LILLIPAD DIVING BOARDS PARTNERS WITH AVALON & TAHOE MFG.

Traverse City, Michigan (June 2, 2015) – LilliPad Diving Boards and Avalon & Tahoe Manufacturing announced today that they have entered into an agreement to offer LilliPad Diving Boards as an available option on all new Avalon & Tahoe Pontoons. As the pontoon boat industry continues to surge this partnership will provide an edge for Avalon in 2016 with an option not currently available on any other line of pontoons. For LilliPad, this venture offers an amazing opportunity to showcase its product with an industry leading manufacturer of luxury pontoon boats.

LilliPad hit the boating industry by storm with its flagship product, the LilliPad Diving Board, winning the Miami International Boat Show's 2015 Innovation Award for most innovative new watersports accessory. The LilliPad Diving Board is the world's only diving board specifically designed to be mounted on a boat. The diving board features the ability to be removed in minutes when it is not in use, offers multiple tension settings for lighter and heavier jumpers, a docking position, and multiple safety features. In addition, the innovative design allows people to jump and not rock the boat!

"We are very excited to work with a fellow Michigan based company," said Ann Schaub. "Teaming up with Avalon & Tahoe Mfg. is an unbelievable opportunity for us to work with a company that values quality and innovation just as we do."

With the model year change quickly approaching customers will see LilliPad Diving Boards as an available option in the 2016 Avalon & Tahoe catalogues. In the meantime, LilliPad Diving Boards are available at Avalon and Tahoe dealers around the country as an after-market accessory.

ABOUT LILLIPAD DIVING BOARDS

Founded in 2012, LilliPad, LLC (DBA LilliPad Diving Boards) is the maker of the world's only diving board designed specifically for mounting on a boat. The company's flagship product hit the market in May 2014 and has since won numerous awards including the "Best New Product for 2015" and a prestigious "Innovation Award" at the 2015 Miami International Boat Show.
