OVERVIEW OF GOALS

EDUCATION

This course is for Christians who accept the entire Word of God. Thus, the course is biblically based. Ideally, we all are striving to die to self and to gain the beauty of Holiness. Getting in touch with our myths, fantasies, and *realities* of marriage is part of this process.

PRACTICE

This course assumes some marital couples/individuals **who want to practice/invest in** marriage beyond the classroom. The course promotes use of observations, dreams, and personal images to be developed and shared with the spouse and to chronicle the process with your spouse.

LIVE

This course appreciates human communication, interactions, and activities as ongoing processes.
