

Trav'l'n Elks (CONT'D)

From Pat Cook -

I would like to share that we went to Kings Canyon and Sequoia National Park for 3 days to escape the heat. It was beautiful and very few people which made us feel safe. People were wearing masks. Very few campgrounds were open but we stayed in an RV Park about 20 minutes away called River Bend. If you haven't been there highly recommend this trip! Hope everyone is doing well and staying safe. Looking forward to seeing everyone in the future!

Trav'l'n Elks

By Shirley March

Hi Carmichael Travl'n Elks,

Not much going on, have a few campers going out on their own for a few days, keeping there social distancing. Heard Willis and Bridges are on there way to Nevada. We went down to River point landing in Stockton for a couple of days. My great nephew Brody was with us, he loves to draw so he drew a couple of pictures for the San Joaquin Sheriff's office, there office is in the marina. They put an article on there Instagram page about there mystery artist, and here's a picture and article.

Also would like to remind every member that we have a few members that have not paid there dues yet this year. Please check with Sandy our membership chairman to see if you are paid up. Phone # is 916-223-6556. We have no meeting or plans in the near future except possibly the Christmas Party Dec 13th.

Hope everyone is staying healthy & safe.

Where you are, Stay safe!!

sanjoaquincountysheriffsoffice An important update regarding our mystery artist...

The Boating Unit had the pleasure of meeting 9-year old Brody. He slipped us a couple more cool drawings that we are proud to display. Brody also enjoyed getting shown around the Boating Unit checking out the Sheriff's Office cool Trucks & Boats. Thank you Brody, and thanks for being such a great young man. #SJSOCoolKidAlert

What a cool surprise...

Thank you to the artist that left this drawing for our Boating Deputies at the SJC Boating Safety Office. We truly appreciate the love and support of our community!
