Commanders Report

The Sam Davis Camp was ask to help dedicate the headstone of the ancestor of Wayne Saucier one of our newest members. As I studied Waynes ancestor Luke W. Conerly's military records and the history of his unit the 16th Mississippi Infantry it reinforced for me the hardships that our ancestors went through to fight for their home. The suffering and despair that our ancestors faced had to be unbearable. This war did not leave one Southern family untouched.

After 86 years Luke Conerly has a headstone that bears his history of his service to his state and the Confederacy. It was a real pleasure to be able to honor this Confederate soldier.

There is so many attacks on our heritage and the symbols of the Confederacy it almost hard to keep up with. Todays media, the push for multi-culturalism, the lack of history being taught in the schools is no wonder there are a bunch of air heads in society. Every day there is a new fight over our heritage. What will it take to end this culture genocide. Each and everyone of taking a stand and saying enough is enough. Our ancestors did their part. They left us with a great legacy to be proud of. Now it is up to us to defend it.

I am proud to be a member of the Sons of Confederate veterans and I hope you are too.
