

Merciful Lord, help me to grasp the role that mystery plays in human experience. Sometimes I sort life events into categories that can be explained, bypassing those that do not fit. You created me to seek you, but when the highly unexplainable happens I look for a rational explanation rather than turning to you. Then, when I least expect it, your grace draws me into the swirl of mystery. You use life's unfathomable ambiguity to attract me with magnetic grace, and when you find me I rest in profound peace. Lord God, thank you for meeting me in the uncertainties of human existence and for showing yourself as Redeemer through your Spirit. Your mysteries are great, but greater still is your love in Jesus, who summons me to prayer. Amen
