PRESIDENT'S MESSAGE RUTH EHLERS

WARNING WE CANNOT BECOME COMPLACENT!

When Senator Ray Scott spoke at the MCRP luncheon in February he commented how we in Mesa County tend to take for granted the election of our Republican Candidates due to the number of registered Republicans. He reminded us that the opposing Party is not sitting on their hands but are hard at work with the intention of taking elective offices. A recent article in the local newspaper gave an account of the Fruita Monument High School Democrat club hosting a forum for the Democrat candidates for a State Office. Recently a Democrat candidate for Governor held a forum to discuss “affordable housing” – which could be a hot button issue in the upcoming election. And now I see the announcement that a forum for the Democrat Candidates for Governor will be held at Fruita Monument High. When have we seen Mesa County getting so much attention from the State-wide candidates?

Perhaps you heard a recent Rush Limbaugh show when he warned that George Soros is funding Democrat campaigns in Districts which were won by President Trump with sizeable margins. In one instance a 27 Year old Democrat (who ran as a very moderate candidate) won by a large margin in a District that President Trump won by a huge majority. There have been several special elections which have not been highly publicized where the Democrat candidate surprisingly won. TO READ THE TRANSCRIPT [CLICK HERE!](#)

The moral of this story is: **WE CAN'T TAKE WINNING IN MESA COUNTY FOR GRANTED!** This is a crucial year when the future of not just Mesa County, but the State of Colorado is in the hands of the voters. Redistricting will be coming up in the next election cycle. The Party which has the Governorship will determine the makeup of our House and Senate districts. In the last few years the Independent voter registration has increased by a substantial margin. These are voters that it is necessary to reach if we are to continue to put our Republican Candidates in office.

There are times when we simply want to tune out and ignore what's going on in the political world, but that's when the opposition gets their foot in the door. This is one year we cannot give an inch to those who wish to hold the powerful offices in our County, District and State. This year is far too critical to tune out. Join us in this very important effort!

AMERICANISM LINDA GREGORY

At our last meeting I told our attendees about an alternative news network that I found a wonderful contrast in style to Fox News. I find that I get tired of the constant wrangling over ideas.

This Network is also online and it presents the news from all over the world as well as just our own. It is very straight forward and very concise. If you cannot reach it through your T V provider you can follow it online at <http://www.oann.com/>

At the end of each hour they present a patriotic short that has surprised me more than once and is very interesting. [Click Here for a taste](#)

Liz Wheeler hosts a show called Tipping Point. This is no holds barred opinion. [Click here](#) she tells exactly what she thinks of our opposition party! I think she is right on!
