Help Hygiene,

Thank you for your generous donation to Care Ring Nurse-Family Partnership. These items will go toward assisting clients that are facing acute to chronic homelessness and transient living situations. Nurse-Family Partnership is comprised of 10 nurses that each serves 25 families. Clients enter the program during pregnancy and graduate when the child is 2 years old. Our goal is to provide support and education in an effort to promote self-efficacy. Due to a high volume of families; it is imperative that we continue to seek out partnerships and community collaborations that will support our moms. Help Hygiene, your toiletry gifts mean so much to us and our clients. We are forever grateful.

Your commitment to this community is paramount in moving families toward economic stability! Thank you again!
