

THE PISCEAN CODE OF THE RAPTURE

TRANSFERENCE OF COMMISSION AND TESTIMONY

Equinox Eclipse Patterns since Christ

by Luis B. Vega

*'For as in Adam all die, so also in Christ shall all be made alive. But each in his own order: Christ the firstfruits; then they that are Christ's, at His coming. **Then cometh the End**, when He shall deliver up the Kingdom to God, even the Father; when He shall have abolished all rule and all authority and power. -1 Corinthians 15:22-24.*

The purpose of this study is to illustrate just how close the Rapture of the Bride of Christ is based on an Elijah to Jesus' phi ratio Rapture pattern. This study will present the theory that a 3rd Rapture to coincide with the end of the Church Age will occur and that it is based also on the phi ratio of time since Elijah and Jesus that approximates the timing of when the end of the Church Age is to conclude. The study will further present the notion that the Church Age is encoded in the very depiction of the astronomical Sign of Pisces in the Heavens. This investigation will attempt to show that the typology of Pisces is prophetically measured out to the possible timing of when the Church Age commission is to end and thus when the Rapture of the bride is to occur. The timing of this 3rd Rapture since Elijah is to presumably conclude the Church Age and perhaps is somehow connected or associated astronomically to the Equinox Eclipse Pattern.

This study will continue in the investigation of the Equinox Eclipse patterns since Christ to ascertain if there is any possible correlation. According to NASA's calculations, the March 20, 2015 Equinox eclipse is only the 9th since Jesus. What makes this one in particular unique is that it does occur when there is a Super Moon and on YHVH's religious New Year. One other peculiarity about the Equinox pattern is that all these also occur in the constellation of Pisces. The chart accompanying this study will show that the constellation of Pisces will be likened to the trajectory of the resurrection of Jesus Christ as one of the Fish of the constellation that is going up. The other Fish depiction will be likened to that of the Church Age going out.

These 2 Fish of the constellation Pisces make up the entire segment of the Mazzaroth that also encompasses the Band, which is the chord that binds the 2 Fish together at the subjugation of Cetus, which is Leviathan or a depiction of Lucifer, the god of this world. The other association with Pisces will be that of the Rapture and perhaps the Rapture timing as this study also suggests. The Pisces constellation in this correlation and inference could be marking the time segments of the progression of the Church Age throughout time since Jesus Christ's ascension. The pattern of the Equinox eclipses that occur specifically in Pisces will show that there is a progressive segment of astronomical positioning along the band of the 2nd Fish that is going out and adjacent and leading up to the mounting of Pegasus.

The Astronomical Rapture

In the chart that is accompanying the study, the constellation of Pisces is aligned horizontally with the Ecliptic. When this alignment occurs, the 1st Fish of Pisces stands upright. The 2nd Fish is configured at a 45 degree angle adjacent the back of Pegasus. Next, the timeline of the specific Equinox Eclipses since Christ are synchronized to the span of space in-between the 1st Fish and the 2nd Fish of Pisces. This study presumes the Ascension of Jesus to be in 32 AD. As the chart illustration will show the constellation of Pisces has an approximation of the phi ratio proportions to it. Concerning the Equinox Eclipses, the majority since Christ occur starting at the point from where the phi ratio spiral originates on the Ecliptic. Based on these astronomical associations, the Church Age, its beginning with the Ascension of Christ and subsequent indwelling of GOD the Holy Spirit 10 days later will have its termination soon if what the pattern suggests is valid and reliable.

This phi ratio pattern will be depicted in the constellation Pisces that will show an amazing proportion of the 1st Fish going up and the 2nd Fish going out. What the 2 combined produces is a pyramid of sorts of the 1st Fish going up which represents Jesus' ascension. As YHWH is the Creator, He of course knew where to put such constellation and use what stars to be arranged in space and time to render such a depiction. It is incomprehensible as the ley-lines in the heavens match the delineation of the phi ratio spiral configurations when superimposed on the celestial map. Of note, these depictions are just a model and approximated the best possible angle and configuration of the constellations as they are based off of computer software and are a model themselves.

This conclusion of the Church's Commission will occur with the Rapture at the end of the Pisces depiction of the 2nd Fish that is along the Ecliptic. This constellation depiction of the 1st Fish going up and the 2nd Fish of Pisces going out is tied to the historical event of what occurred on Ascension Day with Christ Jesus and the Church, being made up of the first Disciples and thus the First-Fruits of the whole Church Age period and the harvest of Gentiles. Ascension Day was 10 days prior to Pentecost that the LORD commissioned the Church. It was to be under His complete authority as all power was given to Jesus, in Heaven, under Heaven, on Earth and beneath the Earth; that at the name of Jesus, all knees would bow and tongues confess that Jesus is LORD to the Glory of GOD the Father. It was at this point in time that Jesus went up as He commissioned His Church to go out.

This is the astronomical depiction of Pisces in the Stars. It would not have been realized that this 'going out' by the Disciples would consist of the 7-fold Menorah type of Ages or dispensations of time that would constitute the Church Age. Each time or Age characterized by a certain attributes of the Church, both good and/or bad. As a type, this Piscean Pattern of the Rapture has it reverse order in that as the LORD Jesus went up, the Angel that appears and stood next to the Disciples assured the Disciples that in the same way that Jesus went up in physical bodily form would return in the same way and in the exact place. This return is the 2nd Coming of Jesus as foretold by Zechariah that Jesus' feet would touch down on the very same spot, the Mount of Olives.

It is rather interesting that Pegasus and Andromeda are directly connected to Pisces. In one level of possible interpretation, the direction of the flight that Pegasus is taking the Raptured Church, i.e., the Chained Woman it that towards the Golden Gate or the Gate of GOD. This portal or gate is at the Galactic center where the Galactic plane and the Ecliptic intersect and is in-between Sagittarius and Ophiuchus. In a Stereographic rendering of the universe using Stellarium, it is rather interesting that the depiction of Pegasus and Andromeda take center stage in-between the 2 celestial gates, that of the Golden Gate, the Gate of GOD and the Silver Gate, the Gate of Man, thus an Astronomical Rapture. Jesus did say that He was the Good Shepherd that would lead His Sheep through the Gate of the Shepherd perhaps that of the Golden Gate itself.

The 2nd Coming will be with His Bride as foretold by Enoch and in which all people will see brighter than the noonday Sun. What was perhaps not fully grasped was the notion that there would be a 'secret' Rapture of Jesus coming at a 'midnight' hour and as a 'thief in the night' to call His Bride home to His Father's House where Jesus had promised His Disciples prior to Passover that He would come back to take them there. This is in keeping with the ancient Jewish wedding tradition. This is what the Signs of Pisces along with Pegasus and Andromeda depict and tell its story by the definition of their very stars. It will be Jesus like Pegasus coming from afar to rescue His Chained Woman, the trodden down Church by Cetus, the Leviathan as the horizontal 2nd Fish of Pisces mounts on the back of Pegasus in swift flight, in twinkling of an eye even.

Astronomical Time Markers

This study assumed that the Equinox eclipse of March 20, 2015 is the 'last' one of the Church Age to signal perhaps the end of its commission as a prelude to occur within the remainder of the year or subsequent year. It is understood that in Jewish calendar timing, such a year is actually 5776 that encompasses part of 2016. The reason being that unlike the 8 previous ones since Christ, none appear to occur on YHVH's religious New Year and on a Super Moon.

There is a subsequent Equinox eclipse 19 years later in 2034 but does not occur on a Super Moon nor on a Feast or Appointed Time of YHVH. Here is a more accurate rendering of the pattern. It should be a 27-19-19 year order; now as to its significance? The distinctive pattern is of a 27-19-19 year association. One occurs before Christ, and the other after with the Equinox eclipse of 2015 being the 2nd 19 year delineation. Based on the eclipse series, there appears to be a set of a 27-19-19 year pattern of Equinox eclipses that occurs before Christ and after Christ, at the beginning as it will in the end.

Before Christ

-1994 to -1967 = **27 years**

-1948 to -1929 = **19 years**

-1427 to -1408 = **19 years**

After Christ

592 to 619 = **27** years

1140 to 1159 = **19** years

1643 to 1662 = **19** years

2015 to 2034 = **19** years

The concept of the duration of how long the Church Age is to last follows the theory that there is a comprehensive 7000 year span of human history that after the 7 year Tribulation period, the remaining 1000 year segment of time will be completed. Each 1000 year segment of time corresponds to a day of the re-Creation account of Geneses 1:2 of which the Church Age is patterned after. One interesting computation is as follows. If the 1st Equinox eclipse occurred in 52 AD after Christ's ascension and the Equinox eclipse of 2034 that is paired to the 2015 by 19 years is the 'last' one, then the following numbers turn out.

*2034 last Equinox eclipse – 52 AD 1st Equinox eclipse = **1982** years*

Based on prior studies of the possible span of the Church Age, it is conceivable that this coefficient of 1982 is the time in which it reflects the true age of Jesus Christ at the time of His crucifixion and resurrection, which is believed to correspond to the year 32 AD. This date of April 14, 32 AD is suggested also for this study. One calculation is based off of the notion that on 32 AD near midnight a total Blood Moon occurred in the midst of Libra. There was no Tetrad contrary to current belief but this Blood Moon is striking.

This event would be in keeping with the typology of how at the liberation of the Hebrews from the Land of Egypt possibly also had a Blood Moon near midnight and in which the Angel of Death slew the 1st born, such as Jesus was as a type on the Cross and the very Lamb of YHVH. What is unique if by coincidence or design, the Blood Moon on 32 AD was on April 14, such as was the 1st of the last Tetrad sequence since 1949 that started on April 14, 2014. This is exactly 1,982 years apart. Here is another year numerical coefficient that is repeating on different prophetic levels.

*April 14, 32 AD – April 14, 2014 = **1982** years*

The March 20, 2015 Equinox eclipse that happens to occur on a Super Moon and the religious New Year of YHVH will occur in the area where in 2008 the day before Obama received his Nobel Peace prize a spiral vortex over Norway opened up. It is rather telling how the intent of the Peace prize was to spur on Obama to work toward a nuclear free world. Instead since then Obama has done the opposite on one hand in condoning Iran's nuclear program while egging on Russia to rearm and modernize its nuclear program, all the while US's nuclear facilities and infrastructure suffer from lack of modernization and readiness. The following is from the discloser of the rationale why the Nobel Peace Prize was given to Barach Hussein Obama.

'The Norwegian Nobel Committee has decided that the Nobel Peace Prize for 2009 is to be awarded to President Barack Obama for his extraordinary efforts to strengthen international diplomacy and cooperation between peoples. The Committee has attached special importance to Obama's vision of and work for a world without nuclear weapons.'

From the December 9, 2009 Spiral Vortex to the May 14, 2015 convergence of Ascension of Jesus and Israel's Independence is also another 1982 years or 5 years 5 months 5 days (5-5-5). In the occult, the 555 signifies resurrection. Does this imply that Jesus had a resurrection, Israel as a nation had a resurrection on May 14, 1948...will the AntiChrist to come has a similar code of a resurrection that is tied to this March 20 Eclipse that is pegged to a celestial portal in the area that the Eclipse is to occur?

Dec 9, 2009 to May 14, 2015 = 1982 days

This pattern and/or sequence approximates that the time for the Rapture of the Bride of Christ is at hand because the pattern the Equinox eclipses, for one it appears to mark-off the limits of how long the Church Age is to last based on the typology and superimposing of the Piscean constellation onto the timeline since Christ's ascension. This study is not emphatically asserting that 2015 will be the year of the Rapture but that it is at the door.

If the year 2034 is the outer limit of the Church Age, perhaps which would mean those 7 years prior to that time would be 2027. This would only mean that from 2015, there would be at the most some 12 years left to go for the Church Age to end. The point is that the next subsequent Equinox eclipse does not happen until 2406 AD, some 400 years later. What is unique about the 2015 series of eclipses is that the Religious New Year is pegged to the Civil New Year of YHVH by solar eclipses in phi ratio of time. In fact there are several day counts that are very peculiar when one factors in the series.

Peculiarity of the Equinox Eclipse

- 1. On the Equinox*
- 2. On a Super Moon*
- 3. A Total Solar Eclipse*
- 4. On YHVH's religious New Year*
- 5. Only the 9th since Christ*
- 6. A duplicate 27-19-19 year pattern*

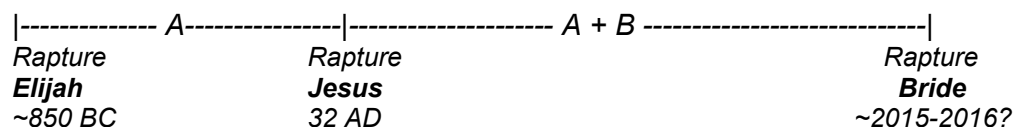

Prophetic Patterns of the Bible

As it has been shown in previous studies about the Equinox Eclipse Pattern since Creation and Christ, the pattern follows a phi ratio of progression of time based on mathematical precision. This is not only seen in the actual times of when the pattern occurs on the timeline but the constellations themselves follow the same phi ratio proportions. The point is that time; space and motion are subject to this hidden 'signature of GOD' as it is an irrational and eternal number. Like pi, the phi ratio is associated with the circle that has no beginning and no end. As to the timing of the Rapture of the Church, the Equinox eclipse pattern will be likened to a prophetic inference of this typology of the Astronomical Rapture.

The whole timeline of the Equinox Eclipses since Christ to the one on March 20, 2015 can also be pegged to its phi ratio proportion. This is assuming that the Crucifixion, Resurrection and Ascension happened in 32 AD. The other assumption is the time or date of Elijah's translation or Rapture near ~850 BC. This is why this study can only suggest an approximation of the 3rd Rapture to correspond to the end of the Church Age; the prior dates are in dispute. Nonetheless if this model and pattern is plausible, then given the incorporation of the phi ratio equation, it would appear that the Church Age and the Rapture are for sure to occur in this generation. Having this in mind and context when one applies the phi ratio to the ascension or Rapture of Jesus to the time of the Equinox eclipse in 2015, the 2 segments of time can triangulate the 3rd timeframe. This 3rd timeframe happens to correspond to the approximate time when Elijah was also translated or Raptured.

Thus this study strongly suggests that this pattern of the Piscean Code is in fact an attribute that is hinting that there is going to be a Rapture of the Church within a year at most; perhaps 5776. This again is speculative and only going off the Equinox eclipse patterns and the approximate delineation of time based of the phi ratio. The supposition is that there is going to be an Astronomical Rapture that is due to occur based on this pattern of an Elijah-Jesus-Bride Rapture based on the their phi ratio of time. The assertion that Elijah is also tied to the Rapture of the Church has to do with the 2 Fish of Pisces. This 2nd level of interpretation of the 2 Fish of Pisces has to do with what is going to occur at the point of the Rapture as some interpret the Bible's typologies.

Prophetic time of phi ratio

The Rapture of the Bride of Jesus is tied much like it was with Elijah and Elisha. When the LORD sent the celestial limousine, the fiery horse chariot for Elijah, it was because his commission was completed. As the 2 men of YHWH were walking along, it was understood that a 'translation' was about to occur. Isn't it a fact that at this point in time in history, even to the point of ridicule many in the world know that there is going to be a Rapture? When the 'Pegasus' came for him as a type of a trodden down and weak 'Andromeda', it was Elijah that went up, the 1st Fish of Pisces. It was Elisha that stayed with the Mantle of Elijah and went out, the 2nd Fish of Pisces.

Elijah was considered the Weeping Prophet because he witnessed to Israel, YHWH's people during a time of great apostasy and mistreatment; just like today in the last Church Age of apostate Laodicea. Elijah's vindication was the Rapture; the Bride's vindication will be the Rapture. In YHWH's promise to Abraham, David, Daniel and others, He will commission new Witness to carry on His Witness to the Nations and primarily to Israel. This was the case for Israel with the subsequent commissioning of Elisha. Thereafter Elisha witnessed to Israel and in a double portion during a time of drought and famine.

The Church Age has been a parenthetical time period often referred to as the Mystery Age, the Age of Grace, of the time of the Gentiles in-between the 69th and the 70th prophetic week of years given to Daniel. This supposes that the timeline of the Church Age will stop as the commission is thus transferred over to the 144,000 Jewish Evangelists and the 2 Witness for the purposes of the last prophetic week of Daniel to conclude Israel's discipline as foretold by the LORD Jesus on the Olivet Discourse. This will be the transference and testimony of Jesus back to the Jewish nation that will complete Daniel's revelation.

This will be what will occur at the time of the Rapture of the Bride of Christ. She that has been weak and broken at times but not defeated will take flight by the one who is coming from afar, a Pegasus, the LORD Jesus. This is what He told specifically to the Church of Philadelphia that they were to be kept from the 'hour' ...the Tribulation period that was to come to test those in the world and to discipline Israel and finish Daniel's 7th prophetic week of years. The Royal Commission of the Church is just about completed and the recalling of the King's Ambassadors home occurs just before war is declared. Christ will be declaring war on the Earth very soon.
