# Multistander by Jenx

A highly versatile standing frame suitable for children from around 9 months right up to 13 years, standing in prone, supine or upright.

An unrivaled amount of adjustment for height and width and a maximum user weight of 77lbs on the size 1 and 132lbs on the size 2, make the Multistander the perfect choice for growing children. Smooth and easy to operate angle adjustment takes the Multistander from horizontal right through to a natural standing position of just off upright. A wide variety of head, trunk, leg and foot support options allow you to exactly customize the Multistander to any individual user. The capacity for outstanding thoracic and pelvic support, coupled with highly adjustable leg positioning options, make the Multistander a great option for almost every child. If you need flexibility, the Jenx Multistander has it!

## INNOVATIVE FEATURE

### Independently Adjustable Thoracic and Pelvic Boards

Allowing the individual proportions of each specific child to be catered for, while also giving scope to avoid pressure on delicate areas such as feeding buttons

## INNOVATIVE FEATURE

### Smooth & Simple Angle Adjustment

Angle can be adjusted with the child in the standing frame, and is easily set using the angle gauge on the frame.

## INNOVATIVE FEATURE

### Knee blocks

Available in two sizes and provided with specially designed straps, the Multistander knee blocks are independently adjustable for height, width, depth and angle allowing you to precisely position the knees of every child.

## INNOVATIVE FEATURE

### Incorporated de-rotational Thoracic and Pelvic Straps with Lateral Support Pads

Available in different sizes and styles these support pads offer lateral stability and come with a support strap which enables corrective positioning and security.

## INNOVATIVE FEATURE

### PU Support Pads

Flexible, easy to clean, impervious to fluids and with an antimicrobial agent, the PU boards and support pads make the Multistander simple to clean and keep hygienic. They also come in a range of vibrant colors to suit all tastes.

## INNOVATIVE FEATURE

### Innovative Prone/Supine Adjustable Tray

Thoughtfully designed to work effectively in both prone and supine, this universal tray addresses many of the issues reported when using 3:1 standing frames. Clever inbuilt adjustments prevent gaps for arm traps while the included overlay ensures a perfect fit when used in prone.

# Multistander Key Features
