

CBI News

September 2023

A Great Start!

We started this school year off with a bang! As a group we talked and decided the best way for success was to have our academics in the morning when student minds are fresh. The second part of the day is reserved for CBI related instruction and finally we finish the day with hands-on project work.

Some subjects covered during CBI related instruction are: What Employers Want, Goal Setting, Gathering Job Leads, Applying For a Job, Financial Literacy, and much more.

There are a few projects in the planning stages but one we can share is the restoration of a classic six wheeler. The project is a classic Camel Centipede! This particular machine was built in the early 1970's. The students will be responsible for inventorying all of the parts, cleaning and painting, and assembly. Plus a whole lot more. When the project is complete, representatives will be coming to the school to pick up the Camel and possibly give the class another project for next year. Stay tuned for more details!

Camel Centipede

New Fun Mobile
CAMEL CENTIPEDE

Introducing the first, quality, **ECONOMY PRICED**
 All Terrain Vehicle!

Imagine the fun you will have with this amphibious beauty, climbing over dunes and rocky ravines, through woods and water . . . then roving the Centipede for that flat out charge at speeds of up to 40 m.p.h.

Six wheel drive and 20 plus h.p. engine. Electric starter and battery, twin lights, smooth torque converter and transmission, forward and reverse gears. Stylish body made of practically indestructible Cyclocac*.

Great fun with many utility possibilities. Prices start at only **\$1095** suggested retail.
