## About US

ISG is born in Vicenza, Italy, famous through the world for being home of the best fine silver jewelry manufacturers. We took that Italian quality, creativity, design and style and built a state of the art facility in the Dominican Republic Free Trade Zone, lowering production cost but maintaining a high-quality standard. Everything done under strict Italian supervision and machineries. All backed up with more than 60 years' experience.

We offer the whole range of jewelry production for women, men and children. We can provide all items from semi-finished products to finished fine jewelry.

Our goal has always been to offer a complete range of sterling silver and gold vermeil Italian jewelry, at the most competitive prices in the industry but with quality as our number one priority, in respect to Italian goldsmith's tradition.

We have a huge quantity of in stock items as well as our own designs, but developing new styles for customers is one of our greatest assets.
