Restoring Success: Protecting Your Organization

By Lisa Lavender COO Restoration Technical Institute

I wake up every April's Fool's Day with a bit of a pit in my stomach. I am easily one of the most gullible people on earth. Although I am gullible, I do learn from my mistakes. So, every April Fool's Day, I put a big sign on my computer: "Today is April Fool's Day".

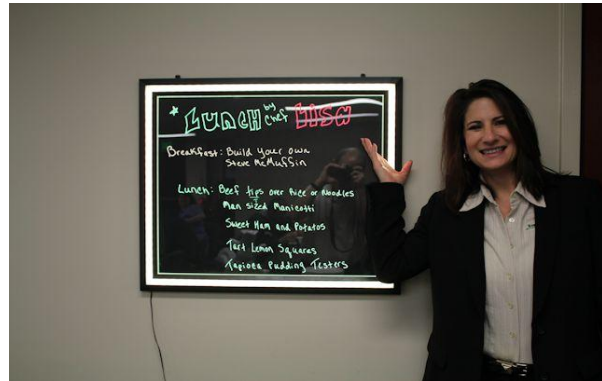

The sign reminds me to talk everything in with a bit of caution, to slow down and digest before I react. By the time I am caught up in my day, I quickly forget that I am the ultimate target for what could be the best April Fool's prank on record. One of the things that makes me such a good target is that my co-workers are educated, they know me too well, they know what will get me going, and how I will likely react to whatever masterful plow they throw at me.

Want More Knowledge, Passion & Inspiration?

Not only do we want to give you Knowledge, Passion and Inspiration for Your Success here at the Restoration Technical Institute, but it is important to us that you have a great experience here as well. Lisa and Jennifer spend countless hours going over menu items to ensure that our students don't go hungry. Lisa's new Neon Menu Board is a hit and we continually see students glancing at the board in our "Hospitality" room to see what they have in store for breakfast and lunch. Register for a class today and join us for Breakfast, join us for Lunch and don't forget that it's never too cold for Steve's Ice Cream!

Tip From The Tute!

Protect the Walls! Save the Trim!

By Steve Schumm

If you know me. I like tools. I am constantly looking for new items that can help us as Restoration Professionals. As the Restoration Technical Institute gets ready for students to come to our [WRT/ASD Combo Course](#) beginning

March 14, 2016, I thought it would be good to give you a tip(s) on some tools that could help you save damage to drywall and the trim that you might need to pull during a water loss.

Watch the videos on the [Zenith Trim Puller](#) and the [Quick Gripper](#)!

I believe these are a must for every Restoration Technician.

Zenith Trim Puller

Quick Gripper Nail Puller
