata](http://hp.com/go/ecodata) to determine appropriate disposal.
72. For HP ink cartridges that use recycled materials, up to 70% of the cartridge is made from recycled content. Percentage of recycled material is based on empty weight. HP uses recycled plastic from the HP "closed loop" ink cartridge recycling process when supplies are available. Recycled plastic is also sourced from other recycle streams.
