Knowledge-Continuity makes an individual's knowledge (intellectual property) immortal. Every individual from age 14 keeps record of their life-experiences (both positive & unsettling). Family's must capture, preserve & nurture their intellectual-property.

Organizations must capture, preserve & re-use their employees, 'I-P'. Community's must utilize their citizens intellectual-property for the good of all. Provincial-Government keep Archives.

Intellectual-property, an individual's live-experience knowledge is preserved to become immortal. Knowledge-Continuity approach identifies critical knowledge & provides methods for capturing, applying & transferring that knowledge. Life-experiences are to be separated between work & personal.

When an employee leaves work, vast amounts of 'I-P (Intellectual-Property) are at risk. To counteract this brain-drain it is critical that the employee's 'I-P' is preserved. It is essential to capture & preserve this knowledge before the employee leaves. Capturing means audio (story-telling), video (showing), shadowing (work alongside).

Note! All 'I-P' (commercial, private) belongs to the 'Shire' (community). Claiming 'Copyright', Patent-right is stealing from the community, a crime **MS/R6**.

Family knowledge-sharing comes via children & grandchildren. Sharing means oral, audio (story-telling), video (showing), shadowing (hands on).
