# WELCOME

On behalf of the Oklahoma Brangus Assoc we would like to invite everyone to our Fall sale. We are proud to be one of the longest running State Brangus Assoc sales in the US and of this offering. We are striving to continually make improvements in our offering and offer our customers a more predictable product. New for this sale --Every bull in this offering have all weights from BW to YW plus Yearling Ultrasound & Scrotal measurements turned in to IBBA and calculated into their EPDS.

To go a step further several bulls have Geonomic Enhanced EPDs and Parent Verification through the use of DNA. Our breeders have worked hard to produce a set of bulls that will work for Registered and Commercial herds alike.

We also have an exceptional offering of females. Whether you are looking for a show heifer prospect, bred heifer or bred proven females look these over and possibly find your next donor cow or show winner. Several of these females also have Geonomic Enhanced EPDs and are Parent Verified through the use of DNA.

We hope you can join us October 28, but if you are unable to attend get signed up with DVAUCTION and watch or bid online. We will have trucking available after the sale. If we can be of any assistance give us a call

Hope to see you sale day and "Thank You" for studying our catalog and your consideration of our Fall offering.

*Mike Vorel*

## GENETICALLY ENHANCED EPDS

Animals with Geonomic Enhanced EPDs are designated in catalog with a: 

There are numerous interesting and educational articles written on the value and uses of Genetically Enhanced EPDs. If interested in the advancements in beef production through use of GE-EPDS you can google and find these articles very easily or there are several in past Frontline's or Brangus Journals. The short version is - Genetically Enhanced EPDs have higher EPD accuracies, and a lower possible degree of change of an animals EPDs. Through the use of DNA to produce GE-EPDS an animal with no progeny will have EPDs equal to an animal with 6 to 20 progeny varying in different EPD values. Giving young animals a much more predictable set of EPDs.

# DATA KEY

Due to the differences in management practices, weather and other conditions. Individual weights and measurements cannot be compared to animals from different farms or ranches. Animals should only be compared to animals in their own on farm contemporary groups. The use of EPDs and accuracies of EPDs is the only tool available to compare animals from herd to herd. Low accuracy animals have a much higher possible change in either direction on all EPDs than higher accuracy animals. Read information provided on this page and the previous page to better understand EPD values.

## WHAT ARE EPD'S?

Expected Progeny Difference (EPDs) are the best estimate of an animal's genetic merit for a particular trait. It takes into account the animal's own performance, compared with it's contemporaries and the performance of it's relatives, compared against their contemporaries.

**Birth Weight (BW) EPD** predicts calf size and calving ease, if all other extenuating conditions are held the same.

**Weaning Weight (WW) EPD** predicts preweaning growth potential.

**Yearling Weight (YW) EPD** predicts overall growth potential.

**Milk EPD** predicts the maternal contribution to weaning weight of the calf, through milk production, behavior, immunity and other maternal environmental factors.

**Total Maternal (TM),** also called M&G EPD predicts weaning weight of calves from a bull's daughters.

**Scrotal Circumference (SC) EPD** predicts testicular size at puberty.

### ULTRASOUND EPDs

**Ribeye Area (REA) EPD** predicts total muscle

**Intramuscular Fat (IMF) EPD** predicts % of intramuscular fat which is highly correlated to marbling.

**Rib Fat Thickness (FT) EPD** predicts external fat thickness.

\*REA and FT are primary components of USDA Yield Grade, and marbling is the primary component of USDA Quality Grade.

### PERFORMANCE

Individual performance data is provided as supplementary information as EPDs provide more reliable evaluation of genetic differences of animals.

**Actual Birth Weight (BW)** are reported from the producer.

**Weaning Weight (WW)** are adjusted to 205 days.

**Yearling Weight (YW)** are adjusted to 365 days.

**Scrotal Circumference (SC)** are adjusted to 365 days.

**Average Daily Gain (ADG)** is a measure of growth rate on a high energy diet. It is positively associated with feed efficiency.

**Ribeye Areas (REA)** are adjusted to 365 days and ratioed relative to contemporaries.

**Intramuscular Fats (IMF)** are adjusted to 365 days and ratioed relative to contemporaries. IMF is highly correlated to marbling.

**Fat Thickness (FT)** is adjusted to 365 days and ratioed relative to contemporaries.

Brangus EPDs are calculated by the Livestock Genetic Serves and are part of a program called the National Cattle Evaluation (NCE).

# TERMS AND CONDITIONS

Except for those stated in the terms and conditions below, there are no warranties either expressed or implied, as to the merchantability or fitness for a particular purpose with respect to the cattle being sold at this auction.

The warranties and guarantees set forth in the "Terms & Conditions" are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party through buyer, for any breach of warranty or guarantee therein provided, and all other obligations or liabilities.

1. **BIDDING** - Each animal will be sold to the highest bidder. The auctioneer in charge will settle any disputes as to bids and his decision will be final.

2. **TERMS** - Terms of the sale are cash or check. Settlement must be made to the clerk at the conclusion of the auction.

3. **PURCHASER'S RISK** - Each animal becomes the risk of the purchaser as soon as sold by the auctioneer, and the risk of loss will pass to purchaser at the time of sale by the auctioneer; but animals will not be delivered until settlement has been made. After the sale, animals must be taken promptly by the purchaser, but in any event must be removed from the seller's premises within three (3) days of the auction. After three (3) days, a reasonable charge for boarding will be made by seller to purchaser.

4. **CERTIFICATE OF REGISTRY** - When full settlement has been made, a Certificate of Registration will be furnished and transferred to the purchaser. Give full name and address to the clerk when making payment so the Certificate of Registration will be transferred properly.

5. **HEALTH** - Oklahoma is Brucellosis (Bangs) and Tuberculosis- free state. An interstate health certificate will be furnished in accordance with Federal Regulations and the state of Oklahoma.

6. **ANNOUNCEMENTS** - Announcements from the auction box will take precedence over the printed matter in this catalog. All cattle will be sold by lot numbers as announced by the auctioneer.

7. **MAIL BIDS** - Phone, mail or email bids may be furnished in confidential form to either Wes Dotson, Auctioneer or Mike Vorel, OBA Sales VP. (Contact information located on inside front cover of this catalog.)

8. **BREEDING GUARANTEE** - (A) All animals are guaranteed to be breeders with the exception: (1) injury or disease occurring after the sale; (2) negligence or willful mistreatment of the part of the purchaser. (B) Any female is considered a breeder is she is pregnant at the time of the sale and/or she has a calf at side. (C) Any bull shall be considered a breeder that produces viable semen.

9. **OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT FOR BULLS** - (A) All claims for adjustment or return must be made in writing within six months of the sale. (B) If any animal guaranteed to be a breeder that has not proven itself a breeder within the time limit specified above, if in healthy condition and weighing within 80% of sale day weight, may be returned to the seller at the purchaser's expense. The seller reserves the right and privilege of trying for a period of six months to prove the animal a breeder. If proven a breeder, the animal will be returned to the buyer, at buyer's expense. Should the animal fail to breed, the buyer may receive replacement of the animal with an animal of equal value. (C) Any animal returned must have a veterinarian's certificate that it is healthy and free of Bangs and Tuberculosis.

10. **OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT FOR FEMALES** - (A) All claims for adjustment or return must be made in writing within six months of the sale or no later than six months after the animal reaches 18 months of age. (B) If any animal guaranteed to be a breeder that has not proven itself a breeder within the time limit specified above, if in healthy condition, may be returned to the seller at the purchaser's expense. The seller reserves the right and privilege of trying for a period of six months to prove the animal a breeder. If proven a breeder, the animal will be returned to the buyer, at buyer's expense. Should the animal fail to breed, the buyer may receive replacement of the animal or pair with an animal or pair of equal value. In case a cow sold with a calf at side is returned because the cow is determined a non-breeder, the calf must also be returned. (C) Any animal returned must have a veterinarian's certificate that it is healthy and free of Bangs and Tuberculosis.

11. **RIGHT AND OBLIGATIONS** - (A) The preceding terms and conditions of sale shall constitute a contract between the purchaser and seller of each animal and shall be equally binding upon both. (B) Animals resold following purchase in this sale shall constitute a separate transaction, and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale. (C) All persons who attend the sale do so at their own risk and neither the owners, nor any person connected with the management of the sale facility assume any liability, legal or otherwise, for any accidents which may occur. 12. **GOVERNING LAW** - All cattle offered for sale according to the laws of the state of Oklahoma.

## NEW OPTION

Mortality and fertility insurance will be available on all bulls selling in this sale. If buyer chooses to purchase this option the seller will pay 3% of purchase price of said bull or bulls towards the cost of a one year mortality and fertility policy. Insurance policy at that time takes the place of breeding soundness and fertility guarantee furnished by seller. Insurance agents will be available before and after auction to discuss any policy question
