## **Allyn's, COVID-19, and You**

Here at Allyn's Dry Cleaners the safety and health of our customers, and our entire community, has always been, and will always be, our highest priority.

We want to remind you that one of the best ways to fight any virus in your home is to clean clothing and bedding much more frequently than in normal circumstances. Remember this includes jackets and outerwear, and any other textile you touch.

To this end, Allyn's Dry Cleaners is here to help you, and we are following the recommendations of the "Dry Cleaning and Laundry Institute Online." This guidance was taken largely from the CDC in response to the Coronavirus-COVID-19. Key points from these recommendations:

- At this time, testing has only been done on hard surfaces, as more information regarding textiles becomes available we will be sure to get information out to you.
- The CDC advises that the drycleaning process, which includes cleaning and pressing, is effective on most viruses.
- As is true with other viruses, laundering with a disinfectant product is an option.

In addition to Dry Cleaning, Allyn's also offers Wet Wash, and uses an industry standard, "BacStop™" fabric sanitizer to each load of wash (eliminating 99.9% of infectious contamination, including MRSA-Staph)

- Q: "Can the virus be transferred from someone else's clothes to my clothes?"
- A: There is little chance of this type of transfer occurring. First, the virus only lives for a short period outside the body. Second, the cleaning process kills the virus on any and all garments.

### Delivery Customers

If you are a current Delivery Customer who normally enjoys our service at your workplace, please contact us to temporarily redirect our Delivery Van to your home.

### In Store Drop-off And Pick-Up

For customers coming to us directly, we want you to know that our staff continually disinfects all common areas, service counters and door handles, at regular intervals throughout the day.

We are here to help our community always, but especially in this time of crisis. Please feel free to contact us,
