

PowerWave™ from G-LINK™

One place to Connect - Many Ways of Connecting with PowerWave™ from G-LINK™

PowerWave™ is the latest hotel in-room technology that creates a completely new experience for any guest in a way that has never been more appealing. Through G-LINK's high-tech, high-touch connectivity experience, guests are able to easily connect any number of personal technology devices to their in-room HDTV and high-performance speakers. The result is a better all-around in-room experience.

In a matter of seconds, guests are able to enjoy everything from creating better presentations to music to gaming by connecting to their personal devices, such as: Laptops, MP3 players (iPod™), personal gaming stations (Wii™, Xbox™), DVD players, digital cameras, iPhone™, and more.
